30 April 2024

Objective

HJPN aims to track the performance of an index (before fees and expenses) that provides diversified exposure to the largest globally competitive Japanese companies, hedged into Australian dollars.

Benefits

Access globally competitive Japanese stocks

HJPN's portfolio includes only the largest Japanese companies that generate a substantial portion of their revenues from outside Japan.

Portfolio diversification

Diversified exposure to the Japanese sharemarket, which includes a number of sectors that are under-represented in the Australian sharemarket.

Currency hedged

HJPN's Japanese yen exposure is currency hedged, reducing the effect of currency fluctuations on portfolio performance.
