

Betashares Global Gold Miners ETF – Currency Hedged

 **ASX: MNRS**

30 April 2024

Objective

MNRS aims to track the performance of an index (before fees and expenses) that comprises the largest global gold mining companies (ex-Australia), hedged into Australian dollars.

Benefits

Diversification and defence

MNRS offers potential diversification and defensive benefits, as gold miners' fortunes are closely tied to the price of gold, which has traditionally tended to perform well during times of market volatility and uncertainty.

Spread gold sector risk

Investing in global gold miners enables you to simply and cost-effectively spread your risk beyond the relatively small Australian gold mining sector.

Cost-effective

Passive, index-tracking approach means no 'active manager' fees.

Reduced currency risk

Foreign currency exposure hedged to the Australian dollar.
