

ASX: QLTY

30 April 2024

Objective

QLTY aims to track an index (before fees and expenses) that comprises 150 global companies (ex-Australia) ranked by highest quality score.

The quality score rankings used to select the companies in the index are based on a combined ranking of four key factors – return on equity, debt-to-capital, cash flow generation ability and earnings stability.

Benefits

Access to the world's highest quality companies

QLTY's index has been designed to select quality global companies based on high return on equity and profitability, low leverage and earnings stability.

Outperformance potential

QLTY's focus on quality aims to produce superior long-term performance compared to benchmark global equities indices.

Diversification

In one ASX trade, access a portfolio of 150 high quality companies from a range of geographies and global sectors, many of which are under-represented in the Australian sharemarket.

Lower historical drawdown

QLTY's index of quality companies has historically exhibited reduced declines during market falls, compared to benchmark global shares indices.

Performance

PERIOD	1 mth	3 mth	6 mth	1 yr	3 yr (p.a.)	5 yr (p.a.)	10 yr (p.a.)	Inception (p.a.)
FUND	-5.00%	3.61%	18.13%	23.85%	11.53%	13.60%	-	14.71%
INDEX	-5.00%	3.66%	18.26%	24.10%	11.72%	13.78%	15.94%	14.87%

Fund returns are calculated in A\$ using net asset value per unit at the start and end of the specified period and do not reflect the brokerage or bid-ask spread that investors may incur when buying and selling units on the ASX. Returns are after fund management costs, assume reinvestment of any distributions and do not take into account income tax.

Fund information

Betashares Funds can be bought or sold during the trading day on the ASX, and trade like shares.
