- Must meet minimum market cap and liquidity requirements.
- Climate leaders are identified as companies in the top one-third in carbon efficiency in their industry, or are engaged in activities that can help reduce carbon emission by other industries.
- Removes companies with direct or material indirect (i.e. products, services, finance, or insurance) involvement in the fossil fuels industry, and those with particularly high use of fossil fuels.
- Excludes companies that are materially engaged in activities deemed to be inconsistent with ESG investment objectives (e.g. gambling, tobacco, armaments, junk foods, human rights).**
- ETHI's portfolio of ethically-screened large global stocks identified as 'Climate Leaders'.

**Screens listed above are not exhaustive and may include materiality thresholds. For a detailed list of screens and relevant thresholds, see the Product Disclosure Statement.
