# Betashares Global Quality Leaders ETF

**ASX: QLTY** 

# **29 February 2024**

# **Objective**

QLTY aims to track an index (before fees and expenses) that comprises 150 global companies (ex-Australia) ranked by highest quality score.

The quality score rankings used to select the companies in the index are based on a combined ranking of four key factors - return on equity, debt-to-capital, cash flow generation ability and earnings stability.

# **Benefits**

#### Access to the world's highest quality companies

QLTY's index has been designed to select quality global companies based on high return on equity and profitability, low leverage and earnings stability.

#### **Outperformance potential**

QLTY's focus on quality aims to produce superior long-term performance compared to benchmark global equities indices.

#### **Diversification**

In one ASX trade, access a portfolio of 150 high quality companies from a range of geographies and global sectors, many of which are under-represented in the Australian sharemarket.

#### Lower historical drawdown

QLTY's index of quality companies has historically exhibited reduced declines during market falls, compared to benchmark global shares indices.
