Exchange Traded Funds

TAX GUIDE 2020

ABOUT THIS TAX GUIDE

This Tax Guide has been prepared to assist you in completing your 2020 Australian Tax Return for Individuals in relation to your BetaShares exchange traded fund (BetaShares Fund) investment. This Tax Guide only contains basic information of a general nature about your investment in a BetaShares Fund and does not take into account your individual circumstances. Accordingly, you should not rely on this Tax Guide as taxation advice. You should seek professional advice when completing your tax return.

This Tax Guide assumes that:

- you are an individual taxpayer;
- you are an Australian tax resident; and
- you hold units in a BetaShares Fund for investment purposes and the Australian capital gains tax (**CGT**) rules apply to you.

This Tax Guide should be read in conjunction with the Australian Taxation Office's instructions for the 2020 Tax Return for Individuals (Supplementary Section).

AMIT REGIME

The BetaShares Funds elected into (or will elect into) the Attribution Management Investment Trust (**AMIT**) regime. Accordingly, the BetaShares Funds are now required to issue AMIT Member Annual Statements (**AMMA Statements**) instead of the previously issued Annual Tax Statement. Under the AMIT regime, you will be assessed on your share of taxable income, regardless of the amount you actually receive. In most cases, this should not be significantly different from how you were assessed in previous years.

The AMMA Statement will provide you with the relevant information required to complete your tax return. In most cases, the components should be unchanged from previous years. One exception is the concept of 'AMIT cost base net amount – net reduction' and 'AMIT cost base net amount – net increase'. These concepts are explained below.

If you hold units in more than one BetaShares Fund, you will receive a separate AMMA Statement for each BetaShares Fund you invest in. Furthermore, you will need to combine your relevant income information in order to determine the disclosures in your tax return if you derive investment income from more than one BetaShares Fund and/or from other sources.

You should prepare your tax return by referring to the relevant AMMA Statement, rather than the distribution statements that you may have received during the year.

AMIT MEMBER ANNUAL STATEMENT

The AMMA Statement is separated into seven parts and contains information that would generally be included in your 2020 Australian Tax Return for Individuals (Supplementary Section). If you had income from other sources during the year, you will need to combine the information from your AMMA statement and the information from your other sources when completing your tax return.

Distributions from your BetaShares Fund will need to be included in your tax return in the year of attribution, not the year of receipt. This means that distributions for the year ended 30 June 2020 should be included in your 2020 tax return, even though you may not have physically received all of those distributions until July 2020. A sample AMMA Statement is provided below.

PART A – INVESTOR DETAILS

Part A of the AMMA Statement contains your personal details. Please contact Link Market Services via the contact details as specified in the AMMA Statement if any of the details are incorrect.

PART B – SUMMARY OF 2020 TAX RETURN (SUPPLEMENTARY SECTION)

Non-Primary Production Income

The **Non-Primary Production Income** represents your share of the total income (excluding capital gains, franked distributions, and foreign income). You should disclose this amount at **Box U** of **Question 13** on your tax return.

Franked Distribution From Trusts

The **Franked Distribution From Trusts** amount represents your share of the franked dividends attributed to you, grossed up for franking credits. You should disclose this amount at **Box C** of **Question 13** on your tax return.

Share of Franking Credit from Franked Dividends

The **Share of Franking Credit from Franked Dividends** amount represents your share of franking credits. Your ability to claim franking credits is subject to certain rules. For further details you should refer to the Australian Taxation Office Publication “**You and Your Shares 2020**”. If you are entitled to claim an amount of franking credit, you should disclose this amount at **Box Q** of **Question 13** on your tax return.

Share of Credit for Tax Amounts Withheld

The **Share of Credit for Tax Amounts Withheld** is the withholding tax that has been deducted from your BetaShares Fund distribution because you have not provided your TFN, or claimed an exemption. You should disclose this amount at **Box R** of **Question 13** on your tax return.

Net Capital Gains

The **Net Capital Gains** amount represents your share of capital gains, after the application of capital losses and CGT discounts. You should disclose this amount at **Box A** of **Question 18** on your tax return. You should also mark “YES” at **Box G** of **Question 18** on your tax return if you have any capital gains/loss amounts.

Total Current Year Capital Gains

The **Total Current Year Capital Gains** amount represents your Net Capital Gains amount grossed-up for any capital losses and CGT discounts that may have applied. You should disclose this amount at **Box H** of **Question 18** on your tax return.

Do you have capital gains from other sources?

You may also have derived capital gains/losses from other sources (e.g. if you have sold your units in another BetaShares Fund). The relevant capital gains/losses would need to be combined with the figures from your AMMA Statement and disclosed in the abovementioned labels.

You should refer to the Australian Taxation Office Publication “**Guide to capital gains tax 2020**” or “**Personal investors guide to capital gains tax 2020**” to help you calculate your net capital gain/loss. As the capital gains tax rules are complex, you may also wish to seek professional advice.

Assessable Foreign Source Income

The **Assessable Foreign Source Income** amount represents your share of foreign source income attributed to you. This amount also includes your share of foreign income tax offsets. You should disclose this amount at **Box E** of **Question 20** on your tax return.

If you have any allowable expenses or losses relating to foreign source income, this may be applied to reduce the **Assessable Foreign Source Income** amount. This net amount should be your **Other Net Foreign Source Income**, and should be inserted at **Box M** of **Question 20** on your tax return. As the foreign source income rules are complex, you may wish to seek professional advice.

Foreign Income Tax Offsets

Your share of **Foreign Income Tax Offsets** represents the amount of tax paid in the country where the income was sourced. You should refer to the Australian Tax Office Publication “**Guide to foreign income tax offset rules 2020**” and/or seek professional advice to determine if you are entitled to the Foreign Income Tax Offsets.

If you are entitled to claim an amount of foreign income tax offset, you should disclose this amount at **Box O** of **Question 20** on your tax return.

PART B – CAPITAL GAINS TAX INFORMATION

Part B of the AMMA Statement provides further details regarding the various components of your capital gains for the income year. The amounts disclosed are gross amounts (i.e. amounts prior to the application of discounts). This information may be useful if you have any capital gains/losses during the year from other sources.

You should refer to the Australian Taxation Office Publication “**Guide to capital gains tax 2020**” or “**Personal investors guide to capital gains tax 2020**” to help you calculate your net capital gain. As the capital gains tax rules are complex, you may also wish to seek professional advice.

PART C – COMPONENTS OF ATTRIBUTION

Part C of the AMMA Statement identifies your share of the various components of investment income for the year ended 30 June 2020.

Several new tax components relating to non-concessional MIT income (NCMI) have been included in this year’s AMMA Statement. These new components are required as a result of recent legislative changes. Broadly, NCMI should only be relevant for investors who are not tax residents of Australia, as it may impact their non-resident withholding tax rate. You may wish to seek professional advice, if you believe you are not an Australian tax resident.

PART D – TAX OFFSETS

Part D of the AMMA Statement identifies your share of the different tax offsets. This includes franking credits and foreign income tax offsets.

PART E – AMIT COST BASE ADJUSTMENTS

AMIT Cost Base Adjustments – Net Reduction

Where your share of taxable income is less than the cash distribution you received in the relevant financial year, the difference is your **AMIT Cost Base Adjustments – Net Reduction** amount. This amount will decrease both the cost base and the reduced cost base of your units in the BetaShares Fund.

The decrease in the cost base of your units in the BetaShares Fund should be taken into account upon disposal of the units when calculating your capital gain/loss. The reduction in the cost base of the units in the BetaShares Fund may give rise to a capital gain if there is insufficient cost base to absorb the reduction.

AMIT Cost Base Adjustments – Net Increase

Where your share of taxable income is more than the cash distribution you received in the relevant financial year, the difference is your **AMIT Cost Base Adjustments – Net Increase** amount. This amount will increase the cost base and reduced cost base of your units in the BetaShares Fund.

The increase in the cost base of your units in the BetaShares Fund should be taken into account upon disposal of the units when calculating your capital gain/loss.

You should refer to the Australian Taxation Office Publications “**Guide to capital gains tax 2020**” or “**Personal investors guide to capital gains tax 2020**” to help you calculate your net capital gain. As the capital gains tax rules are complex, you may also wish to seek professional advice.

PART F – PAYMENT SUMMARY INFORMATION

Part F of the AMMA Statement should only be relevant for non-resident unitholders. This part identifies their share of various components of investment income that may be subject to Australia non-resident withholding tax and also the amount of Australia non-resident withholding tax levied.
