FANUC Corp

*Industrial Robotics and Automation*

FANUC is a leading manufacturer of industrial robots in the world. Established 60 years ago, FANUC has had more than 22.5 million products installed worldwide and employs 6000 people across a global network covering every continent.

FANUC focuses on developing robotic machines that can be fed specific instructions and then execute on those instructions with a high degree of accuracy and efficiency. FANUC is a forerunner in the “lights out” manufacturing process wherein its own robots build the products the company sells. The company’s factory operates without humans.

Intuitive Surgical Inc.

*Non-Industrial Robotics*

Intuitive Surgical, Inc. is an American company headquartered in California and is a pioneer in robotic-assisted, minimally invasive products used to assist medical professionals.

Intuitive develops, manufactures and markets the da Vinci Surgical System – designed to help surgeons perform minimally invasive surgery. The da Vinci Surgical System was one of the first robotic-assisted, minimally invasive surgical systems cleared by the FDA. Today a family of da Vinci systems and technologies is used by surgeons in all 50 U.S. States and 66 countries around the world.

Aerovironment Inc.

*Unmanned Vehicles and Drones*

Based in California, AeroVironment is a global leader in unmanned aircraft systems and tactical missile systems, and serves militaries, government agencies, businesses and consumers.

AeroVironment is most well-known for developing a series of lightweight human-powered and then solar-powered vehicles. AeroVironment is the Pentagon’s top supplier of small drones. In early 2018, AeroVironment announced it would design and develop solar-powered high-altitude unmanned aircraft and ground control stations for a joint venture with Japanese telco SoftBank.
