## A200 management costs vs other Australian shares ETFs

Source: ASX. Fees as at 31 December 2021. Graph compares management fees of A200 vs the 3 largest broad Australian shares ETFs.

\*Management costs comprise the management fee, which is inclusive of other ongoing expenses of the Fund excluding transactions costs of buying and selling the Fund's investments.

\*\*Source: Bloomberg, based on expense ratios of Australian shares ETFs traded in Australia or on overseas exchanges.

## DO LOW INVESTMENT FEES REALLY MAKE A DIFFERENCE? YOU BET!

Seemingly small differences in management fees may not at face value appear to matter all that much to investment returns, but thanks to the power of compounding, it can amount to a lot over time.

To illustrate, assume an initial investment of \$10,000 growing in real terms by 5% p.a. for 40 years. If the investor had paid an active investment management fee of 1.55% p.a., after 40 years their investment would have been worth \$38,835.

If the investor had paid A200's 0.07% p.a. investment fee, with the same pre-fee investment performance their nest egg after 40 years would have been worth \$68,547 – or 77% more.

## Buy and sell like any share on the ASX using the code: A200
