

ASX: BBUS

A leveraged way to seek to profit from, or protect against a falling US sharemarket

The Betashares U.S. Equities Strong Bear Hedge Fund - Currency Hedged (ASX: BBUS) provides a simple way to generate magnified returns that are negatively correlated to the US sharemarket on a given day.

PORTFOLIO HEDGING

You can use BBUS to protect against a decline in the US sharemarket, without having to sell your shares and crystallise capital gains.

SIMPLE AND COST-EFFECTIVE TO ACCESS

You can buy and sell BBUS on the ASX as simply as any share, avoiding the costs and complications of futures, CFDs and short selling.

SEEK MAGNIFIED PROFIT FROM A DECLINING US MARKET

BBUS offers the potential for magnified positive returns when the US sharemarket falls on a given day (but with magnified negative returns when the market rises). A 1% fall in the US share market on a given day can generally be expected to deliver a 2.0% to 2.75% increase in the value of BBUS (and vice versa).

NO MARGIN CALLS

Unlike most other investments providing 'short' exposure, you cannot lose more than your initial investment. There are no margin calls for investors.

BBUS vs S&P/ASX 500 Index performance: April 2015 – 31 July 2023

Source: Betashares, Bloomberg. Past performance is not indicative of future performance. Please note, BBUS's portfolio is managed actively and should not be expected to provide any particular short multiple of the market return over any time period. BBUS does not track a published benchmark.

How to use BBUS in a portfolio:

- Hedge a portfolio of US shares against a decline in the US sharemarket on a given day.
- Access the potential for leveraged returns if the US sharemarket falls on a given day.

Gearing magnifies gains and losses, involves significantly higher risk than non-g geared investments, and may not be a suitable strategy for all investors.

Buy and sell like any share on the ASX using the code: BBUS

Betashares Capital Ltd (ABN 78 139 566 868 AFS Licence 341181) is the issuer. Read the Target Market Determination and PDS at www.betashares.com.au and consider with your financial adviser whether the product is appropriate for your circumstances. The value of the units may go down as well as up. The Fund should only be considered as a component of a diversified portfolio.
