

ASX: DRIV

Invest in the automotive technology revolution

The Betashares Electric Vehicles and Future Mobility ETF (ASX: DRIV) provides cost-effective exposure to a portfolio of leading global innovators in automotive technology.

GROWTH POTENTIAL

Sales of electric vehicles are projected to grow strongly in coming years, while the transition to smarter vehicles is likely to significantly increase the use of semi-conductors and high-tech componentry in cars.

EXPOSURE TO AUTOMOTIVE TECHNOLOGY INNOVATORS

DRIV provides exposure to up to 50 of the world's leading automotive technology companies, including Tesla, Uber Technologies, NIO and Aptiv.

PORTFOLIO DIVERSIFICATION

DRIV offers potential portfolio diversification benefits to Australian investors, given that automotive technology is under represented in the Australian market.

COST-EFFECTIVE

With management costs of only 0.67% p.a. (or \$67 for every \$10,000 invested), DRIV is a cost-effective way to gain exposure to the growth potential of the electric vehicles and automotive technology thematic¹.

DRIV's Index vs. MSCI World Index: 31 May 2017 - 31 July 2023

Source: Bloomberg. DRIV's inception date was 13 December 2021. Chart shows Index performance (not actual fund performance) after deducting DRIV's management costs of 0.67% p.a. to illustrate the longer-term historical performance of leading global innovators in automotive technology captured by the Index. Past performance is not an indicator of future performance of the Index or DRIV. You cannot invest directly in an Index. DRIV's returns can be expected to be more volatile (i.e. vary up and down) than a broad global shares exposure, given its concentrated sector exposure.

Buy and sell like any share on the ASX using the code: DRIV

¹Other costs, such as transaction costs, may apply. Refer to the PDS for more information.

Betashares Capital Ltd (ABN 78 139 566 868 AFS Licence 341181) is the issuer. Read the Target Market Determination and PDS at www.betashares.com.au and consider with your financial adviser whether the product is appropriate for your circumstances. The value of the units may go down as well as up. The Fund should only be considered as a component of a diversified portfolio.

How to use DRIV in a portfolio:

- Tactical allocation to the electric vehicles and automotive technology thematic.
- As a complement to broad market core exposures.

DRIV is part of the Betashares range of thematic ETFs, which have been designed to provide investors with exposure to thematic growth opportunities driven by long-term transformational megatrends in a single ASX trade.

There are risks associated with an investment in the Fund, including market risk, sector risk, international investment risk and concentration risk. The Fund's returns can be expected to be more volatile (ie vary up and down) than broad shares exposure, given its more concentrated exposure. The Fund should only be considered as a component of a diversified portfolio. For more information on risks and other features of the Fund, please see the Product Disclosure Statement.
