

ACCESS THE WORLD'S FASTEST-GROWING ECONOMIES IN ONE EASY TRADE

The BetaShares Legg Mason Emerging Markets Fund (managed fund) (ASX: EMMG), managed by Franklin Templeton's Specialist Investment Manager, Martin Currie, is a new and effective way to tap into the growth opportunity emerging markets offer. The Fund holds an actively managed, high-conviction portfolio of carefully selected emerging market companies.

Invest in the world's fastest-growing economies

Emerging markets are already the largest contributor to world economic production (GDP) and continue to grow at a much faster rate than the more mature developed economies. Their growth is driven by their large populations and strong secular trends that include attractive demographics (young, increasingly educated and growing middle classes), urbanisation, disruptive technologies and innovation.

Local (not multi-national) company focus

Increasing corporate diversity and significant barriers to entry across emerging markets mean local emerging market companies offer better potential for diversification both regionally and at the corporate level.

Active stock selection with embedded ESG

Compared with the majority of developed markets, emerging markets exhibit a significant amount of informational and structural inefficiency. In this environment, an active manager can potentially add considerable value, with greater scope for identifying mispriced opportunities through proprietary research and fundamental company analysis.

Highly experienced investment team

The Martin Currie emerging markets team has a wealth of investment and emerging markets experience. The team's collegiate culture encourages robust challenge and debate in search of the best investment opportunities.

WHY INVEST IN EMERGING MARKETS?

Growth - Exposure to some of the fastest growing economies and most exciting companies in the world that are benefiting from rapid development, urbanisation, and political and social reform.

Diversification – Provides global exposure and access to companies and sectors not well represented in the domestic sharemarket.

Global technology exposure – Emerging markets are at the forefront of the global tech revolution and include leading companies such as Samsung, Tencent and Alibaba.

No assurance is given that the above companies will be held in the portfolio or will be profitable investments.

EMMG is managed by Franklin Templeton's Specialist Investment Manager, Martin Currie, a global active equity specialist, crafting high-conviction portfolios which aim to deliver attractive and consistent risk-adjusted returns.

There are risks associated with an investment in the Fund, including market risk, emerging markets risk, currency risk and market making risk. For more information about risks and other features of the Fund, please see the Product Disclosure Statement.

The Fund can be bought and sold like any share using the **ASX code: EMMG**
