

ASX: EARTH

A portfolio of global companies leading the fight against climate change

The Betashares Climate Change Innovation ETF (ASX: EARTH) provides exposure to a portfolio of some of the world's leading companies at the forefront of tackling today's climate and environmental challenges.

EXPOSURE TO AN INVESTMENT 'MEGATREND'

Demand for products and services to tackle the world's growing climate and environment related problems is anticipated to rise strongly over the long term.

MAKE A DIFFERENCE

By supporting companies that are leading the fight to create a more sustainable planet, investors in EARTH can be confident that their investment dollars are having a positive impact.

'PURE' EXPOSURE TO CLIMATE CHANGE THEMATIC

ERTH's index methodology applies a 50% 'green revenue' threshold to each holding, which means portfolio holdings provide a relatively 'pure' exposure to the Climate Change thematic.

BROAD RANGE OF CLIMATE INNOVATION, ESG SCREENS APPLIED

ERTH provides exposure to a broad range of solutions, including clean energy, electric vehicles, energy efficiency technologies, sustainable food, water efficiency and pollution control.

Eligibility for inclusion in EARTH

To be eligible for inclusion in EARTH, a company must derive at least 50% of its business revenue from activities that enable the reduction or avoidance of CO2 emissions within one or more of the following categories:

- Green energy
- Green transportation
- Water and waste improvements
- Sustainable products
- Decarbonisation enabling solutions

Examples of EARTH portfolio holdings:

Vestas	Wind power generation
TRANE	Energy efficient indoor climate solutions
PLUG POWER	Hydrogen fuel cells
TESLA	Transport energy efficiency
ECOLAB	Water, hygiene and infection prevention
umicore	Recycling and waste processing

No assurance is given that these companies will remain in the portfolio or generate positive returns.

Betashares Capital Ltd (ABN 78 139 566 868 AFS Licence 341181) is the issuer. Read the Target Market Determination and PDS at www.betashares.com.au and consider with your financial adviser whether the product is appropriate for your circumstances. The value of the units may go down as well as up. The Fund should only be considered as a component of a diversified portfolio.

Companies with direct involvement in fossil fuel activities, and certain other negative business activities, are excluded.

- Companies must be listed on a securities exchange in a developed country, or one of a range of emerging markets.
- Up to 100 of the largest companies that meet the 50% environmental related activities revenue threshold are included in the Index.
- Companies with direct involvement in fossil fuel activities, and certain other negative business activities, are excluded.

Investment risks include market risk, international investment risk, sector risk and non-traditional index methodology risk. The Fund's returns can be expected to be more volatile (ie vary up and down) than broad shares exposure, given its more concentrated exposure. For more information on risks and other features of the Fund, please see the Product Disclosure Statement.
