

A portfolio of global companies leading the fight against climate change

The BetaShares Climate Change Innovation ETF provides exposure to a portfolio of some of the world's leading companies at the forefront of tackling today's climate and environmental challenges.

EXPOSURE TO AN INVESTMENT 'MEGATREND'

Demand for products and services to tackle the world's growing climate and environment related problems is anticipated to rise strongly over the long term.

MAKE A DIFFERENCE

By supporting companies that are leading the fight to create a more sustainable planet, investors in ERTH can be confident that their investment dollars are having a positive impact.

'PURE' EXPOSURE TO CLIMATE CHANGE THEMATIC

ERTH's index methodology applies a 50% 'green revenue' threshold to each holding, which means portfolio holdings provide a relatively 'pure' exposure to the Climate Change thematic.

BROAD RANGE OF CLIMATE INNOVATION, ESG SCREENS APPLIED

ERTH provides exposure to a broad range of solutions, including clean energy, electric vehicles, energy efficiency technologies, sustainable food, water efficiency and pollution control.

Companies with direct involvement in fossil fuel activities, and certain other negative business activities, are excluded.

Eligibility for inclusion in ERTH

To be eligible for inclusion in ERTH, a company must derive at least 50% of its business revenue from activities that enable the reduction or avoidance of CO2 emissions within one or more of the following categories:

- Green energy
- Green transportation
- Water and waste improvements
- Sustainable products
- Decarbonisation enabling solutions

Examples of ERTH portfolio holdings:

	Wind power generation
	Energy efficient indoor climate solutions
	Hydrogen fuel cells
	Transport energy efficiency
	Semiconductor manufacturer
	Recycling and waste processing

No assurance is given that these companies will remain in the portfolio or generate positive returns.
