The BetaShares Australian Ex-20 Portfolio Diversifier ETF (ASX: EX20) provides exposure to a portfolio of the 180 largest companies on the Australian sharemarket, outside of the top 20.

PORTFOLIO DIVERSIFICATION

EX20's portfolio specifically **excludes** the largest 20 ASX-listed companies that many investors may already be holding, such as the big banks and mining companies.

In addition, the companies in EX20's portfolio are spread across different sectors and industries, helping to reduce potential risks associated with concentration to individual shares and sectors.
