

Access Australian sustainability leaders in one ASX trade

FAIR provides cost-effective and transparent exposure to a diversified portfolio of sustainable, ethical Australian companies.

A TRUE TO LABEL ETHICAL AUSTRALIAN ETF

FAIR's investment methodology includes stringent screening criteria to ensure investors get access to a true to label portfolio of ethical Australian companies.

INDUSTRY CERTIFIED

In one simple ASX trade, investors gain exposure to a diversified portfolio of ethical Australian companies. ETHI has been certified as meeting the Australasian Responsible Investment Standard by the Responsible Investment Association Australasia (RIAA)*.

TRANSPARENT

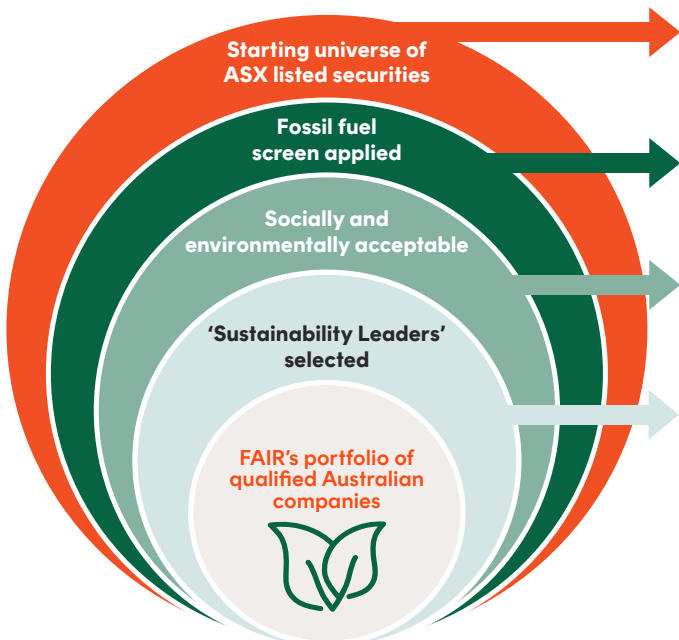

FAIR's portfolio holdings, value of the Fund's assets and net asset value per unit available daily on our website.

COST-EFFECTIVE

FAIR tracks the performance of an index, so there are no 'active manager' fees.

The screening process for FAIR

- Listed on the Australian Securities Exchange.
- Must meet minimum market cap and liquidity requirements.
- Removes companies with direct or material indirect involvement in the fossil fuels industry, and those with particularly high use of fossil fuels.
- Excludes companies that are materially engaged in activities deemed to be inconsistent with ESG investment objectives (e.g. gambling, tobacco, armaments, junk foods, human rights)**.
- 'Sustainability Leaders' are then identified from the remaining universe based on their involvement in business activities aligned with the UN Sustainable Development Goals (e.g. renewable energy, water efficiency, health and education).
- Companies identified as 'Sustainability Leaders' are given preference in the Index.

**Screens listed above are not exhaustive and may include materiality thresholds. For a detailed list of screens and relevant thresholds, see the Product Disclosure Statement.
