

Access Australian sustainability leaders in one ASX trade

FAIR provides cost-effective and transparent exposure to a diversified portfolio of sustainable, ethical Australian companies.

A "TRUE TO LABEL" ETHICAL AUSTRALIAN ETF

FAIR's investment methodology consists of stringent screening criteria to ensure investors get access to a 'true to label' portfolio of ethical Australian companies.

DIVERSIFICATION

FAIR does not invest in any of the "Big 4 Banks", or large Australian mining companies.

In one simple ASX trade, investors gain exposure to a diversified portfolio of ethical Australian companies.

TRANSPARENT

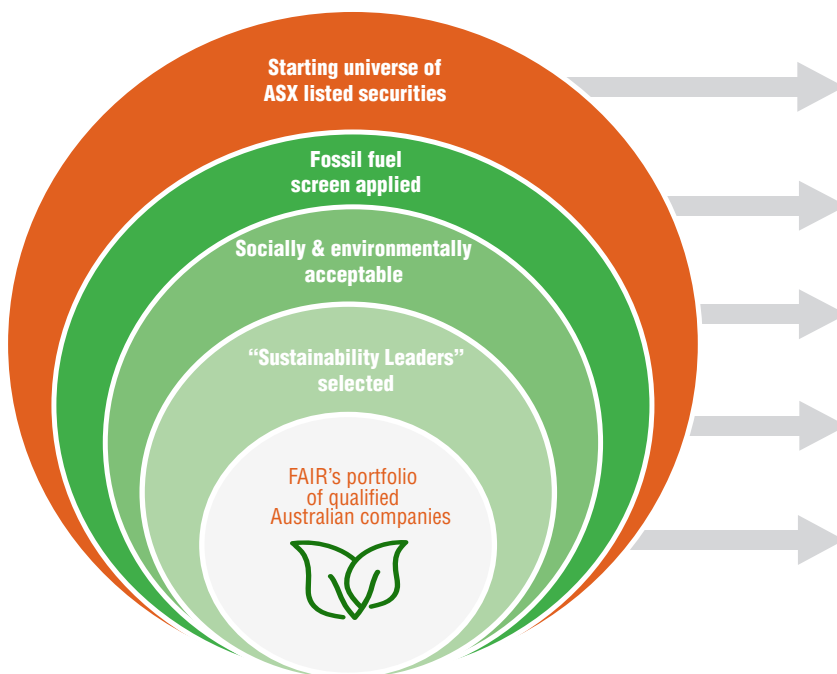

FAIR's portfolio holdings, value of the Fund's assets and net asset value per unit available daily on our website.

LOW COST

FAIR tracks the performance of an index, so there are no 'active manager' fees.

The screening process for FAIR

- Listed on the Australian Securities Exchange
- Must meet minimum market cap and liquidity requirements
- Removes companies with direct or indirect involvement in the fossil fuels industry, and those with particularly high use of fossil fuels
- Excludes companies with all-male boards.
- Broad exclusion screens to avoid companies engaged in activities deemed inconsistent with ESG investment objectives (e.g. gambling, tobacco and animal cruelty)
- "Sustainability Leaders" are then identified from the remaining universe based on their involvement in sustainable business activities (e.g. renewable energy, water efficiency etc)
- Companies identified as "Sustainability Leaders" are given preference in the Index

Buy and sell like any share on the ASX using the code: FAIR

BetaShares Capital Ltd (ACN 139 566 868 AFS Licence 341181) is the issuer. Read the PDS at www.betashares.com.au and consider with your financial adviser whether the product is appropriate for your circumstances. The value of the units may go down as well as up.
