

Access outperformance opportunities from a diverse portfolio of the world's highest quality companies.

BetaShares Global Quality Leaders ETF (ASX: QLTY) provides exposure to a diversified portfolio of 150 global companies (ex-Australia) in a single ASX trade.

A QUALITY INVESTMENT APPROACH

QLTY aims to track the performance of an index that has been designed to select quality global companies based on high return on equity and profitability, low leverage and earnings stability.

OUTPERFORMANCE POTENTIAL

QLTY's methodology aims to produce superior long-term performance compared to benchmark global equities indices.

PORTFOLIO DIVERSIFICATION

QLTY provides exposure to companies from a broad range of global locations and across a wide range of sectors, many of which are under-represented in the Australian sharemarket.

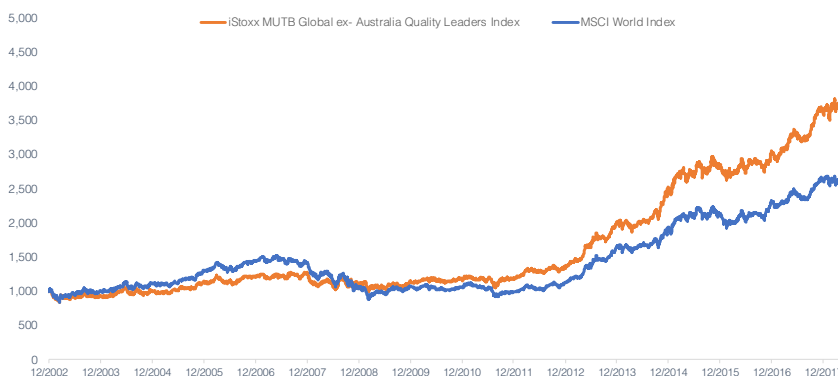

COST-EFFECTIVE

With management costs of only 0.35% p.a. (or \$35 for every \$10,000 invested), QLTY is a cost-effective solution for investors seeking exposure to the performance of quality, global companies.

QLTY's Index has delivered long-term outperformance vs MSCI World Index.

Graph shows performance of iSTOXX MUTB Global ex-Australia Quality Leaders Index (which QLTY aims to track) and MSCI World Index, not ETF performance and does not take into account ETF management costs. You cannot invest directly in an index. Past performance is not an indicator of future performance of Index or ETF.

HOW TO USE QLTY IN A PORTFOLIO:

QLTY can be used in a variety of investment strategies, for example:

- As a core allocation to global shares providing transparency and diversification benefits
- Tactical exposure to global shares
- A low-cost complement or alternative to active fund managers focused on global shares.

There are risks associated with investment in the Fund, including market risk, index methodology risk, international investment risk, concentration risk and currency risk. See PDS.
