

**ASX: TANN**

# Invest in the solar energy revolution

The Betashares Solar ETF (ASX: TANN) provides cost-effective exposure to leading global companies in the solar energy industry.

## GROWTH POTENTIAL

The demand for solar powered energy solutions is set to grow strongly in coming decades, reflecting both solar energy's critical role in efforts to combat global warming, and its rapidly improving cost competitiveness. Solar is projected to grow from ~3% of total electricity production in 2020 to ~30% by 2050<sup>1</sup>.

## EXPOSURE TO LEADING SOLAR ENERGY COMPANIES

TANN provides exposure to leading global companies in the solar energy industry including solar panel manufacturers, inverter suppliers, installers, manufacturers of solar powered charging and energy storage systems, and providers of solar project finance.

## PORTFOLIO DIVERSIFICATION

TANN offers access to a portfolio of leading solar energy companies across a number of geographic regions, reducing stock and region-specific risk compared to investing in individual companies in the solar energy industry.

## COST-EFFECTIVE

With management costs of only 0.69% p.a. (or \$69 for every \$10,000 invested), TANN is a cost-effective way to gain exposure to the solar energy revolution.<sup>2</sup>

## Global Electricity Production by Source: 2010 to 2050 (forecast)

Source: International Energy Agency

Note: Actual outcomes may differ materially from projected outcomes.

## Buy and sell like any share on the ASX using the code: TANN

<sup>1</sup>International Energy Agency (IEA).

<sup>2</sup>Other costs, such as transaction costs, may apply. Refer to the PDS for more information.

Betashares Capital Ltd (ABN 78 139 566 868 AFS Licence 341181) is the issuer. Read the Target Market Determination and PDS at [www.betashares.com.au](http://www.betashares.com.au) and consider with your financial adviser whether the product is appropriate for your circumstances. The value of the units may go down as well as up. The Fund should only be considered as a component of a diversified portfolio.

## How to use TANN in a portfolio:

- Tactical allocation to the solar energy thematic.
- As a complement to broad market core exposures.

TANN is part of the Betashares range of thematic ETFs, which have been designed to provide investors with exposure to thematic growth opportunities in a single ASX trade.

There are risks associated with an investment in the Fund, including market risk, sector concentration risk, international investment risk and regulatory risk. The Fund's returns can be expected to be more volatile (ie vary up and down) than a broad global concentrated exposure. The Fund should only be considered as a component of a diversified portfolio. For more information on risks and other features of the Fund, please see the Product Disclosure Statement.
