

## Betashares Australian Government Bond ETF: PDS Update

Betashares Capital Ltd, as responsible entity of the Fund, may update information in the Fund's Product Disclosure Statement (PDS) by issuing a supplementary PDS. However, for product updates that are not materially adverse to unitholders, we may notify unitholders via our website. Any such updates should be read together with the PDS.

The following non-materially adverse changes to the Fund's PDS have been made.

**PDS date:** 16 September 2022

**Date of update:** 19 February 2024

**Nature of update:** The index methodology for the Solactive Australian Government 7-12 Year AUD TR Index ("Index"), which the Fund aims to track before fees and expenses, has been updated by Solactive AG, the index provider. The minimum issuance size for securities in Band 2 has been lowered from \$500 million to \$250 million (with the minimum issuance size for Band 1 securities being unchanged).

To reflect this revision, the Fund's PDS is updated in section 2.1.3 "About the Index" on page 7, by replacing the following statement, in the third bullet point of the fourth paragraph:

"have a minimum issuance size of \$500 million."

with the following statement:

"have a minimum issuance size of \$500 million for Band 1 and \$250 million for Band 2 (as described below)."
