## SUPPLEMENTARY PRODUCT DISCLOSURE STATEMENT

DATED: 23 MARCH 2026  
ISSUER: BETASHARES CAPITAL LTD  
ABN: 78 139 566 868  
AFS LICENCE: 341181

This Supplementary Product Disclosure Statement ("SPDS") is supplemental to the Product Disclosure Statement dated 18 September 2025 in respect of Betashares Wealth Builder Diversified All Growth Geared (30-40% LVR) Complex ETF, Betashares Wealth Builder Australia 200 Geared (30- 40% LVR) Complex ETF, Betashares Wealth Builder Nasdaq 100 Geared (30-40% LVR) Complex ETF and Betashares Wealth Builder Global Shares Geared (30-40% LVR) Complex ETF (the "PDS").

The PDS and this SPDS should be read together.

A copy of this SPDS has been lodged with the Australian Securities and Investments Commission ("ASIC") on 23 March 2026. Neither ASIC nor ASX Limited takes any responsibility for the contents of this SPDS.

Terms defined in the PDS have the same meanings when used in this SPDS.

This SPDS amends certain information relevant to Betashares Wealth Builder Diversified All Growth Geared (30-40% LVR) Complex ETF ("Fund"). No changes are being made to the other funds under the PDS.

### **Betashares Wealth Builder Diversified All Growth Geared (30-40% LVR) Complex ETF: Addition of Underlying ETF to provide investment exposure effective 30 March 2026**

As stated in the PDS, the Responsible Entity intends to obtain the Fund's exposure to a broadly diversified basket of Australian and global equities by investing in the Underlying ETFs noted in the Product Supplement for the Fund.

Betashares Emerging Markets Complex ETF (ASX: BEMG) has been selected as an additional Underlying ETF for the Fund to provide investment exposure to emerging markets equities, effective 30 March 2026. There is no change to the Fund's strategic asset allocation.

Accordingly, the following specific changes are made to the PDS, effective 30 March 2026:

#### ***Product Supplement for the Fund, section titled "Investment Strategy"***

The table and the text following the table are replaced with the following:

<b>Asset Class</b>	<b>Strategic Asset Allocation</b>	<b>Underlying ETFs selected to provide investment exposure</b>
Australian Equities	37.0%	Betashares Australia 200 ETF (ASX: A200), a fund which is benchmarked to the Solactive Australia 200 Index
International Equities	44.1%*	Betashares Global Shares ETF (ASX: BGBL), a fund which is benchmarked to the Solactive GBS Developed Markets ex Australia Large & Mid Cap Index  iShares Core MSCI Emerging Markets ETF (NYSE: IEMG), a fund which is benchmarked to the MSCI Emerging Markets IMI NTR Index  Betashares Emerging Markets Complex ETF (ASX: BEMG), a fund which is benchmarked to the MSCI Emerging Markets Net Total Return Index
Currency Hedged International Equities	18.9%	Betashares Global Shares Currency Hedged ETF (ASX: HGBL), a fund which is benchmarked to the Solactive GBS Developed Markets ex Australia Large & Mid Cap Hedge AUD Index
<b>Total Growth Assets</b>	<b>100.0%</b>	

\*Within the allocation to International Equities, the Fund may use more than one Underlying ETF to provide investment exposure. The Underlying ETFs selected provide exposure to global developed markets equities and emerging markets equities respectively. In combination, they provide the desired exposure. The Underlying ETFs will be rebalanced on a quarterly basis corresponding to the combined free float market capitalisations of the constituents of the respective indices which they aim to track.

For example, if, at the end of a quarter, the BGBL ETF's index constituents represent 86% and the combined index constituents of the emerging markets Underlying ETFs (IEMG and BEMG) represent 14% of the combined free float market capitalisations of the respective indices tracked by the Underlying ETFs, and the strategic asset allocation to International Equities is 44.1%, the allocation to BGBL ETF at rebalance will be 86% of 44.1% = 37.9% and the allocation to the emerging markets Underlying ETFs (IEMG and BEMG) will be 14% of 44.1% = 6.2%.

The Fund's asset allocation will be rebalanced back to the above SAA weightings if market movements or other circumstances cause the allocation to an asset class to deviate from the SAA by more than 2% as at the end of each calendar quarter. In addition, the Fund will be rebalanced back to the above SAA weightings at least annually.

The SAA is reviewed, and may be adjusted, annually.

To the extent the Fund has exposure to Betashares Emerging Markets Complex ETF, the Fund's indirect exposure to over-the-counter derivatives counterparties is managed so that it does not exceed a maximum of 10% of the total assets of the Fund.

***Product Supplement for the Fund, section titled "Specific Risk Factors"***

The following sections are added after the "Foreign exchange risk" section:

**Underlying ETF derivatives risk**

An Underlying ETF selected to provide investment exposure, Betashares Emerging Markets Complex ETF, invests into an exchange traded fund which obtains investment exposure to its reference index via over-the-counter derivatives swap agreements. There is a risk that a derivatives counterparty may default, fail to perform its obligations, terminate a derivative early, restrict the availability or size of the derivative, or increase its fees (including due to regulatory or market changes). The value of the derivatives may also not move in line with the value of the underlying assets or index, and derivatives may be illiquid or difficult or costly to manage or replace. Any of these events could cause the Underlying ETF (and therefore the Fund) to incur losses, suffer increased costs, or fail to achieve its investment objective.

**Emerging markets risk**

The Fund is expected to have some exposure to emerging markets equities, which can be expected to be more volatile and subject to greater risks than investments in Australia or in other developed markets, including due to factors such as lower liquidity, the potential for political unrest, the increased likelihood of sovereign intervention (including default and currency intervention), currency volatility, repatriation of both investment income and capital may be subject to restrictions, and increased legal and tax risk.

***Product Supplement for the Fund, section titled "Disclaimer"***

The section is replaced with the following:

**DISCLAIMER**

Neither the Fund nor any Underlying ETF is sponsored, promoted or sold by any index provider, nor does any index provider offer any express or implicit guarantee, assurance, representation or warranty with respect to the Fund or any Underlying ETF.
