IMPORTANT INFORMATION

About this PDS

This Product Disclosure Statement (**PDS**) is dated 19 July 2019.

BetaShares Capital Ltd ABN 78 139 566 868 AFS Licence 341181 is the issuer of this PDS and is responsible for its contents. In this PDS references to the "Responsible Entity", "BetaShares", "we", "our" and "us" refer to BetaShares Capital Ltd.

This PDS is the offer document for the following registered managed investment schemes: BetaShares Europe ETF - Currency Hedged (ARSN 609 145 897) and BetaShares Japan ETF - Currency Hedged (ARSN 609 146 269). These are referred to in this PDS individually as "Fund" and collectively as "Funds" or "BetaShares Funds".

A copy of this PDS has been lodged with the Australian Securities and Investments Commission (**ASIC**) on 19 July 2019. Neither ASIC nor ASX Limited ("ASX") takes any responsibility for the contents of this PDS.

Each Fund commenced operations in 2016. An application was made to, and approved by, the ASX for Units in each Fund to be quoted for trading on the AQUA market of the ASX. The Units are currently quoted for trading on the AQUA market of the ASX under the AQUA Rules.

The PDS is designed so that one or a number of BetaShares exchange traded funds may be offered under it over time. Additional Funds may be added by the Responsible Entity issuing a supplementary PDS or a new PDS.

A copy of the latest PDS for the Fund or Funds being offered is available on the BetaShares website at www.betashares.com.au or by contacting BetaShares on (02) 9290 6888. A paper copy will be provided free of charge on request.

The offer

The offer under this PDS is for persons who have been authorised as 'trading participants' under the ASX Operating Rules. Certain sections of the PDS (particularly those relating to applications for and redemptions of Units in the normal course) are of direct relevance to such persons only.

Other investors cannot apply for Units under this PDS, but can buy Units on the ASX through a stockbroker, or via a financial adviser. Such investors may use this PDS for information purposes only.

The offer to which this PDS relates is available to Authorised Participants receiving the PDS (electronically or otherwise) in Australia.

This PDS does not constitute an offer of securities in any jurisdiction where, or to any person to whom, it would be unlawful to make such an offer.

No action has been taken to register or qualify the Funds in any jurisdiction outside Australia and New Zealand, although the Responsible Entity reserves the right to do so at any time. The distribution of this PDS outside Australia and New Zealand may be restricted by law and persons who come into possession of this PDS outside Australia and New Zealand should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities law.

Units have not been registered under the United States Securities Act of 1933 (as amended) and except in a transaction which does not violate such Act, may not be directly or indirectly offered or sold in the United States of America or any of its territories or for the benefit of a US Person (as defined in Regulation S of such Act).

PDS updates

Information in this PDS that is not materially adverse to investors is subject to change from time to time and may be updated by the Responsible Entity by publishing such information on the BetaShares website at www.betashares.com.au. A paper copy of any updated information will be provided free of charge on request. Any new or updated information that is materially adverse to investors will be available to investors via a supplementary or new PDS accessible via the ASX Market Announcements Platform.

Risks

An investment in the Units is subject to risk (refer to section 4 and the Product Supplement), which may include possible delays in repayment and loss of income and capital invested.

None of BetaShares Holdings Pty Ltd, BetaShares, or any of their related entities, directors or officers gives any guarantee or assurance as to the performance of, or the repayment of capital or income reinvested in, the Funds described in this PDS. BetaShares Holdings Pty Ltd and its related entities may invest in, lend to or provide other services to the Funds.

Not personal advice

This PDS is prepared for general information only and is not financial product advice. It is not intended to be a recommendation by the Responsible Entity, any of the Responsible Entity's associates or any other person to invest in the Funds. In preparing this PDS, the Responsible Entity did not take into account the investment objectives, financial situation or particular needs of any particular person. Before making an investment decision, investors need to consider whether an investment in the Funds is appropriate to their needs, objectives and circumstances.

Investors should consult a professional financial adviser and ensure they understand the risks of the Funds before investing.

Definitions

Certain capitalised terms used in this PDS are defined in the Glossary in section 8. All references to dollar amounts in this PDS are to Australian dollars unless otherwise stated.

For further details on BetaShares Funds, please contact a stockbroker or financial adviser or visit www.betashares.com.au.

1 KEY FEATURES

1.1 WHAT IS AN ETF?

An exchange traded fund (or “ETF”) is an investment vehicle traded on a stock exchange, such as the ASX, much like listed shares. ETFs generally aim to provide investors with exposure to a return that tracks the return of a particular index.

Indices are a method of measuring the performance of a financial market, or a segment of a financial market. Most commonly, an index measures the performance of a particular portfolio of shares, bonds or other securities that comprise the index.

Information on the indices applicable to the BetaShares Funds is set out in the Product Supplement appearing after section 8.

An ETF may not replicate the performance of the relevant index exactly, but rather generally aims to minimise any deviation from the index, before fees and expenses, as much as possible.

ETFs combine certain features of index managed funds and listed shares in one investment. Like index managed funds, ETFs come with the benefits of diversification, transparency and attractive fee levels. Unlike index managed funds, however, ETFs trade on a stock exchange so they also benefit from simple trading, including the ability to buy and sell during the course of the trading day, much like listed shares.

ETFs carry certain investment risks. For information on the risks applicable to the BetaShares Funds see section 4 and the Product Supplement.

1.2 SUMMARY OF KEY INFORMATION

The following table briefly summarises some of the key information contained in this PDS. It is not a complete summary of this PDS and you should read the PDS in its entirety. You should seek your own professional investment advice before deciding to invest in the Funds.

The PDS is designed so that one or a number of BetaShares exchange traded funds may be offered under it over time. Such funds are referred to in this PDS as “Funds” or “BetaShares Funds”. Additional Funds may be added by the Responsible Entity issuing a supplementary PDS or a new PDS.

Sections 1 to 8 of this PDS contain general information concerning the common features of all of the BetaShares Funds that may be offered under the PDS. The Product Supplement appearing after section 8 contains information specific to each BetaShares Fund being offered.

TABLE 1.2: SUMMARY OF KEY INFORMATION

TOPIC	SUMMARY	SECTION
Investment objective	The Funds provide investors with the opportunity to earn a return that aims to track the performance of a particular Index, before fees and expenses.	2.1 and Product Supplement
	The Product Supplement sets out information specific to each Fund, including the investment objective and information about the Index applicable to the Fund.	
Investing	The offer in this PDS is only available to Authorised Participants.	5 and Product Supplement
	Units can only be acquired in whole multiples of a “Creation Unit” unless the Responsible Entity agrees otherwise. The number of Units in a Creation Unit for the Fund is determined by the Responsible Entity and notified to Authorised Participants.	
	Application amounts are payable in cash in Australian dollars, unless the Responsible Entity agrees otherwise. Applications are subject to an application fee described in section 3.	
	Subject to market conditions, investors may purchase Units by trading on the ASX. The purchase of Units on the ASX is not governed by the terms of this PDS and therefore the minimum investment does not apply to purchases of Units on the ASX.	
Redemptions	A Unitholder can generally only redeem Units if it is an Authorised Participant who is an Australian Resident.	5, 6.2.8, 6.2.9 and Product Supplement
	Units can only be redeemed in whole multiples of a Creation Unit unless the Responsible Entity agrees otherwise. The number of Units that constitute a Creation Unit for the Fund is determined by the Responsible Entity and notified to Authorised Participants.	
	The amount payable to a Unitholder on redemption will be paid in cash in Australian dollars, unless the Responsible Entity agrees otherwise. Redemptions are subject to a withdrawal fee described in section 3.	
	In certain specified circumstances, redemption requests may be delayed, rejected or scaled down. See section 6.2.8 and 6.2.9 for further information.	

TOPIC	SUMMARY	SECTION
	<p>Subject to market conditions, investors may sell their Units by trading on the ASX. The sale of Units on the ASX is not governed by the terms of this PDS and therefore the minimum redemption does not apply to sales of Units on the ASX.</p> <p>A Unitholder who is not an Authorised Participant can only redeem Units in the special circumstances described in section 5.4.</p>	
Distributions	<p>The distribution period in relation to each Fund is set out in the Product Supplement. The Responsible Entity intends to make distributions in respect of each Fund at least annually (assuming there is distributable income).</p>	2.2 and Product Supplement
Risks	<p>There are a number of risks associated with investing in the Funds. The key risks include the following:</p> <ul style="list-style-type: none"> • Investment objective risk - There is no guarantee that a Fund's investment strategy will be successful or that the investment objective will be achieved. • Index tracking risk - A Fund should not be expected to track the performance of an Index exactly, but generally aims to minimise any deviation from the relevant Index, before fees and expenses, as much as possible. • Market risk - A Fund's investment returns will be influenced by the performance of the market or markets to which the Fund is exposed. Changes in equity prices, which may be volatile and fluctuate from day to day, may result in a loss in the value of Units. • Concentration risk - A significant percentage of a Fund's underlying Index may be comprised of securities concentrated in a single industry sector or only a small group of industry sectors. Similarly, a significant percentage, or all, of a Fund's underlying Index may be comprised of securities from a single country or only a small group of countries. • Currency risk - The Australian dollar value of Fund assets denominated in foreign currencies will increase or decrease as a result of exchange rate fluctuations. While the Responsible Entity intends to hedge the currency exposure of the Funds, with the objective of minimising the impact of currency fluctuations on Fund returns, it does not necessarily eliminate the Fund's exposure to foreign currency movements and it may not prove effective. • Derivatives risk - The use of derivatives carries certain risks and can cause a Fund to incur losses. Derivatives will not be used for the purpose of leveraging the Funds. • Trading risk - In certain circumstances, the ASX may suspend trading of the Units of a Fund and in that event Unitholders would not be able to buy or sell Units of that Fund on the ASX. • Suspension risk - In certain circumstances, the Responsible Entity can suspend or scale down applications or redemptions. • Trading price risk - The trading price of Units on the ASX may differ from the Net Asset Value per Unit. • Liquidity risk - Although the Units will be quoted on the AQUA market of the ASX, there can be no assurance that there will be a liquid market for Units, and no assurance that there will be a liquid market for the Fund's investments. • Operational risk - External events or a breakdown in administrative procedures or operational controls may adversely affect the operation and performance of a Fund. • Index risk - The sponsor of an Index may change the Index methodology or stop publishing the Index, or the Responsible Entity's licence to use the Index may terminate. <p>This is not a comprehensive summary of all the risks of investing in the Funds. Before investing in the Funds, investors should carefully consider the risks associated with an investment in the Funds and obtain financial advice on whether an investment in the Funds is suitable for their objectives, financial situation and needs.</p>	4 and Product Supplement
	<p>For further details of the risks of investing, see section 4 and the Product Supplement.</p>	

TOPIC	SUMMARY	SECTION
Fees and other costs	Fees and other costs as described in section 3 of this PDS and the Product Supplement will apply.	3 and Product Supplement
Tax	Tax information of a general nature is set out in section 7. Investors should seek their own professional tax advice which takes into account their particular circumstances.	7
Complaints	The Responsible Entity has a process in place to deal with complaints from Unitholders.	6.2.23
Responsible Entity	BetaShares Capital Ltd is the responsible entity of each Fund and is the issuer of this PDS.	1.3

1.3 ABOUT BETASHARES

BetaShares Capital Ltd is the responsible entity of the Funds and is responsible for the ongoing management of the Funds.

The Responsible Entity is an Australian asset management business located in Sydney which was established in 2009 to be a specialist provider of fund products that are exchange traded. The Responsible Entity launched its first funds in 2010. As at the date of this PDS, it manages over \$7 billion in assets and acts as responsible entity for more than 50 funds whose units are quoted for trading on the Australian Securities Exchange under the AQUA Rules. These funds provide exposure to the performance of specific equity strategies, equity indices, fixed income strategies, fixed income indices, currencies, commodities or commodity indices. The primary focus of the Responsible Entity's business is the operation of funds that are exchange traded.

The Responsible Entity is a member of the Mirae Asset Global Investments Group. Mirae Asset Global Investments Co., Ltd., which is the international asset management business within Mirae Asset Financial Group, is one of Asia's largest asset management firms, managing over US\$130 billion in assets globally as of 30 June 2019, including more than US\$30 billion in exchange traded funds.

No member of the Mirae Asset Global Investments Group, or any of its related entities, directors or officers gives any guarantee or assurance as to the performance of, or the repayment of capital invested in, the Fund.

The Responsible Entity has sufficient working capital to enable it to operate the Funds as outlined in this PDS.

1.4 ADMISSION TO TRADING UNDER THE AQUA RULES

Units in the Funds have been admitted to trading status on the ASX under the AQUA Rules. The AQUA Rules form part of the ASX Operating Rules. The Funds will not be listed on the ASX under the ASX Listing Rules.

The AQUA Rules provide a tailored framework for the quotation of exchange traded funds, managed funds and structured products on the ASX.

In operational terms, the market for products quoted under the AQUA Rules operates in the same way that it does for listed equities, with continuous matching of bids and offers and an opening and closing auction.

AQUA Rules: fundamental difference

The key distinction between products admitted under the ASX Listing Rules and those quoted under the AQUA Rules is the level of control and influence that the issuer of the relevant product has over the value of the underlying assets of the product.

Under the ASX Listing Rules, listed equity securities typically reflect the value of the business operated by the issuer. By contrast, the value of a product quoted under the AQUA Rules typically reflects the performance of the underlying assets.

The following table highlights the key specific differences between the AQUA Rules and the ASX Listing Rules.

ASX LISTING RULES	AQUA RULES
Control	
<p>An issuer of an entity listed under the ASX Listing Rules:</p> <ul style="list-style-type: none"> controls the value of its own securities and the business it runs; and the value of those securities is directly influenced by the equity issuer's performance and conduct. <p>For example, the management and board of a listed company generally control the fate of the business and, therefore, have direct influence over the share price.</p>	<p>An issuer of a product quoted under the AQUA Rules:</p> <ul style="list-style-type: none"> does not control the value of the assets underlying its products, but offers products that give investors exposure to the underlying assets – such as shares, indices, currencies or commodities. <p>The value (price) of products quoted under the AQUA Rules is dependent upon the performance of the underlying assets rather than the financial performance of the issuer itself e.g. a managed fund issuer does not control the value of the shares it invests in.</p>

ASX LISTING RULES	AQUA RULES
Continuous Disclosure	
Issuers are subject to the continuous disclosure requirements under ASX Listing Rule 3.1 and Section 674 of the <i>Corporations Act</i> .	<p>Issuers of products quoted under the AQUA Rules are not subject to the continuous disclosure requirements under ASX Listing Rule 3.1 and section 674 of the <i>Corporations Act</i> but must disclose information about:</p> <ul style="list-style-type: none"> • the Net Tangible Assets (“NTA”) or the Net Asset Value (“NAV”) of the funds; • distributions declared; and • any other information that is required to be disclosed to ASIC under section 675 of the <i>Corporations Act</i> must be disclosed via the ASX Market Announcements Platform at the same time it is disclosed to ASIC. The Responsible Entity also intends to post any such information on its website www.betashares.com.au at the same time. <p>AQUA Product issuers must also disclose to the ASX any information the non-disclosure of which may lead to the establishment of a false market in its products or would materially affect the price of its products.</p>
Periodic Disclosure	
Issuers are required to disclose their half- yearly and annual financial information or annual reports to the ASX under Chapter 4 of the ASX Listing Rules.	Financial reports relating to the issuer itself are not required to be disclosed to the ASX. However, periodic financial reports relating to the AQUA Product must be disclosed to the ASX at the same time they are lodged with ASIC under Chapter 2M of the <i>Corporations Act</i> .
Corporate Control	
Requirements in the <i>Corporations Act</i> and the ASX Listing Rules in relation to matters such as takeover bids, share buy-backs, change of capital, new issues, restricted securities, disclosure of directors’ interests and substantial shareholdings, apply to companies and listed schemes.	These requirements do not apply to AQUA Product issuers. Section 601FM of the <i>Corporations Act</i> continues to apply to the removal or change of the responsible entity. An extraordinary resolution would be required to change the responsible entity. An extraordinary resolution is a resolution passed by a majority of the total votes that may be cast by members entitled to vote on the resolution.
Related Party Transactions	
Chapter 10 of the ASX Listing Rules, which relates to transactions between an entity and persons in a position to influence the entity, specifies controls over related party transactions.	Chapter 10 of the ASX Listing Rules does not apply to AQUA Products. Products quoted under the AQUA Rules which are registered managed investment schemes remain subject to the related party requirements in Part 5C.7 and Chapter 2E of the <i>Corporations Act</i> .
Auditor Rotation Obligations	
There are specific requirements in relation to auditor rotation under Part 2M.4 Division 5 of the <i>Corporations Act</i> .	Issuers of products quoted under the AQUA Rules are not subject to the requirements under Part 2M.4 Division 5 of the <i>Corporations Act</i> . A responsible entity of a registered managed investment scheme will continue to be required to undertake an independent audit of its compliance with the scheme’s compliance plan in accordance with Section 601HG of the <i>Corporations Act</i> and the auditor must not be the auditor of the scheme’s financial statements (but may be from the same firm).
Spread Requirements	
There are requirements under the ASX Listing Rules that issuers satisfy certain minimum spread requirements (i.e. a minimum number of holders each having a minimum parcel size).	These requirements do not apply to AQUA Product issuers. Under the AQUA Rules, unless and until a suitable spread of holders is achieved, an AQUA Product issuer must ensure a reasonable bid and volume is maintained for the AQUA Product on the ASX except in permitted circumstances, or have in place other arrangements which meet the ASX’s requirements for providing liquidity, generally through the appointment of a market making agent.

2 ABOUT THE FUNDS

2.1 INVESTMENT POLICY

2.1.1 Investment objective

The investment objective of each Fund is to provide an investment return, before fees and expenses, that aims to track the performance of the relevant Index.

The Index in relation to each Fund is set out in the Product Supplement. The Product Supplement also sets out more information about the investment objective of each Fund.

There is no assurance or guarantee that the returns of the Funds will meet their investment objectives.

2.1.2 Investment strategy

In seeking to achieve the investment objective for each Fund, the Responsible Entity will employ a passive management approach that aims to track the performance of the relevant Index, before fees and expenses.

Unless otherwise set out in the Product Supplement, each Fund will generally invest in the securities that comprise the relevant Index in proportion to the weightings of the securities in the Index. This is known as a "full replication" strategy. For such Funds, the timing and nature of any changes to the composition of the Fund's investments will generally correspond with the timing and nature of changes to the relevant Index.

In a variety of circumstances, however, the holdings of a Fund may not exactly replicate its Index. For example, it may not be possible or practical to do so in some circumstances, such as where investment restrictions apply which would prevent direct investment in a particular security. A Fund, from time to time, may not hold all of the securities comprising the Index and may hold securities in weightings which differ from the Index.

Some Funds will generally not hold all of the securities comprising the relevant Index and may hold securities in weighting which differ from the Index. This is referred to as a "sampling" strategy. A sampling strategy is often used for funds tracking an index that is too broad to efficiently purchase all of the index's securities. For Funds where a sampling strategy is used, this is noted in the relevant Product Supplement.

For such Funds, the sampling strategy is based on a portfolio of securities that may be a sub-set of the constituents of the Index and that aims to be representative of the characteristics of the constituents of the Index as a whole. The aim of a sampling strategy is to construct a portfolio that provides a return profile comparable to that of the Index.

Under the sampling strategy, a Fund's exposure to individual securities may be above or below that security's actual weighting in the Index. The Fund may hold as many securities as the Responsible Entity believes is necessary to achieve the Fund's investment objective. The sample of securities will be determined based on a number of factors, including the liquidity of the security, the size of the Fund, the portfolio's exposure to countries, currencies and industry sectors and market capitalisations (in each case, relative to the corresponding exposures under the Index).

Investors will be able to regularly compare the performance of a Fund against the performance of its related Index via the BetaShares website at www.betashares.com.au.

A Fund may hold exchange-traded derivatives contracts from time to time (e.g. futures contracts) where this may help to achieve a Fund's investment objective. For example, exchange-traded derivatives may be used where direct investment in a particular security or securities is not possible or practical, or to obtain an investment exposure without physically buying or selling the underlying asset. Derivatives will only be used in limited circumstances and will not be used to leverage a Fund.

As at the date of this PDS, the Responsible Entity does not intend to engage in securities lending in connection with a Fund, although it may do so in the future provided that any such change is notified in advance to investors and potential investors via a supplementary or new PDS accessible through the ASX Market Announcements Platform.

Each Fund will not use short selling, leverage or gearing to seek to enhance its returns.

Small cash balances may be held in a Fund from time to time.

The assets of each Fund, whether securities or cash, will be held by the custodian, other than cash held as collateral for any futures positions.

Currency Exposure

As each Fund's assets will be denominated in overseas currencies, the Australian dollar value of the assets will increase or decrease as a result of exchange rate fluctuations.

The Index that each Fund aims to track is hedged to Australian dollars. In order to replicate the currency hedging component of the Index, the Responsible Entity intends to hedge the Fund's currency exposure, using forward foreign exchange contracts (or similar instruments), with the objective of substantially offsetting the Fund's exposure to movements in the relevant foreign currencies. While this approach seeks to minimise the impact of currency fluctuations on Fund returns, it does not necessarily eliminate exposure to all currency fluctuations and it may not prove effective.

2.1.3 Labour standards and environmental, social and ethical considerations

The Responsible Entity does not take into account labour standards or environmental, social or ethical considerations when selecting, retaining or realising investments.

2.1.4 Performance

Performance information for each Fund, and the Net Asset Value for each Fund, will be published on the BetaShares website at www.betashares.com.au. Information relating to past performance is not a reliable indicator of future performance.

2.1.5 Changes to investment objectives and strategy

The Responsible Entity may from time to time vary the investment mandate (i.e. the investment objective and strategy as described in sections 2.1.1 and 2.1.2 and the Product Supplement) for any Fund as set out in this PDS.

Any significant change to the investment mandate will be notified to investors and potential investors via a supplementary or new PDS accessible through the ASX Market Announcements Platform.

2.2 DISTRIBUTIONS

The Funds intend to pay distributions at least annually. Distribution amounts may include dividends, realised gains or losses from disposal of securities, or other assessable income derived by the Funds, after allowing for fees and expenses.

2.2.1 Distributions

Unitholders holding Units in a Fund at the end of a distribution period are entitled to a pro-rata share of the distributable income (if any) for that period based on the number of Units held in the relevant Fund at the end of the distribution period.

The distribution periods in relation to a Fund are set out in the Product Supplement. The amount of distributable income at the end of any distribution period will be determined by the Responsible Entity.

A Fund's NAV per Unit will normally fall after the end of each distribution period if a distribution is payable. Consequently, if you invest just before the end of a distribution period, some of your capital may be returned to you as income in the form of a distribution.

Distributions will generally be paid within 15 business days of the end of the distribution period to which they relate by deposit to a Unitholder's nominated Australian bank, building society or credit union account.

The amount of the distribution paid by a Fund will vary from period to period, and there may be periods when a Fund will not pay a distribution.

The Responsible Entity may, in its discretion, change the duration of a distribution period for a Fund (provided that distribution periods cannot be longer than one year).

Unitholders may also become entitled to the distributable income of a Fund on the redemption of their Units. See section 7.1.6 for further information.

Information about the timetable for each distribution and the declared distribution amount will be announced via the ASX Market Announcements Platform.

2.2.2 Tax statement

The Responsible Entity will, as soon as reasonably practicable after the end of each financial year, issue to each Unitholder who received an entitlement to the distributable income and / or who was attributed taxable income of a Fund during a financial year, a tax statement which outlines the amount and composition of the taxable income to which the Unitholder became entitled and / or was attributed. Where the relevant Fund is an Attribution Managed Investment Trust ("AMIT") for the financial year, the tax statement is referred to as an AMIT member annual statement ("AMMA").

2.2.3 Distribution Reinvestment Plan

The Product Supplement states whether a distribution reinvestment plan ("DRP") is available for each Fund.

Participation in any DRP is subject to the terms and conditions of the DRP policy document, which is available at no charge by contacting BetaShares on 1300 487 577 (within Australia). Any DRP is currently available only to Unitholders who have a registered address in Australia or New Zealand, unless the Responsible Entity determines otherwise.

Where a DRP is available, eligible Unitholders can choose to:

- participate in the DRP, meaning distributions from the relevant Fund will be reinvested in additional Units in the Fund; or
- have the distributions paid directly to a nominated Australian bank, building society or credit union account.

Full or partial reinvestment will be available. If no DRP election is made, the distributions will automatically be paid into the nominated Australian bank, building society or credit union account.

Eligible Unitholders can elect to participate in the DRP by completing an on-line form available on the Registrar's website or by contacting the Registrar (further information will be provided in the information pack sent to you when you become a Unitholder).

3 FEES AND OTHER COSTS

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

3.1 FEES AND OTHER COSTS

This PDS shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of each managed investment scheme as a whole.

Taxes are set out in another part of this PDS.

You should read all the information about fees and costs because it is important to understand their impact on your investment.

TABLE 3.1: TABLE OF FEES AND OTHER COSTS

BETASHARES EUROPE ETF - CURRENCY HEDGED AND BETASHARES JAPAN ETF - CURRENCY HEDGED

TYPE OF FEE OR COST	AMOUNT	HOW AND WHEN PAID
FEES WHEN YOUR MONEY MOVES IN OR OUT OF THE MANAGED INVESTMENT PRODUCT

The fee for changing investment options		

¹An Authorised Participant is a trading participant under the ASX Operating Rules who has entered into an agreement with the Responsible Entity in relation to Unit applications and redemptions. For an explanation of the contribution fees and withdrawal fees (also referred to in this PDS as application fees and redemption fees) please see section 3.3.6 "Application and Redemption Fees for Authorised Participants" in the "Additional Explanation of Fees and Costs". Unitholders who are not Authorised Participants may be charged a redemption fee if they redeem Units pursuant to their right to redeem in the special circumstances described in section 5.6 - see "Additional Explanation of Fees and Costs" section below for more information.

² In-kind applications and redemptions, or cash applications and redemptions in foreign currencies, are only available if agreed by the Responsible Entity. Additional contribution and withdrawal fees may apply in the case of such applications or redemptions as agreed with the Responsible Entity from time to time.

³ All estimates of fees in this section are based on information at the date of this PDS and reflect the Responsible Entity's reasonable estimates of the typical ongoing amounts for the current financial year. The management costs charged for the previous financial year ended 30 June 2019 were 0.58% per annum. As at the date of this PDS the management costs have been reduced to 0.56% per annum for each Fund.

⁴ This figure reflects the capped amount of annual recoverable expenses which will be charged to each Fund as at the date of this PDS. Any such expenses (excluding extraordinary expenses) in excess of this cap will be paid by the Responsible Entity out of its own resources. The recoverable expenses for the previous financial year ended 30 June 2019 were 0.00% per annum. For more information on recoverable expenses, see "Recoverable expenses" in the "Additional Explanation of Fees and Costs" section below.

⁵ This figure reflects the estimated annual indirect costs incurred by each Fund as at the date of this PDS, as each Fund will obtain its investment exposure by investing directly in securities. Prior to the date of this PDS, each Fund obtained its investment exposure indirectly, by investing into underlying funds, and therefore incurred indirect costs for the previous financial year ended 30 June 2019 of 0.58% per annum for BetaShares Europe ETF - Currency Hedged and 0.48% per annum for BetaShares Japan ETF - Currency Hedged. For more information on the meaning and calculation of indirect costs, see "Indirect costs" in the "Additional explanation of fees and costs" section below.

Certain additional costs apply, such as transactional and operational costs. See the "Additional Explanation of Fees and Costs" section below for more information.

Each fee set out in this table may in some cases be negotiated with wholesale clients. For more information, refer to the explanation of "Differential fees, rebates and related payments" in the "Additional Explanation of Fees and Costs" section below.

All fees and costs in the table above include Goods and Services Tax ("GST") net of any reduced input tax credits.

3.2 EXAMPLE OF ANNUAL FEES AND COSTS

The following tables give an example of how the fees and costs can affect your investment over a one year period. You should use these tables to compare these products with other managed investment products.

TABLE 3.2: EXAMPLE OF ANNUAL FEES AND COSTS

EXAMPLE - BETASHARES EUROPE ETF - CURRENCY HEDGED	AMOUNT	BALANCE OF \$50,000 WITH A CASH CONTRIBUTION OF \$5,000 ¹ DURING THE YEAR
CONTRIBUTION FEES	\$0 if you are not an Authorised Participant; or \$4,207.50 for cash applications in Australian dollars if you are an Authorised Participant	For every additional \$5,000 you put in, you will be charged: \$0 if you are not an Authorised Participant; or \$4,207.50 if you are an Authorised Participant.
PLUS MANAGEMENT COSTS² (management fee plus recoverable expenses plus indirect costs)	0.56% p.a. of the Fund's Net Asset Value	And , for every \$50,000 you have in the Fund you will be charged \$280 each year
EQUALS COST OF FUND		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 ³ during that year, you would be charged fees of \$280 (if you are not an Authorised Participant) or \$4,487.50 (if you are an Authorised Participant for the Fund). What it costs you will depend on whether you are an Authorised Participant, the investment option you choose and the fees you negotiate.

EXAMPLE - BETASHARES JAPAN ETF - CURRENCY HEDGED	AMOUNT	BALANCE OF \$50,000 WITH A CASH CONTRIBUTION OF \$5,000 ¹ DURING THE YEAR
CONTRIBUTION FEES	\$0 if you are not an Authorised Participant; or \$2,102.50 for cash applications in Australian dollars if you are an Authorised Participant	For every additional \$5,000 you put in, you will be charged: \$0 if you are not an Authorised Participant; or \$2,102.50 if you are an Authorised Participant.
PLUS MANAGEMENT COSTS² (management fee plus recoverable expenses plus indirect costs)	0.56% p.a. of the Fund's Net Asset Value	And , for every \$50,000 you have in the Fund you will be charged \$280 each year
EQUALS COST OF FUND		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 ³ during that year, you would be charged fees of \$280 (if you are not an Authorised Participant) or \$2,382.50 (if you are an Authorised Participant for the Fund). What it costs you will depend on whether you are an Authorised Participant, the investment option you choose and the fees you negotiate.

An Authorised Participant who redeems Units directly will also be charged a withdrawal fee as set out in Table 3.1 above (for a cash redemption in Australian dollars). Unitholders who are not Authorised Participants may be charged a redemption fee if they redeem Units pursuant to their right to redeem in the special circumstances described in section 5.4 - see "Additional Explanation of Fees and Costs" section below for more information.

Each fee in this table may in some cases be negotiated with wholesale clients. For more information, refer to the explanation of "Differential fees, rebates and related payments" in the "Additional Explanation of Fees and Costs" section below.

¹ Please note the minimum investment in each Fund by an Authorised Participant is one Creation Unit, unless the Responsible Entity agrees otherwise.

² Management costs are made up of the management fee, recoverable expenses and indirect costs. All estimates of fees and costs in the tables above are based on information available as at the date of this PDS and reflect the Responsible Entity's reasonable estimates of the typical ongoing amounts for the current financial year. Certain additional costs apply, such as transactional and operational costs. For more information, refer to the "Additional Explanation of Fees and Costs" section below.

³ Assumes the \$50,000 is invested for the entire year and the \$5,000 investment occurs on the last day of the year.

3.3 ADDITIONAL EXPLANATION OF FEES AND COSTS

3.3.1 Management costs

The management costs for a Fund incorporate all relevant ongoing fees and other costs involved in managing the Fund and deriving investment returns. The management costs comprise:

- Responsible Entity's management fee;
- recoverable expenses; and
- indirect costs

Management costs do not include:

- transactional and operational costs, such as brokerage, transactional custodian fees, and other transaction fees associated with buying and selling the Fund's assets; and
- other costs that an investor would ordinarily incur when investing directly in the Fund's underlying assets.

(These costs are therefore not included in the management costs set out in Table 3.1 and Table 3.2 above, but they are paid out of the Fund's assets).

3.3.2 Management fee

The management fee is charged by the Responsible Entity for managing the relevant Fund and making it available to investors. It is calculated and accrued daily as a percentage of the relevant Fund's Net Asset Value, and reflected in the daily Net Asset Value per Unit. The amount is deducted from the relevant Fund's assets monthly on or after the first day of the following month.

3.3.3 Recoverable expenses

The recoverable expenses represent the operating expenses incurred in the operation of the relevant Fund. Each Fund's Constitution allows all properly incurred expenses to be recovered from the Fund and does not place any limit on the amount or types of expenses that can be recovered.

The expenses normally incurred in the day to day operation of each Fund include custodian, fund administration, unit registry, ASX and audit costs (other than transactional and operational

costs described above). These expenses normally incurred and charged to the Fund will be capped at 0.05% per annum of each Fund's Net Asset Value while this PDS is current. Any such expenses in excess of the cap will be paid by the Responsible Entity out of its own resources. The Responsible Entity has the right to be reimbursed for any expenses in excess of the cap at a later time, provided that the cap will not be exceeded at the time of reimbursement. The Responsible Entity may withdraw or replace this PDS at any time.

The Responsible Entity, as at the date of this PDS, reasonably estimates that the normally incurred recoverable expenses of each Fund for each financial year will be at the cap set out in Table 3.1 above of 0.05% p.a. of the Fund's Net Asset Value.

Extraordinary expenses are expenses that are not normally incurred in the day to day operation of a Fund and are not necessarily incurred in any given year. They may include costs associated with holding unitholder meetings, changing the Fund's constitution, or defending or pursuing legal proceedings. Extraordinary expenses are not included in the cap on expenses described in this section. Any such expenses will be recovered from the Fund and reflected in its Net Asset Value per Unit. At the date of this PDS the amount of extraordinary expenses actually incurred by each Fund for the previous financial year, including the Responsible Entity's reasonable estimates where information was unavailable at the date of this PDS, was nil.

3.3.4 Transactional and operational costs

Each Fund incurs transactional and operational costs, such as brokerage, clearing costs, transactional custodian fees, and other transaction fees associated with buying and selling of the relevant Fund's assets. Transactional and operational costs are an additional cost and are not included in the management costs.

The table below sets out the total transactional and operational costs incurred by each Fund for the previous financial year, including the Responsible Entity's reasonable estimate where information was unavailable at the date of this PDS. The Responsible Entity reimburses each Fund for certain transactional and operational costs out of the application and redemption fees it receives, as described in section 3.3.6. The net transactional and operational costs of each Fund (representing the total transactional and operational costs minus the transactional and operational costs reimbursed to the Fund out of the application and redemption fees) incurred for the previous financial year, including the Responsible Entity's reasonable estimates where information was unavailable at the date of this PDS, are also set out in the table below. The net transactional and operational costs are borne by the Fund.

	Estimated total transactional and operational costs - % p.a. of the Fund's Net Asset Value	Estimated net transactional and operational costs - % p.a. of the Fund's Net Asset Value
BetaShares Europe ETF – Currency Hedged	0.22%	0.10% (or \$50 for every \$50,000 you have in the Fund)
BetaShares Japan ETF – Currency Hedged	0.12%	0.08% (or \$40 for every \$50,000 you have in the Fund)

These transactional and operational costs are in addition to the management costs set out in Table 3.1 and Table 3.2 above.

The amount of these costs can be expected to vary from year to year depending on the volume and value of transactions undertaken.

3.3.5 Indirect costs

Indirect costs are any amounts that we know or where required, reasonably estimate, will reduce each Fund's returns that are paid from the relevant Fund's assets (other than the management fee, recoverable expenses, and transactional and operational costs described elsewhere in this section) or that are paid from the assets of any interposed vehicle (such as an underlying fund) in which each Fund may invest.

At the date of this PDS the estimated annual indirect costs of each Fund are 0.00% p.a. of the Net Asset Value of the Fund, as each Fund will obtain its investment exposure by investing directly in securities.

3.3.6 Application and redemption fees for Authorised Participants

No application fees or redemption fees are payable by investors who buy and sell Units on the ASX. However, brokerage charges may apply.

Subject to section 3.3.7 below, application fees and redemption fees will only be payable by Authorised Participants on an application for or redemption of Units directly with a Fund.

The applicable application and redemption fees for Australian dollar transactions are set out in Table 3.1 above and are paid by Authorised Participants to the Responsible Entity. Out of these fees, the Responsible Entity pays directly, or reimburses each Fund for, the estimated transactional and operational costs associated with the cash application or redemption.

The application and redemption fees payable by Authorised Participants seek to ensure that the transactional and operational costs associated with applications and redemptions are borne by the transacting Authorised Participants and not by other investors.

3.3.7 Redemption fees for other Unitholders

Unitholders who are not Authorised Participants may be charged a redemption fee if they redeem Units pursuant to their right to redeem in the special circumstances described in section 5.4. The redemption fee per Unit will not be greater than the redemption fee per Unit that would be payable by an Authorised Participant for a cash redemption when withdrawing the minimum parcel of Units.

3.3.8 Stockbroker fees

Investors may incur customary brokerage fees and commissions when buying and selling Units on the ASX, as for any listed or quoted security. Please consult a stockbroker for more information in relation to their fees and charges.

3.3.9 Can fees and costs change and what are the maximums?

Yes, fees and costs can change subject to maximums in the Fund's Constitution.

The Constitution of each Fund limits the amount of the Responsible Entity's fee to a maximum of 3% p.a. of the Fund's Net Asset Value (plus GST).

The Constitution of each Fund provides for the following maximum fees:

- a maximum contribution fee of 5% of the aggregate Issue Price of the Units applied for (plus GST);
- a maximum withdrawal fee of 5% of the aggregate Withdrawal Amount of the relevant Units (plus GST).

The Responsible Entity also has the right under the Constitution of each Fund to recover from a Fund all expenses properly incurred in the performance of its duties.

As at the date of this PDS, the Responsible Entity does not have any intention to change the fees and costs described in this PDS, although it has the right to do so at any time. Any increase in the fees and costs for a Fund will be announced to the ASX via the Market Announcements Platform at least 30 days before it occurs.

Any estimates of fees and costs in this PDS are based on information available as at the date of this PDS. As such, the actual fees and costs may differ and are subject to change from time to time. Information in this PDS that is not materially adverse to investors is subject to change from time to time and may be updated by the Responsible Entity by publishing such information on the BetaShares website at www.betashares.com.au. A paper copy of any updated information will be provided free of charge on request.

3.3.10 Differential fees, rebates and related payments

The Responsible Entity may, from time to time, agree with wholesale clients to rebate or reduce some of the management or other fees on a case by case basis. The amount of fee reduction is at the Responsible Entity's discretion. The Responsible Entity will achieve these reductions and meet any rebates in relation to management fees by payments from its own resources. For more information, please contact the Responsible Entity.

Any reduction in management fees offered by the Responsible Entity to a wrap platform or master trust operator may be passed on to the clients of the operator or retained by the operator.

Subject to applicable law, the Responsible Entity may also pay one-off or annual product access payments to wrap platform or master trust operators for including the Funds in their offering. As of the date of this PDS, no product access payments have been made. The Responsible Entity would make any such payment from its own resources.

3.3.11 Indirect investors

Indirect investors investing through a wrap platform or master trust should note that the fees outlined in this section 3 are in addition to any other fees and costs imposed by the wrap platform or master trust operator.

4 RISKS

Unitholders in the Funds face a number of investment risks. There are risks associated with any investment. Generally, the higher the expected return of an investment, the higher the risk and the greater the variability of returns.

The market price and Net Asset Value per Unit can fluctuate within a wide range. When considering an investment in a Fund, personal tolerance for fluctuating market values should be taken into account.

The most common risks associated with investing in the Funds are described below, but there could be other risks that affect the performance of the Funds. The discussion below is general in nature. You should also read the Product Supplement for a discussion of any additional risks that are relevant to each specific Fund.

The Responsible Entity does not provide assurances or guarantees on future profitability, returns, distributions or return of capital. An investment in a Fund could lose money over short or long periods.

You should seek your own professional advice on the appropriateness of this investment to your circumstances. You should also consider how an investment in a Fund fits into your overall investment portfolio.

4.1 INVESTMENT OBJECTIVE RISK

There is no guarantee that a Fund's investment objective will be achieved or that an investment in a Fund will earn any positive return in the short or long-term.

4.2 MARKET RISK

Market risk is the risk that the value of a Fund's investment portfolio will fluctuate as a result of changes in market prices as a whole. The Funds provide exposure to listed securities of companies that operate in global markets, each with different market risks. Changes in prices of the equity securities held by a Fund may result in a loss in the value of Units of a Fund. Therefore, the market factors that drive changes in the prices of the securities held by a Fund, including global events, general economic conditions, investor sentiment and industry specific factors, can be expected to influence the value of Units. Share markets can be and have been volatile, and have the potential to fall by large amounts over short periods of time. This volatility may cause the value of an investment in a Fund to decrease.

4.3 SECURITY SPECIFIC RISK

Factors specific to a particular equity security may cause its return to differ from that of the broader market. Such factors may include changes in a company's operations, such as changes in management, or the loss of a significant customer, or changes in the market environment the company operates in, or actions by regulators or competitors. An Index that tracks the performance of a portfolio of equity securities, and hence a Fund linked to such an Index, may be sensitive to security specific risk for those securities which form a material component of the Index.

4.4 INDUSTRY SPECIFIC RISK

Factors specific to a particular market segment, such as an industry sector, may cause a Fund's returns to differ from that of

the broader market. Such factors may include market estimations of future industry profitability, movements in input or output prices for companies operating in the industry and market sentiment.

4.5 COUNTRY RISK

Country risk is the risk that the assets of a Fund may fluctuate in value due to political and/or financial events in the relevant country of domicile. The Funds invest in securities from one or more overseas countries.

4.6 CONCENTRATION RISK

A significant percentage of a Fund's underlying Index may be comprised of securities concentrated in a single industry sector or only a small group of industry sectors. Similarly, a significant percentage, or all, of a Fund's underlying Index may be comprised of securities from a single country or only a small group of countries. At times, such sector(s)/countries may underperform other sectors/countries, causing a greater impact on the value of a Fund's Units than would be the case if the Index were more broadly diversified over numerous industry sectors/countries.

4.7 FOREIGN EXCHANGE RISK

Foreign exchange risk is the risk that the Australian dollar value of a Fund's assets denominated in foreign currencies will increase or decrease as a result of exchange rate fluctuations.

If the currency in which an investment of a Fund is denominated depreciates relative to the Australian dollar, then the value of that investment (in Australian dollar terms, and assuming no other changes) will decrease (and vice versa).

The relevant Index that each Fund aims to track is hedged to Australian dollars. In order to replicate the currency hedging component of the Index, the Responsible Entity intends to hedge the relevant Fund's currency exposure, with the objective of substantially offsetting the Fund's exposure to movements in the value of foreign currency. While this approach seeks to minimise the impact of currency fluctuations on Fund returns, it does not necessarily eliminate a Fund's exposure to foreign currency movements and it may not prove effective.

A Fund that adopts currency hedging may not outperform an equivalent unhedged investment over any time period.

4.8 SAMPLING RISK

While it does not intend to do so as at the date of this PDS, the Responsible Entity may employ a sampling strategy and invest in only some of the constituents of the relevant Index. In this event there is a risk that the sampling strategy could result in tracking error between the performance of the sample portfolio held by a Fund, and the performance of the Index. This means there may be a difference between the performance of a Fund and the performance of the underlying Index for the Fund. See 'Risk of Index Tracking Error' for further information.

4.9 DERIVATIVES RISK

Derivatives will only be used in limited circumstances and will not be used to leverage a Fund. The primary risks associated with the use of derivatives are:

- the values of the derivative failing to move in line with the underlying asset;
- the potential lack of liquidity of the derivative;
- the potential to incur substantial losses in excess of the initial amount invested;
- the possibility that the derivative position is difficult or costly to manage or reverse;
- a Fund may not be able to meet payment obligations as they arise, including any requirements to make margin payments;
- the counterparty to the derivative contract may not meet its obligations under the contract (including failing to meet collateral requirements under the arrangement);
- to the extent that a Fund has unrealised gains in such instruments or has deposited collateral with its counterparty, such Fund is at risk that its counterparty will become bankrupt or otherwise fail to honour its obligations;
- Over-the-counter markets are not guaranteed by an exchange or clearing corporation;
- the collateral obligations in respect of margin requirements on derivative contracts can cause liquidity issues if insufficient collateral is available; and
- the electronic platforms on which some derivatives are traded are subject to risks related to system access, varying response times, security and system failure.

Any of the above factors could cause a Fund to incur losses, suffer increased costs, fail to realise gains or fail to achieve a high correlation with the performance of the Index.

The Responsible Entity will aim to ensure that there is sufficient cash and other liquid assets available in the Funds at all times to meet any payment obligations under derivatives.

4.10 GENERAL REGULATORY RISK

This is the risk that a government or regulator may introduce regulatory and/or tax changes, or a court makes a decision regarding the interpretation of the law, which affects the value of the Units or the tax treatment of a Fund and its Unitholders.

The Funds may be affected by changes to legislation or government policy in Australia or in overseas countries. These changes are monitored by the Responsible Entity and action is taken, where appropriate, to facilitate the achievement of the investment objectives of the Funds. The Responsible Entity may not always be in a position to take such action.

4.11 TAX RISK

Taxation law is complex and subject to changes by the Australian Government, possibly with retrospective effect.

As the circumstances of each investor are different, the Responsible Entity strongly recommends that investors obtain professional independent tax advice relating to the tax implications of investing in and dealing in Units.

Unitholders redeeming their Units should note the risk of potentially adverse tax implications where the Units are not held as trading stock or as revenue assets and should seek their own advice in this regard. The tax implications of redemption may be different to

selling Units on the ASX. These and other taxation matters are dealt with in section 7 of this PDS.

4.12 MANAGER RISK

This is the risk that the Responsible Entity's investment strategy is not successful, or not successfully implemented, resulting in a Fund failing to meet its objectives. No assurance can be given that the trading systems and strategies utilised by the Responsible Entity will prove successful under all or any market conditions.

4.13 FUND RISK

There is a risk that a Fund could terminate, that fees and expenses could change or that the Responsible Entity may not be able to continue to act, for example if it loses its Australian financial services licence (in which case it could be replaced as responsible entity of the Fund or the Fund could be wound up). Any replacement responsible entity might achieve different results for investors, positive or negative, than would otherwise be the case.

There is also a risk that investing in a Fund may give a different result than investing directly into the constituents or assets that make up the relevant Fund's underlying Index.

4.14 OPERATIONAL RISK

A Fund's day to day operations may be adversely affected by circumstances beyond the reasonable control of the Responsible Entity, such as failure of technology or infrastructure, or natural disasters. A breakdown in administrative procedures and risk control measures implemented by the Responsible Entity or its service providers may also adversely affect the operation and performance of a Fund.

4.15 EFFECT OF APPLICATIONS AND REDEMPTIONS ON DISTRIBUTIONS

The distribution per Unit amount for a distribution period may be affected by application and redemption activity during the period and therefore there is no assurance that the yield on a Fund's Units will be same as the yield on the securities in the Fund's underlying Index. The issue of Units during a distribution period will tend to reduce the amount of the distribution per Unit for that period (which will be associated with a smaller decline in the NAV per Unit at the time of the distribution). Conversely, the redemption of Units during a distribution period will tend to increase the amount of the distribution per Unit for that period (which will be associated with a larger decline in the NAV per Unit at the time of the distribution).

4.16 FUND TRADING RISK

In certain circumstances, the ASX may suspend trading of the Units of a Fund and in that event Unitholders would not be able to buy or sell Units of that Fund on the ASX. In these circumstances, the Responsible Entity may suspend the application and redemption process.

There may be other occasions where the Responsible Entity may suspend the application and redemption process, such as around the end of a distribution period or where other factors prevent the accurate calculation of Unit prices, such as the suspension or restriction of trading in securities held by a Fund. This may cause a Fund's Units to be suspended from trading on the ASX. Cash applications and redemptions may further be suspended where a national holiday applies for one or more countries in the Index. Although it should be possible for investors to trade in Units in each Fund on ASX at such times, the suspension may affect the

relationship between the market price of Units and their underlying value.

The ASX also imposes certain requirements for Units to continue to be quoted. The Responsible Entity will endeavour to meet these requirements at all times to ensure the Units remain quoted, although there can be no assurance that Units will remain quoted on the ASX. Under these circumstances, the Responsible Entity may take measures such as suspending the application and redemption process or potentially terminating a Fund.

4.17 LIQUIDITY RISK

Although the Units will be quoted under the AQUA Rules there can be no assurances that there will be a liquid market for Units. The Responsible Entity has in place market making arrangements to assist in maintaining liquidity for the Funds on the ASX. The Responsible Entity cannot guarantee that a market maker will fulfil its obligations or that a market maker will continue to be appointed. The market making arrangements agreed by the Responsible Entity with a market maker also specify certain permitted circumstances where the market making obligations may be suspended (such as operational disruptions, market disruptions or unusual conditions, other events set out in the ASX Operating Rules, the suspension or rejection of applications for Units or redemption requests, or the market maker not having ASIC relief to allow short selling of Units). If a market maker defaults on its obligations, the Responsible Entity may seek to replace the market maker, although the arrangements with the market maker may limit or exclude any liability on the part of the market maker.

In addition, there is the risk that one or more assets held by a Fund may suffer from restricted or limited liquidity, which may be associated with wider than usual bid-offer spreads for such assets, preventing the Fund from closing out certain positions or rebalancing in a timely manner and at a fair price. The bid-offer spread for Units can be expected to increase if there is decreased liquidity for underlying securities and/or their bid-offer spreads widen due to market conditions.

A Fund's monthly average bid-offer spread will be reported in the ASX Investment Products Monthly Update, which can be viewed on the ASX's website at www.asx.com.au.

4.18 TRADING PRICE OF UNITS MAY DIFFER FROM NET ASSET VALUE PER UNIT

As with any exchange traded fund, it is possible that the trading price of Units on the ASX may differ from the Net Asset Value per Unit. The trading price is dependent on a number of factors including the demand for and supply of Units, investor confidence, the availability of market maker services during the course of the trading day, the bid-offer spread charged by a market maker and how closely the value of the assets of a Fund tracks the performance of the relevant Index. The trading price may be affected if there is a suspension of the application and redemption process. The application and redemption facility is designed to reduce the likelihood of Units trading at a significant discount or premium to the Net Asset Value per Unit. If the application or redemption facility for a Fund is closed on a particular day, the trading price might diverge further from the Net Asset Value per Unit.

If the trading of securities or assets which form part of an Index is suspended or restricted, the Net Asset Value of a Fund that tracks such an Index may also be affected.

The Net Asset Value per Unit of a Fund is calculated as at a time that is significantly later than the ASX market close. As a

consequence, there is an increased risk of a divergence between the last trade price for Units and the Net Asset Value per Unit for that day.

Periods of increased market volatility or disruptions to the market making function may result in wider bid-offer spreads for Units and trading prices that differ significantly from a Fund's Net Asset Value per Unit. This risk may be higher in the period shortly after the ASX opens for trading and near the close of trading. If an investor purchases Units at a time when the market price is at a premium to the Net Asset Value per Unit or sells at a time when the market price is at a discount to the Net Asset Value per Unit, then the investor may sustain losses. Investors should consider placing "limit orders" to reduce the risk of trading at unfavourable prices.

4.19 INFLATION RISK

The returns on an investment in a Fund may not keep pace with inflation, which would reduce the real return earned by investors.

4.20 SETTLEMENT RISK

The application and redemption processes associated with the issue or redemption of Units are subject to the normal settlement procedures through CHESS. A Fund is exposed to some risk if an Authorised Participant or other market participant fails to comply with its settlement obligations. These risks are mitigated by the fact that Authorised Participants and other market participants are subject to usual CHESS trading practices including sanctions for failure to comply with obligations. A Fund may also suffer loss if an Authorised Participant fails to deliver the application consideration for Units, or redeliver Units in relation to a redemption, by the settlement time and the Fund has entered into transactions in reliance on delivery occurring.

4.21 INDEX RISK

Each Fund aims to provide Unitholders with a return that tracks the return of the relevant Index before fees and expenses. Each Fund will therefore employ a "passive" management approach, which means that the Responsible Entity will not seek to reposition investments in an attempt to avoid or limit any underperformance of a security held in the portfolio.

Occasionally, the published Index return may differ from what would be expected under the accepted index calculation methodology. The Index provider may or may not re-publish, restate, or advise market participants of an adjusted or corrected figure. In these circumstances, the Responsible Entity may recalculate returns, based on the figure generally accepted to be the correct figure.

As described in section 6.2.7, the sponsor of an Index may change the Index methodology or stop publishing the Index, or the Responsible Entity's licence to use the Index may terminate, in which case the Responsible Entity may change the index for a Fund. The Net Asset Value of a Fund may be adversely affected by such adjustments.

4.22 RISK OF INDEX TRACKING ERROR

A Fund should not be expected to track the performance of an Index exactly, automatically and continuously. A Fund's returns may not match the returns of the underlying Index for various reasons. For example, a Fund will incur fees, operating expenses and transaction costs in buying and selling securities, which are not applicable to the underlying Index. In addition, performance may differ due to differences between a Fund's portfolio and the underlying Index resulting from regulatory or other investment

restrictions, liquidity or other constraints, differences between the timing of investment transactions and the valuation time for determining a Fund's net asset value, a Fund's need to hold an amount of cash from time to time to pay fees and expenses, a Fund employing a sampling strategy, or other factors.

4.23 EARLY CLOSING RISK

Unanticipated early closings of a securities exchange on which securities held by a Fund are traded may result in a Fund being unable to sell or buy securities on that day. If the relevant exchange closes early on a day when a Fund needs to execute a high volume of securities trades late in the trading day (in order to implement application or redemption requests), the Fund may incur trading losses or fail to replicate the relevant Index.

4.24 COUNTERPARTY RISK

Counterparties used in connection with a Fund's investment activities may default on their obligations, for instance by failing to make a payment when due. This may be due to insolvency or other events of default. Such counterparties may include service providers and trading and derivatives counterparties, as well as a

Fund's custodian. Default on the part of a counterparty could result in financial loss to a Fund.

4.25 CYBER-SECURITY RISK

With the increased use of technologies such as the internet and other electronic media to conduct business, the Responsible Entity, each Fund and their service providers can be susceptible to information security and related risks including cyber-security attacks or incidents.

Cyber incidents can result from deliberate attacks or unintentional events, and include gaining unauthorised access to digital systems, networks or devices for purposes of misappropriating assets or sensitive information, corrupting data, or causing operational disruption. Cyber-attacks may also be carried out in a manner that does not require gaining unauthorised access, such as causing denial-of-service attacks on websites (i.e. efforts to make network services unavailable to intended users).

Cyber-security breaches may cause disruptions to the Funds' operations, potentially resulting in financial loss.

5 HOW TO BUY AND SELL UNITS

Only Authorised Participants may apply for Units directly through this PDS.

Other investors cannot apply for Units through this PDS. Such investors may buy and sell Units by trading on the ASX through a stockbroker or via a financial adviser.

Prior to being issued Units, an Authorised Participant must execute an Authorised Participant Agreement that deals with, amongst other things, the rights and obligations of the Authorised Participant in relation to applying for Units. See section 6.3 for further information about the Authorised Participant Agreement.

An Authorised Participant may only redeem Units if they are an Australian Resident (other Unitholders may only redeem Units in the special circumstances described in section 5.4). However, all Unitholders may normally sell their Units by trading on the ASX.

To effect an application or redemption, Authorised Participants must complete the Application Form or Redemption Form attached to this PDS (or available on the BetaShares website at www.betashares.com.au).

Applications for, and redemptions of, Units will be settled through the CHES system.

5.1 MINIMUM APPLICATIONS AND REDEMPTIONS

The minimum application and redemption amount is one Creation Unit, unless otherwise agreed with the Responsible Entity. The number of Units that constitute a Creation Unit for each Fund is determined by the Responsible Entity and notified to Authorised Participants.

Applications and redemptions must be for whole multiples of Creation Units, unless otherwise agreed with the Responsible Entity.

Application and redemption amounts are payable or receivable (as applicable) in cash in Australian dollars, unless otherwise agreed with the Responsible Entity.

5.2 PROCESSING OF APPLICATIONS AND REDEMPTIONS

Application/Redemption Forms received from Authorised Participants before the Dealing Deadline on a Dealing Day are processed at the Issue Price/Withdrawal Amount (being the Net Asset Value per Unit) for a Fund applicable to that day.

Application/Redemption Forms received from Authorised Participants on or after the Dealing Deadline on a Dealing Day, or on a non-Dealing Day, will be treated as being received on the next Dealing Day.

5.3 APPLICATIONS AND REDEMPTIONS

For applications, Authorised Participants must deliver to the Responsible Entity or custodian an amount of Australian dollars equal to the Issue Price for the relevant Units, plus the application fee. In return, they will receive the relevant Units.

For redemptions, Authorised Participants must deliver, or arrange for delivery of, the relevant Units to the Responsible Entity or custodian. In return, they will receive an amount of Australian dollars equal to the Withdrawal Amount for the relevant Units, less the redemption fee.

Details of the amounts payable pursuant to applications, or receivable upon redemptions, will be notified to the Authorised Participant on the ASX Business Day following the effective date of the application or redemption.

An application received by the Dealing Deadline (on day T) will generally enable the Authorised Participant to receive the new Units in its CHES account in accordance with the standard CHES settlement period (two ASX Business Days later (T+2) as at the date of this PDS), provided the Authorised Participant has paid the application consideration and application fee by no later than the standard CHES settlement cut-off time (11:30am as at the date of this PDS) on that settlement day or as otherwise agreed with the Authorised Participant.

Units will generally be issued on the ASX Business Day after the trade date and quoted with effect from the settlement of the issue of the relevant Units through CHES.

A redemption request received by the Dealing Deadline (on day T) will generally enable the Authorised Participant to receive the redemption payment (less the redemption fee) three ASX Business Days later (T+3), provided the Authorised Participant has transferred the Units by no later than the standard CHES settlement cut-off time (11:30am as at the date of this PDS) on T+3 or as otherwise agreed with the Authorised Participant.

The relevant settlement period for applications and redemptions may be extended to accommodate applicable overseas public holidays or other days on which an exchange, on which the relevant Fund's portfolio of investments is traded, is closed on the Dealing Day or during the settlement period.

By signing an Authorised Participant Agreement, an Authorised Participant agrees to be bound by certain execution and settlement procedures in relation to applications for and redemptions of Units which are set out in the Authorised Participant Agreement. Settlement failure procedures apply if an Authorised Participant does not comply with its obligations under the procedures. The procedures allow the Responsible Entity to cancel an application or redemption in certain circumstances and to take certain other action. The Responsible Entity may also reject any application in whole or in part at any time, without giving reasons.

5.4 UNITHOLDER REDEMPTIONS IN SPECIAL CIRCUMSTANCES

All Unitholders may normally sell their Units by trading on the ASX. Unitholders who are not Authorised Participants will not normally have a right to redeem their Units directly with each Fund. However, all Unitholders will have a right to a cash redemption and to receive payment within a reasonable time if Units are suspended from quotation on the ASX for more than five consecutive trading days, unless:

- The relevant Fund is being wound up;

- The relevant Fund is not “liquid” as defined in the *Corporations Act*; or
- The Responsible Entity has suspended redemptions in accordance with the Constitution.

Unitholders may redeem in these circumstances by completing the Redemption Form attached to this PDS. They will receive cash in Australian dollars equal to the aggregate Withdrawal Amount for the relevant Units (less any redemption fee).

No minimum redemption amount will apply.

5.5 SUSPENSIONS OF APPLICATIONS AND REDEMPTIONS

There may be occasions where the Responsible Entity may suspend the issue of Units or delay or reject redemption requests. This may occur, for example, around the end of a distribution period when the Responsible Entity is calculating and paying the distributable income for the relevant period or where there are factors, as determined by the Responsible Entity, which prevent the accurate calculation of Unit prices. The Responsible Entity will advise Unitholders of any suspension of applications or delay or rejection of redemptions.

Where the Responsible Entity cannot accurately determine the Net Asset Value per Unit, the Responsible Entity may suspend applications for Units and/or delay or reject redemptions of Units.

The Responsible Entity may also scale down redemptions in certain circumstances.

See section 6.2.8 and 6.2.9 for further information.

5.6 VALUATIONS AND PRICING

The amount per Unit payable by an Authorised Participant upon an application for Units is known as the Issue Price, and is equal to the Net Asset Value per Unit.

The amount per Unit to which an Authorised Participant (or other Unitholder as described in section 5.4) is entitled on the redemption of Units is known as the Withdrawal Amount, and is equal to the Net Asset Value per Unit.

The Issue Price and the Withdrawal Amount are calculated in the same manner and will have the same value at any time. This value is determined by dividing the Net Asset Value of a Fund by the number of Units on issue in that Fund at the time the Issue Price and/or Withdrawal Amount are determined (the valuation time).

The assets held by a Fund are normally valued at the “closing price” for the day for the relevant security on its relevant market and converted to Australian dollars using 4pm London time exchange rates for currency markets, unless otherwise determined by the Responsible Entity.

The Withdrawal Amount paid to a Unitholder on the redemption of Units may include a distribution of the distributable income of a Fund. Please refer to section 7.1.6 for information regarding how this entitlement is determined.

The Net Asset Value of a Fund is calculated by deducting from the aggregate value of the assets of the Fund all liabilities such as accrued fees and other costs, and provisions relating to the Fund. Fees and other costs, including the Responsible Entity’s fees, are generally accrued daily. A Fund’s assets reflect their market value. The valuation methods applied by the Responsible Entity to value a Fund’s assets and liabilities must be consistent with the range of ordinary commercial practice for valuing them.

Details of the daily Net Asset Value per Unit (and hence the Issue Price and Withdrawal Amount) will be made available on the BetaShares website at www.betashares.com.au.

6 ADDITIONAL INFORMATION

6.1 THE ROLE OF CERTAIN ENTITIES IN REGARD TO BETASHARES FUNDS

There are a number of parties in addition to the Responsible Entity involved in the ongoing operation and administration of the Funds or who otherwise provide services in connection with the Funds:

6.1.1 Custodian and Administrator

The custodian provides custodial services to the Responsible Entity, including holding the assets of the Funds. The custodian may, from time to time, appoint sub-custodians. The custodian has a limited role and has no obligation to monitor whether the Responsible Entity is complying with its obligations as responsible entity of the relevant Fund.

The administrator provides administration services to the Responsible Entity. These services include fund accounting, maintenance of books and records, calculating distribution amounts, valuing a Fund's assets and liabilities, calculating the Issue Price and Withdrawal Amount, and taxation and other services.

The Responsible Entity may change the custodian and administrator without prior notice to Unitholders.

As of the date of this PDS, the custodian and administrator is:

RBC Investor Services Trust
Level 47
2 Park Street
Sydney NSW 2000

6.1.2 Registrar

As for any quoted security, the role of the Registrar is to keep a record of the Unitholders in the Funds. This includes details such as the quantity of Units held, tax file numbers (if provided) and details of distribution reinvestment plan participation. The Responsible Entity may change the Registrar without prior notice to Unitholders.

As of the date of this PDS, the registrar is:

Link Market Services
Level 12
680 George Street
Sydney NSW 2000

6.1.3 Market maker

The role of a market maker is to provide liquidity in the market for Units and to satisfy supply and demand for Units. They do this by:

- Subject to certain conditions, providing liquidity to the market through acting as the buyer and seller of Units during a significant part of the trading day; and
- Creating and redeeming Units in the primary market pursuant to this PDS, which helps to ensure the number of Units on issue matches supply and demand.

The Responsible Entity seeks to appoint market making firms:

- that have experience in making markets in exchange-traded securities both in Australia and internationally;

- that have the necessary skill and expertise to perform market making functions; and
- that are ASX participants (or trade through an ASX participant).

To qualify for admission as an ASX participant, a firm must meet admission requirements set out in the ASX Operating Rules, which require the firm to hold an Australian financial services licence that authorises it to carry on its business as a market participant and to satisfy ASX of various matters including organisational competence and business integrity.

Information about the market maker(s) selected by the Responsible Entity from time to time can be obtained by contacting the Responsible Entity.

The arrangements with the market maker specify certain permitted circumstances where the market making obligations may be suspended (such as operational disruptions, market disruptions or unusual conditions, other events set out in the ASX Operating Rules, the suspension or rejection of applications for Units or redemption requests, or the market maker not having ASIC relief to allow short selling of Units). If a market maker defaults on its obligations, the Responsible Entity may seek to replace the market maker, although the arrangements with the market maker may limit or exclude any liability on the part of the market maker. The arrangements with the market maker may also provide that the market maker has no liability or responsibility to Unitholders for any act or omission made in connection with the market making arrangements.

Unitholders should be aware that a market maker will retain for its own account any trading profit and bear any loss which may be generated by its market making activities. Subject to the AQUA Rules and the agreement with the market maker, the Responsible Entity may appoint or terminate a market maker in respect of a Fund. The Responsible Entity may determine to no longer appoint a market maker in respect of a Fund in circumstances where it is no longer required to do so under the AQUA Rules.

6.1.4 Auditor

The Responsible Entity has appointed KPMG as the auditor of the financial statements of the Funds and of the Responsible Entity's compliance plan for the Funds.

6.1.5 Monitoring of service providers

The Responsible Entity has procedures in place to monitor the performance of those service providers to whom functions have been outsourced. Monitoring methods include, where appropriate, daily observation of service provider performance, review of regular compliance and audit reports, regular meetings with service providers and performance assessments.

6.2 OTHER INFORMATION YOU NEED TO KNOW

6.2.1 BetaShares as the responsible entity

BetaShares, as the responsible entity, is responsible for the management and administration of the Funds. The Responsible Entity holds an Australian Financial Services Licence (AFSL 341181) that authorises it to act as the responsible entity of the Funds. The powers and duties of the Responsible Entity are set out in the Constitution of each Fund, the *Corporations Act* and general trust law.

The Responsible Entity has the power to appoint an agent, or otherwise engage a person, to do anything that it is authorised to do in connection with a Fund and, for the purpose of determining whether the Responsible Entity has properly performed its duties as responsible entity, the Responsible Entity is taken to have done (or failed to do) anything that the agent or person has done (or failed to do) because of the appointment or engagement, even if they were acting fraudulently or outside the scope of their authority or engagement.

6.2.2 The Constitution

Each Fund is a registered managed investment scheme governed by a Constitution. Under the Constitution of each Fund, the Responsible Entity has all the powers it is possible to confer on a trustee as though it were the absolute owner of the Fund's assets and acting in its personal capacity. The Constitution for each Fund sets out the rights of the Unitholders and the obligations of the Responsible Entity, as responsible entity of the Fund. This PDS outlines some of the more important provisions of the Constitutions of the Funds, all of which are substantially identical in terms of their material provisions.

A copy of the Constitution in relation to a Fund may be inspected by Unitholders at the Responsible Entity's office, during business hours. The Responsible Entity will provide Unitholders with a copy of the relevant Constitution upon request.

6.2.3 Amendments to the Constitution

The Responsible Entity may amend the Constitution of a Fund from time to time, subject to the provisions of the Constitution and the *Corporations Act*. Generally, the Responsible Entity can only amend the Constitution where the Responsible Entity reasonably considers that the change will not adversely affect the rights of Unitholders. Otherwise the Constitution can only be amended if approved at a meeting of Unitholders by a resolution approved by at least 75% of the votes cast by Unitholders entitled to vote on the resolution.

6.2.4 The compliance plan

The Responsible Entity has prepared and lodged compliance plans for the Funds with ASIC. Each compliance plan sets out the key criteria that the Responsible Entity will follow to ensure that it is complying with the *Corporations Act* and the each Fund's Constitution. Each year the relevant compliance plan, and the Responsible Entity's compliance with the compliance plan, will be independently audited, as required by the *Corporations Act*, and the auditor's report will be lodged with ASIC.

6.2.5 The compliance committee

The Responsible Entity has established a compliance committee with a majority of members that are external to the Responsible Entity. The compliance committee's functions include:

- monitoring the Responsible Entity's compliance with the compliance plans and reporting its findings to the Responsible Entity;
- reporting breaches of the *Corporations Act* or the Constitution of a Fund to the Responsible Entity;
- reporting to ASIC if the committee is of the view that the Responsible Entity has not taken or does not propose to take appropriate actions to deal with breaches reported to it by the committee; and
- assessing the adequacy of the compliance plan, recommending any changes and reporting these to the Responsible Entity.

6.2.6 Unit pricing policy

The Responsible Entity has documented its policy on how it exercises discretions when determining Unit prices for the Funds. The policy has been designed to meet the ASIC requirements and is available on request to all Unitholders and prospective Unitholders at no charge.

6.2.7 Change of Index

Subject to the contractual arrangements with any Index provider, it is possible that the Responsible Entity may change the Index applicable to a Fund. This may be for reasons such as (but not limited to):

- i. the Index provider ceases to publish the particular Index or materially changes the methodology or constituents of the Index;
- ii. a new index becomes available which supersedes the existing Index;
- iii. a new index becomes available which is, in the opinion of the Responsible Entity, more cost effective for a Fund and/or is regarded as the market standard for investors in the particular market and/or would be regarded as of greater benefit to the Unitholders (for reasons including a reduction in transaction costs) than the existing Index;
- iv. it becomes difficult to invest in securities comprised within the particular Index;
- v. the Index provider increases its charges to a level which the Responsible Entity considers too high or if any Index licence provided by an Index provider in connection with the use of the Index is terminated;
- vi. the quality (including accuracy and availability of data) of a particular Index has, in the opinion of the Responsible Entity, deteriorated; or
- vii. other reasons.

6.2.8 Suspensions of applications and redemptions

The Constitution of each Fund allows the Responsible Entity to suspend the issue of Units in the Fund by publishing a notice to that effect. Application Forms received during a period of suspension may be rejected or treated as received when the period of suspension ceases. The Responsible Entity may also reject any application in whole or in part at any time without giving reasons.

The Constitution of each Fund provides that, in some circumstances, the period for satisfaction of redemption requests (generally three ASX Business Days) may be extended, or that redemption requests may be suspended or rejected for as long as the relevant circumstances apply. Those circumstances are where:

- i. the Responsible Entity has taken all reasonable steps to realise sufficient assets to pay amounts due in respect of Units to which a redemption request applies and is unable to do so due to circumstances outside its control, such as restricted or suspended trading in the market for an asset;
- ii. the Responsible Entity believes that it is impracticable or not possible to transfer, in the manner acceptable to the Responsible Entity, sufficient assets to satisfy the redemption request (for example, because of disruption to a settlement or clearing system);
- iii. the Responsible Entity believes that it is not practicable or desirable to determine the redemption securities for an-

kind redemption or carry out the calculations necessary to satisfy the redemption request (for example, because an index on which the redemption securities component is to be based is not compiled or published, or it is impracticable or undesirable to calculate the Net Asset Value because of restricted or suspended trading in the market for an asset or because the value of any asset cannot otherwise promptly or accurately be ascertained);

- iv. the quotation of any Units on the ASX is suspended or the trading of any Units is otherwise halted, interrupted or restricted by the ASX, or the trading of any Units is subject to a period of deferred settlement, or there is a period during which the Units are subject to a consolidation or division;
- v. the Units cease to be admitted to trading status on the ASX;
- vi. a redemption request is received in a financial year and the Responsible Entity determines that the date on which the completion of the redemption of the Units would otherwise occur would be in the next financial year;
- vii. a redemption request is received during any period before or after a distribution date which period the Responsible Entity determines to be necessary or desirable to facilitate the calculation and distribution of distributable income;
- viii. the Responsible Entity does not consider that it is in the best interests of Unitholders of the Fund taken as a whole to transfer or realise sufficient assets to satisfy the redemption request; or
- ix. the Responsible Entity believes that assets cannot be realised at prices that would be obtained if assets were realised in an orderly fashion over a reasonable period in a stable market.

6.2.9 Spreading redemption requests

The Constitution of each Fund provides that, if the Responsible Entity receives one or more redemption requests in respect of a particular valuation time that seek the redemption in aggregate of more than 10% of the total number of Units on issue, the Responsible Entity may scale down pro rata each redemption request so that no more than 10% of the number of Units on issue will be redeemed in respect of that valuation time. If a redemption request is scaled down in this way, the relevant Unitholder shall be deemed to have made a redemption request with respect to the unsatisfied balance of the Units the subject of the redemption request and that request will be deemed to have been received immediately following the first valuation time. The balance of such unsatisfied redemption request will be satisfied in priority to any subsequently received redemption request and will generally be satisfied in full no later than the 10th valuation time following the first valuation time.

6.2.10 Non-Authorised Participant redemption request

If there are no Authorised Participants, the Responsible Entity may accept a redemption request from a person who is not an Authorised Participant, provided such person is an Australian Resident at the time of giving the redemption request.

6.2.11 Information relating to redemptions

The information in section 5 relating to redemptions assumes that each Fund is liquid within the meaning of section 601KA of the *Corporations Act*. A Fund will be liquid if at least 80% of its assets, by value, are liquid assets under the *Corporations Act*. Broadly,

liquid assets include money in an account or on deposit with a bank, bank accepted bills, marketable securities and other property which the Responsible Entity reasonably expects can be realised for its market value within the period specified in the Constitution for satisfying redemption requests. At the date of this PDS, the Responsible Entity expects that each Fund will be liquid under the *Corporations Act*. If a Fund is not liquid, a Unitholder will not have a right to redeem Units and can only redeem where the Responsible Entity makes a withdrawal offer to Unitholders in accordance with the *Corporations Act*. The Responsible Entity is not obliged to make such offers.

6.2.12 Rights of a Unitholder

A Unit confers a beneficial interest on a Unitholder in the assets of a Fund but not an entitlement or interest in any particular part of the Fund or any asset.

The terms and conditions of a Fund's Constitution are binding on each Unitholder in that Fund and all persons claiming through them respectively, as if the Unitholder or person were a party to the Constitution.

6.2.13 Reimbursement of expenses

In addition to any other indemnity which the Responsible Entity may have under a Fund's Constitution or at law, the Responsible Entity is indemnified and entitled to be reimbursed out of, or paid from, the assets of the relevant Fund for all liabilities, losses and expenses incurred by it in relation to the proper performance of its duties as responsible entity of that Fund.

6.2.14 Retirement of BetaShares

BetaShares may retire as responsible entity of a Fund by calling a meeting of Unitholders to enable Unitholders to vote on a resolution to choose a company to be the new responsible entity. The Responsible Entity may be removed from office by an extraordinary resolution (i.e. a resolution passed by at least 50% of the total votes that may be cast by Unitholders entitled to vote on the resolution) passed at a meeting of Unitholders, in accordance with the *Corporations Act*.

6.2.15 Termination

The Responsible Entity may wind up a Fund at any time. Following winding up, the net proceeds will be distributed to Unitholders pro-rata according to the number of Units they hold.

6.2.16 Limitation of liability of Unitholders

The Constitution of each Fund provides that the liability of each Unitholder is limited to the amount subscribed, or agreed to be subscribed, by the Unitholder, subject to:

- i. the indemnities each Unitholder gives the Responsible Entity for losses or liabilities incurred by the Responsible Entity:
 - a. in relation to the Unitholder's failure to provide requested information;
 - b. for tax or user pays fees as a result of a Unitholder's action or inaction, any act or omission by the Unitholder or any matter arising in connection with the Units held by the Unitholder;
 - c. in relation to the Unitholder paying or failing to pay the issue price or application or redemption fees in accordance with the constitution or otherwise failing to comply with the constitution; and

- ii. execution and settlement procedures prescribed by the Responsible Entity that relate to the issue and redemption of Units.

Subject to the matters described above, a Unitholder is not required to indemnify the Responsible Entity or a creditor of the Responsible Entity against any liability of the Responsible Entity in respect of the Fund. However, no complete assurance can be given in this regard, as the ultimate liability of a Unitholder has not been finally determined by the courts.

6.2.17 Meeting of Unitholders

The Responsible Entity may convene a meeting of Unitholders of a Fund at any time, (e.g. to approve certain amendments to a Fund's Constitution or to wind up the Fund). The *Corporations Act* provides that Unitholders also have limited rights to call meetings and have the right to vote at any Unitholder meetings. Except where that Fund's Constitution provides otherwise, or the *Corporations Act* requires otherwise, a resolution of Unitholders must be passed by Unitholders who hold Units exceeding 50% in value of the total value of all Units held by Unitholders who vote on the resolution.

A resolution passed at a meeting of Unitholders held in accordance with a Fund's Constitution binds all Unitholders of the Fund.

6.2.18 Indemnities and limitation of liability of the Responsible Entity

The Responsible Entity is indemnified out of the assets of each Fund for any liability incurred by it in properly performing or exercising any of its powers or duties in relation to that Fund. To the extent permitted by the *Corporations Act*, the indemnity includes any liability incurred by the Responsible Entity as a result of any act or omission of a delegate or agent appointed by the Responsible Entity.

The Responsible Entity is not liable in contract, tort or otherwise to Unitholders for any loss suffered in any way relating to a Fund except to the extent that the *Corporations Act* imposes such liability.

6.2.19 Defective applications

The Constitution of each Fund allows the Responsible Entity to cancel Units in certain circumstances including where the Responsible Entity determines that the applicant was not entitled to apply for or hold the Units, the Application Form was incorrectly executed or was otherwise defective or where the execution and settlement procedures were not complied with.

6.2.20 Discretionary redemptions

The Constitution of each Fund allows the Responsible Entity to redeem some or all of a Unitholder's Units at any time. The Responsible Entity will give the Unitholder at least 60 days' notice of such redemption, unless the Unitholder is not entitled to hold Units under any applicable law.

6.2.21 Information from Unitholders

The Constitution of each Fund provides that the Responsible Entity may request any information from Unitholders where it believes that such information is necessary to (a) comply with any law or regulatory request; or (b) lessen the risk of the Fund or any Unitholder suffering a material detriment. If a Unitholder fails to provide the requested information, the Unitholder must indemnify the Responsible Entity for any loss suffered by the Responsible Entity in relation to such failure.

6.2.22 Borrowings

Each Fund's Constitution places no formal limits on borrowing. It is not the Responsible Entity's intention to enter into borrowing for a Fund, except that temporary borrowings may be used occasionally to manage certain cash flows. Any borrowing may be on a secured or unsecured basis and any borrowing costs would be borne by the Fund.

6.2.23 If you have a complaint

If a Unitholder has a complaint regarding a Fund or services provided by the Responsible Entity, please contact Client Services on 1300 487 577 (within Australia) or +61 2 9290 6888 (outside Australia) from 9:00 am to 5:00 pm Sydney time, Monday to Friday. A copy of the complaints handling policy can also be obtained at no charge by contacting the Responsible Entity.

If the complaint is not satisfactorily resolved within three business days, a Unitholder may refer the matter in writing to:

Manager Client Services
BetaShares Capital Ltd
Level 11, 50 Margaret Street
Sydney NSW 2000

To expedite a resolution of the matter, copies of all relevant documentation and other materials supporting the complaint should be provided with the complaint.

The Responsible Entity will try to resolve complaints as soon as possible, but in any event, will inform the Unitholder in writing of its determination regarding the complaint within 45 days of receiving the initial complaint.

In the event that a Unitholder is not satisfied with the outcome of a complaint, the Unitholder has the right to request the Responsible Entity to review its decision or to refer the matter to an external complaints resolution scheme. The Responsible Entity is a member of the Australian Financial Complaints Authority ("AFCA"). AFCA provides fair and independent financial services complaint resolution that is free to consumers. Unitholders can contact AFCA on:

Website: www.afca.org.au
Email: info@afca.org.au
Phone: 1800 931 678 (free call)
In writing to: Australian Financial Complaints Authority
GPO Box 3, Melbourne VIC 3001

Certain eligibility requirements apply for AFCA to hear a complaint, as set out in AFCA's complaint resolution scheme rules.

6.2.24 Protecting your privacy

Privacy laws regulate, among other matters, the way organisations collect, use, disclose, keep secure and give people access to their personal information.

The Responsible Entity is committed to respecting the privacy of a Unitholder's personal information. The Responsible Entity's privacy policy states how the Responsible Entity manages personal information.

The Responsible Entity may collect personal information in the course of managing a Fund. Some information must be collected for the purposes of compliance with the *Anti-Money Laundering and Counter Terrorism Financing Act 2006*.

The Responsible Entity may provide personal information to a Unitholder's adviser if written consent is provided to the Responsible Entity. The Responsible Entity may disclose personal

information to authorities investigating criminal or suspicious activity and to the Australian Transaction Reports and Analysis Centre (AUSTRAC) in connection with anti-money laundering and counter-terrorism financing.

The Responsible Entity may provide a Unitholder's personal information to its service providers for certain related purposes (as described under the *Privacy Act 1988*) such as account administration and the production and mailing of statements. The Responsible Entity may also use a Unitholder's personal information and disclose it to its service providers to improve customer service (including companies conducting market research) and to keep Unitholders informed of the Responsible Entity's or its partners' products and services, or to their financial adviser or broker to provide financial advice and ongoing service.

The Responsible Entity will assume consent to personal information being used for the purposes of providing information on services offered by the Responsible Entity and being disclosed to market research companies for the purposes of analysing the Responsible Entity's investor base unless otherwise advised.

Unitholders may request access to the personal information held about them at any time and ask the Responsible Entity to correct this information if it is incomplete, incorrect or out of date.

To obtain a copy of the privacy policy at no charge, contact the Responsible Entity on 1300 487 577 (within Australia) or +61 2 9290 6888 (outside Australia).

6.2.25 Anti-money laundering

The Responsible Entity is bound by laws regarding the prevention of money laundering and the financing of terrorism, including the *Anti-Money Laundering and Counter-Terrorism Financing Act 2006* (AML/CTF Laws). By completing the Application or Redemption Form, the Unitholder agrees that:

- it does not subscribe to the Fund under an assumed name;
- any money used to invest in the Units is not derived from or related to any criminal activities;
- any proceeds of the investment will not be used in relation to any criminal activities;
- if the Responsible Entity requests, the Unitholder will provide to it any additional information that is reasonably required for the purposes of AML/CTF Laws (including information about the investor, any beneficial interest in the Units, or the source of funds used to invest);
- the Responsible Entity may obtain information about the Unitholder or any beneficial owner of a Unit from third parties if it is believed this is necessary to comply with AML/CTF Laws; and
- in order to comply with AML/CTF Laws, the Responsible Entity may be required to take action, including:
 - delaying or refusing the processing of any application or redemption; or
 - disclosing information that the Responsible Entity holds about the Unitholder or any beneficial owner of the Units to the Responsible Entity's related bodies corporate or service providers, or relevant regulators of AML/CTF Laws (whether in or outside of Australia).

6.2.26 Foreign Account Tax Compliance Act (FATCA) & OECD Common Reporting Standard (CRS)

FATCA was enacted by the U.S. Congress to target non-compliance by US taxpayers using foreign accounts. In order to prevent FATCA withholding tax being applied to any US connected payments made to a Fund in Australia, the relevant Fund is required to collect and report information to the Australian Taxation Office relating to certain U.S. accounts, which may be exchanged with the U.S. Internal Revenue Service.

Similar to FATCA, the CRS is the single global standard for the collection, reporting and exchange of financial account information on foreign tax residents. Australian financial institutions need to collect and report financial account information regarding non-residents to the Australian Taxation Office.

Accordingly, a Fund may request that you provide certain information about yourself (for individual investors) or your controlling persons (where you are an entity) in order for that Fund to comply with its FATCA or CRS compliance obligations.

6.2.27 Other services

The Responsible Entity in its personal capacity, or companies related to the Responsible Entity, may invest in each Fund or provide services to a Fund. Any such services will be provided on terms that would be reasonable if the parties were dealing at arm's length.

6.2.28 Warning statement for New Zealand investors

The following disclosure is made to enable a Fund's Units to be offered by the Responsible Entity in New Zealand under the mutual recognition scheme between Australia and New Zealand:

1. This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.
2. This offer and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, Australia's Corporations Act 2001 and the regulations made under that Act set out how the offer must be made.
3. There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.
4. The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.
5. Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.
6. The taxation treatment of Australian financial products is not the same as for New Zealand financial products.

7. If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

Currency exchange risk

1. The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.
2. If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

Trading on financial product market

If the financial products are able to be traded on a financial product market and you wish to trade the financial products through that market, you will have to make arrangements for a participant in that market to sell the financial products on your behalf. If the financial product market does not operate in New Zealand, the way in which the market operates, the regulation of participants in that market, and the information available to you about the financial products and trading may differ from financial product markets that operate in New Zealand.

Dispute resolution process

The dispute resolution process described in this offer document is available only in Australia and is not available in New Zealand.

6.3 MATERIAL CONTRACTS

The Responsible Entity has entered into a number of contracts in relation to the offer of the Funds, as set out below.

TABLE 6.3: MATERIAL CONTRACTS

CONTRACT AND PARTY	DESCRIPTION
Index Licence Agreement	The Index provider in relation to each Fund is set out in the Product Supplement. There is an Index Licence Agreement in relation to each Fund that allows the Responsible Entity to use the relevant Index in the operation of the Fund.
Custody agreement RBC Investor Services Trust	This agreement sets out the services provided by the custodian on an ongoing basis together with service standards.
Investment administration agreement RBC Investor Services Trust	This agreement sets out the services provided by the administrator (accountancy services, tax services and fund administration services including Unit price calculations), together with service standards.
Registry agreement Link Market Services Limited	This agreement sets out the services provided by the Registrar on an ongoing basis together with service standards.
Authorised participant agreement Authorised Participants	An Authorised Participant Agreement deals with execution and settlement procedures in relation to the application for and redemption of Units. The terms of each Authorised Participant Agreement may vary and each may be amended from time to time. Under the Authorised Participant Agreement, the Authorised Participant makes certain representations to the Responsible Entity about its status as an appropriately licensed entity and agrees to comply with the Constitution and with the execution and settlement procedures.
Nominee deed poll RBC Investor Services Trust	Under this document, if applicable, the Applicant Nominee agrees to hold Units the subject of an application by an Authorised Participant as nominee for the Authorised Participant pending settlement.
Nominee terms Authorised Participants	By signing the Application Form, if applicable, the Authorised Participant covenants for the benefit of the Applicant Nominee to be bound by the Nominee Terms under which the Applicant Nominee will hold application Units for the Authorised Participant subject to a security interest in favour of the Responsible Entity pending settlement of the application. Under the Nominee Terms, if the Authorised Participant does not comply with its obligations relating to the issue of Units, the Responsible Entity may direct the Applicant Nominee that the Units not be transferred to the Authorised Participant, in which case the Units are to be held solely for the Responsible Entity.

6.4 ASIC RELIEF

Equal Treatment Relief

ASIC class order 13/721 exempts the Responsible Entity from the equal treatment requirement in section 601FC(1)(d) of the *Corporations Act*, to the extent necessary to allow the Responsible Entity to restrict eligibility to submit redemption requests in relation to Units to Authorised Participants who are Australian Residents. The Responsible Entity will not treat Unitholders of the same class equally to the extent that it restricts redemptions from a Fund to such Authorised Participants.

Relief is granted subject to certain conditions, including the condition that that all Unitholders will have a right to a cash redemption if Units in a Fund are suspended from trading on the ASX for more than five consecutive trading days, unless:

- The Fund is being wound up;
- The Fund is no longer a liquid scheme; or
- The Responsible Entity has suspended redemptions in accordance with the Fund's constitution.

If such a redemption occurs, any redemption fee per Unit payable by Unitholders who are not Authorised Participants must not be greater than the redemption fee per Unit that would generally be payable on redemption by an Authorised Participant for a cash redemption when withdrawing the minimum parcel of Units.

Ongoing Disclosure Relief

ASIC class order 13/721 exempts the Responsible Entity from the ongoing disclosure requirements in section 1017B of the *Corporations Act* on the condition that the Responsible Entity complies with the continuous disclosure provisions of the

Corporations Act that apply to an unlisted disclosing entity as if each Fund was an unlisted disclosing entity. The Responsible Entity will comply with these continuous disclosure provisions as if each Fund was an unlisted disclosing entity.

Periodic Statements Relief

ASIC Class Order 13/1200 exempts the Responsible Entity from certain periodic statement requirements. In particular, the Responsible Entity is not required (and does not propose) to include in periodic statements details of the price at which an investor transacts in Units on the ASX, or information on the return on an investment in Units acquired on the ASX (for the year in which the Units are acquired), if the Responsible Entity is not able to calculate this and the periodic statement explains why the information was not included and how it can be obtained.

6.5 DOCUMENTS LODGED WITH ASIC

The Responsible Entity is subject to certain regular reporting and disclosure obligations in relation to each Fund under the *Corporations Act*. Copies of documents lodged with ASIC in relation to the Funds may be obtained from, or inspected at, an ASIC office.

As an investor in a Fund, a Unitholder may obtain the following documents from the Responsible Entity:

- the annual report most recently lodged with ASIC in respect of the Fund;
- any half-year financial report lodged with ASIC in respect of the Fund after the lodgement of the abovementioned annual report and before the date of this PDS; and
- any continuous disclosure notices given in respect of the Fund after the lodgement of the abovementioned annual report and before the date of this PDS.

The Responsible Entity will send a requesting Unitholder a printed or electronic copy of any of the above documents free of charge within 5 business days of the request.

6.6 COOLING OFF

There is no cooling off period in relation to the subscription for Units in any of the Funds. This means that once an Application Form is submitted, an applicant cannot decide to withdraw the application.

6.7 INDIRECT INVESTORS

When an investor invests through a master trust or wrap platform or an IDPS, the operator of the trust, platform or IDPS is investing on the investor's behalf. Consequently, the operator (or the custodian of the platform), and not the investor as an indirect investor, holds the Units and therefore has the rights of a Unitholder in the relevant Fund. For example, if an investor is an indirect investor they will not have rights to attend and vote at Unitholder meetings, to withdraw Units or receive distributions. Instead the platform operator will exercise those rights in accordance with their arrangements with the investor. For information about their investment, an investor should contact their platform operator.

6.8 INFORMATION AVAILABLE FROM BETASHARES

The Responsible Entity is subject to regular reporting and disclosure obligations, in its capacity as responsible entity of the

Funds and issuer of the Units. The following information can be obtained from the Responsible Entity by visiting the BetaShares website at www.betashares.com.au or by contacting BetaShares on 1300 487 577 (within Australia) or +61 2 9290 6888 (outside Australia):

- The daily Net Asset Value (NAV) for the Funds;
- The daily NAV per Unit for the Funds;
- The Responsible Entity's Unit pricing policy;
- The latest PDS for the Funds;
- Copies of announcements made to the ASX via the ASX Market Announcements Platform (including continuous disclosure notices and distribution information);
- Information about distributions as soon as possible after they are declared;
- Annual and any half-year reports and financial statements for the Funds;
- Details of any Distribution Reinvestment Plan; and
- Information in relation to the Funds to enable Authorised Participants and market makers to estimate the Net Asset Value per Unit of the Funds during the course of a trading day.

6.9 DISCLAIMERS

RBC Investor Services Trust ("RBC Investor Services") has been appointed as the custodian and administrator for the Funds. RBC Investor Services' role as custodian is limited to holding assets of the Funds. As administrator, RBC Investor Services is responsible for the day to day administration of the Funds. RBC Investor Services has no supervisory role in relation to the operation of the Funds and has no liability or responsibility to Unitholders for any act done or omission made in accordance with the custody and investment administration agreements.

RBC Investor Services was not involved in preparing, nor takes any responsibility for this PDS and RBC Investor Services makes no guarantee of the success of the Funds nor the repayment of capital or any particular rate of capital or income return.

The S&P Eurozone Exporters Hedged AUD Index and the S&P Japan Exporters Hedged AUD Index (each an "Index") are products of S&P Dow Jones Indices LLC or its affiliates ("SPDJ"), and have been licensed for use by BetaShares. Standard & Poor's® and S&P® are registered trademarks of Standard & Poor's Financial Services LLC ("S&P"); Dow Jones® is a registered trademark of Dow Jones Trademark Holdings LLC ("Dow Jones"). It is not possible to invest directly in an Index. The Funds are not sponsored, endorsed, sold or promoted by SPDJ, Dow Jones, S&P, any of their respective affiliates (collectively, "S&P Dow Jones Indices"). S&P Dow Jones Indices do not make any representation or warranty, express or implied, to the owners of the Funds or any member of the public regarding the advisability of investing in securities generally or in the Funds particularly or the ability of an Index to track general market performance. Past performance of an index is not an indication or guarantee of future results. S&P Dow Jones Indices' only relationship to BetaShares with respect to an Index is the licensing of the Index and certain trademarks, service marks and/or trade names of S&P Dow Jones Indices and/or its licensors. Each Index is determined, composed and calculated by S&P Dow Jones Indices without regard to BetaShares or the Funds. S&P Dow Jones Indices have no obligation to take the needs of BetaShares or the owners of the Funds into consideration in determining, composing or calculating each

Index. S&P Dow Jones Indices are not responsible for and have not participated in the determination of the prices, and amount of the Funds or the timing of the issuance or sale of the Funds or in the determination or calculation of the equation by which interests in the Funds are to be converted into cash, surrendered or redeemed, as the case may be. S&P Dow Jones Indices have no obligation or liability in connection with the administration, marketing or trading of the Funds. There is no assurance that investment products based on an Index will accurately track index performance or provide positive investment returns. S&P Dow Jones Indices LLC is not an investment or tax advisor. A tax advisor should be consulted to evaluate the impact of any tax-exempt securities on portfolios and the tax consequences of making any particular investment decision. Inclusion of a security within an index is not a recommendation by S&P Dow Jones Indices to buy, sell, or hold such security, nor is it considered to be investment advice.

NEITHER S&P DOW JONES INDICES NOR ANY THIRD PARTY LICENSOR GUARANTEES THE ADEQUACY, ACCURACY, TIMELINESS AND/OR THE COMPLETENESS OF AN INDEX OR ANY DATA RELATED THERETO OR ANY COMMUNICATION, INCLUDING BUT NOT LIMITED TO, ORAL OR WRITTEN COMMUNICATION (INCLUDING ELECTRONIC COMMUNICATIONS) WITH RESPECT THERETO. S&P DOW JONES INDICES AND ANY THIRD PARTY LICENSOR SHALL

NOT BE SUBJECT TO ANY DAMAGES OR LIABILITY FOR ANY ERRORS, OMISSIONS, OR DELAYS THEREIN. S&P DOW JONES INDICES AND ANY THIRD PARTY LICENSOR MAKES NO EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIMS ALL WARRANTIES, OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE OR AS TO RESULTS TO BE OBTAINED BY BETASHARES, OWNERS OF THE FUNDS, OR ANY OTHER PERSON OR ENTITY FROM THE USE OF AN INDEX OR WITH RESPECT TO ANY DATA RELATED THERETO. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT WHATSOEVER SHALL S&P DOW JONES INDICES OR ANY THIRD PARTY LICENSOR BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES INCLUDING BUT NOT LIMITED TO, LOSS OF PROFITS, TRADING LOSSES, LOST TIME OR GOODWILL, EVEN IF THEY HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, WHETHER IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE. THERE ARE NO THIRD PARTY BENEFICIARIES OF ANY AGREEMENTS OR ARRANGEMENTS BETWEEN S&P DOW JONES INDICES AND BETASHARES, OTHER THAN THE LICENSORS OF S&P DOW JONES INDICES.

7 TAXATION

The taxation information in this PDS is provided for general information only. It is a broad overview of some of the Australian tax consequences associated with investing in the Funds for a potential Australian resident investor.

It does not take into account the specific circumstances of each person who may invest in a Fund. It should not be used as the basis upon which potential investors make a decision to invest.

As the circumstances of each investor are different, the Responsible Entity strongly recommends that investors obtain professional independent tax advice relating to the tax implications of investing in and dealing in Units.

The taxation information in this PDS has been prepared based on tax laws and administrative interpretations of such laws available at the date of this PDS. These laws and interpretations may change.

7.1.1 Taxation of the Funds

The Responsible Entity intends to manage the Funds such that the Funds are not subject to Australian tax. Recent changes in the tax law have introduced a new elective taxation regime that is available to certain eligible management investment trusts, known as "Attribution Managed Investment Trusts" (AMITs). The AMIT regime became generally available from 1 July 2016, with the existing tax rules for managed funds applying unless an election is made to enter the regime.

As at the date of this PDS, the Responsible Entity has made an irrevocable election for all eligible funds to enter the AMIT regime with effect from 1 July 2018.

The Responsible Entity does not generally expect the Funds to be subject to tax on the income of the Funds, as it is intended that:

- for eligible funds that enter the AMIT regime: all taxable income and other relevant amounts will be "attributed" to the unitholders in each financial year; and
- for funds that have not entered the AMIT regime or cease to be eligible to be AMITs: Unitholders will be presently entitled to all the income of a fund in each financial year, with the existing non-AMIT tax rules for managed funds continuing to apply.

Instead, Unitholders pay tax on their share of the Fund's income.

7.1.2 Taxation of Australian resident Unitholders

The taxable income of a Fund which is attributed to Unitholders, or to which a Unitholder becomes entitled, during a financial year forms part of the Unitholder's assessable income for that year, even if payment of the entitlement does not occur until after the end of the financial year, or the proceeds are reinvested in more of the Fund's Units.

A Unitholder may receive an entitlement to the income of a Fund for a financial year if the Unitholder holds Units at the end of a distribution period, or if the Unitholder redeems any Unit during the financial year.

7.1.3 Taxable income of the Funds

The tax impact for a Unitholder of receiving an entitlement to the income of a Fund depends upon the nature of the Fund's income.

Types of income

A Fund can derive various types of income, depending on the types of investments it makes. A Fund can derive income in the form of dividends, interest, gains on the disposal of investments and other types of income.

Generally, such income derived by a Fund is taxable, although tax credits may be available to Unitholders to offset some or all of any resulting tax liability. For example, income received by a Fund from foreign sources may be subject to tax in the country of source, and Australian tax resident investors may be entitled to claim a foreign income tax offset against their Australian tax liability in respect of their share of the foreign tax paid.

Capital gains and losses

A trust that qualifies as a managed investment trust ("MIT") can elect to treat its gains and losses on disposal of certain investments as capital gains and losses. It is expected that the Funds will make this election, where eligible.

Any assessable capital gains derived by a Fund to which a Unitholder becomes entitled or which is attributed to a Unitholder forms part of the Unitholder's assessable income.

A Unitholder may be eligible for the 50% CGT discount (where the Unitholder is an individual or trust) or a 33 1/3% CGT discount (where the Unitholder is a complying superannuation fund) in respect of the gain that forms part of that Unitholder's assessable income, depending on the Unitholder's circumstances. Unitholders should seek professional advice in relation to the availability of any CGT concession.

Tax deferred / non-assessable amounts

A Fund may distribute "tax deferred amounts" for non-AMITs, or other non-assessable amounts (other non-attributable amounts) for AMITs, relating to distributions of capital by the Fund, which are generally non-assessable for tax purposes. Where non-assessable, tax deferred amounts / non-assessable amounts reduce the capital gains tax ("CGT") cost base of a Unitholder's Units, and may increase the capital gain or reduce the capital loss subsequently realised on disposal of the Units. Where the total tax deferred amounts / non-assessable amounts received by a Unitholder have exceeded the cost base of their Units, the excess is treated as a capital gain to the Unitholder.

Taxation of Financial Arrangements (TOFA)

The TOFA rules may apply to "financial arrangements" (e.g. debt securities) held by a Fund. Under the TOFA rules, gains and losses on financial arrangements are generally assessed for tax purposes on a compounding accruals basis (where the gains/losses are sufficiently certain) rather than a realisation basis.

For Unitholders who hold Units as trading stock, distributions from the Funds including capital gains and tax deferred / non-assessable amounts may be fully taxable as ordinary income, depending on the Unitholder's particular circumstances.

Unitholders will be provided with statements after the end of each financial year detailing the components, for tax purposes, of any distributions or attribution of income received from a Fund during the financial year, including on the redemption of Units.

7.1.4 Selling or transferring Units

If a Unitholder disposes of Units by selling or transferring the Units to another person (e.g. selling on-market), the Unitholder may be liable for tax on any gains realised on that disposal of Units.

If a Unitholder is assessed otherwise than under the CGT provisions on a disposal of Units (e.g. if the Unitholder is in the business of dealing in securities like Units), any profits made on the disposal of the Units should be assessable as ordinary income. Such Unitholders may be able to deduct any losses made on the disposal of Units.

If a Unitholder is assessed under the CGT provisions on disposal of Units, the Unitholder may make a capital gain or loss on the disposal of those Units, in the year in which the contract for the disposal is entered into. Some Unitholders may be eligible for the CGT discount upon disposal of Units if the Units have been held for at least 12 months (excluding the acquisition and disposal dates) and the relevant requirements are satisfied. Unitholders should obtain professional independent tax advice about the availability of the CGT discount.

Any capital loss arising on a disposal of Units may be able to be offset against capital gains made in that year or in subsequent years.

7.1.5 Goods and Services Tax (GST)

The issue and redemption of Units should not be subject to GST. However, fees and expenses, such as management costs, incurred by a Fund would likely attract GST (at the rate of 10%).

Given the nature of the activities of the Funds, they may not be entitled to claim input-tax credits for the full amount of the GST incurred. However, for the majority of the expenses, a Reduced Input-Tax Credit (RITC) may be able to be claimed.

The GST and expected RITC relating to fees and expenses is incorporated in the management cost for the Funds.

7.1.6 Applications and redemptions

A person will generally only be eligible to apply for and redeem Units if they are an Authorised Participant.

This section seeks to provide a summary of the tax consequences for Authorised Participants who are assessed on the disposal of Units otherwise than under the CGT provisions (e.g. because they are in the business of dealing in securities like Units).

Authorised Participants should obtain professional independent tax advice regarding the tax consequences of applying for and the redemption of their Units, particularly if they are assessed on the disposal of Units under the capital gains provisions.

Applications

The Units which an Authorised Participant acquires on an application for Units should be taken to have been acquired at a cost equal to the purchase price of those Units.

Redemptions

An Authorised Participant who redeems Units will become entitled to receive the Withdrawal Amount on the redemption (this may be reduced by the redemption fee).

The redemption of Units by an Authorised Participant may result in the Authorised Participant being assessed on some of the taxable income of the Fund, through a distribution of income or an attribution under the AMIT regime. This includes, but is not limited to, income and other gains realised by a Fund to fund the redemption of Units by the Authorised Participant, and potentially, where fair and reasonable, a portion of undistributed income or gains for the year as at the time of the redemption.

The Withdrawal Amount may therefore comprise a share of the income of a Fund as well as the payment of the redemption price for the Units which are to be redeemed.

An Authorised Participant whose Units are redeemed should be assessed on any profit arising on the redemption of the Units. An Authorised Participant who redeems Units may be entitled to a deduction for any loss arising on the redemption of Units.

For the purposes of determining the profit or loss arising on the redemption, the redemption price (being the Withdrawal Amount less the share of income provided as part of the Withdrawal Amount) should be regarded as the proceeds received in respect of the disposal.

That part of the Withdrawal Amount that is a share of income should also be assessable, based on the components of the distribution of income.

The Responsible Entity will notify persons who have redeemed Units during a financial year of the composition of the Withdrawal Amount, including the composition of any income entitlement they received in connection with the redemption of Units during that year, following the end of the financial year, once that information becomes available.

7.1.7 Tax reform

Tax reform activity that affects trusts is generally ongoing, and such reforms may impact on the tax position of a Fund and its investors. Accordingly, Unitholders should monitor the progress of any proposed legislative changes or judicial developments, and seek their own professional advice, specific to their own circumstances, in relation to the taxation implications of investing in the Funds.

7.1.8 Tax File Number ("TFN") or Australian Business Number ("ABN")

Unitholders will be requested by the Funds to provide their TFN or ABN (if applicable) or claim an exemption in relation to their investment in the Fund. It should be noted that there is no obligation to provide a TFN, however, Unitholders who do not provide their TFN or ABN or claim an exemption may have tax deducted from distributions at the highest marginal rate.

7.1.9 Other comments

In cases where Units are to be redeemed by a Unitholder that is an Australian resident for tax purposes, a Fund should generally not be required to withhold any amounts from the Withdrawal Amount paid on redemption of Units.

Distributions to non-resident Unitholders (including on redemption) may have tax withheld by the Responsible Entity.

8 GLOSSARY

These definitions are provided to assist investors in understanding some of the expressions used in this PDS:

Applicant Nominee	An entity which holds Units pending settlement on behalf of Authorised Participants applying for Units. As at the date of this PDS the Applicant Nominee is RBC Investor Services Trust. The Responsible Entity may determine that the Applicant Nominee is no longer to be appointed to hold Units pending settlement on behalf of Authorised Participants applying for Units.
AQUA Product	A product admitted under the ASX Operating Rules to the AQUA market of the ASX.
AQUA Rules	Schedule 10A of the ASX Operating Rules and related rules and procedures, as amended, varied or waived from time to time.
ASIC	Australian Securities and Investments Commission.
ASX	ASX Limited or the Australian Securities Exchange, as the case requires.
ASX Business Day	A "Business Day" as defined in the ASX Operating Rules, unless determined otherwise by the Responsible Entity.
ASX Listing Rules	The listing rules of the ASX as amended, varied or waived from time to time.
ASX Operating Rules	The operating rules of the ASX as amended, varied or waived from time to time.
Australian Resident	An Australian resident for tax purposes, as defined in the Constitution.
Authorised Participant	A financial institution which is a trading participant under the ASX Operating Rules (or which has engaged a trading participant to act on its behalf), which has entered into an Authorised Participant Agreement with the Responsible Entity and which is an Australian resident for tax purposes.
Authorised Participant Agreement	An agreement between the Responsible Entity and an Authorised Participant in relation to Unit applications and redemptions.
CHESS	The Clearing House Electronic Sub-register System.
Constitution	In relation to a particular Fund, means the constitution governing the Fund, as amended or replaced from time to time.
Corporations Act	Corporations Act 2001 (Cth)
Creation Unit	In relation to a particular Fund, means a particular number of units of the Fund, as determined by the Responsible Entity from time to time and notified to Authorised Participants.
Dealing Day	A day that is both (a) an ASX Business Day and (b) a day on which exchanges, on which at least 80% of a Fund's assets or derivatives are traded, are open for trading, unless the Responsible Entity determines otherwise
Dealing Deadline	For a cash application/redemption 2:00 pm, and for an in-kind application/redemption (if agreed to by the Responsible Entity) 4:00 pm, Sydney time on each Dealing Day (or such other time advised by the Responsible Entity to Authorised Participants), being the time by which an Application/Redemption Form must be received by the Responsible Entity to be processed for that Dealing Day.
ETF	Exchange Traded Fund.
Fund or BetaShares Fund	The relevant BetaShares Exchange Traded Fund offered under this PDS, as the context requires.

Index	In relation to a particular Fund, the index of securities whose performance the Fund will aim to track, before fees and expenses, as set out in the Product Supplement.
Issue Price	The Net Asset Value divided by the number of Units on issue in the relevant Fund.
Net Asset Value or NAV	The net asset value for a Fund calculated in accordance with section 5.6.
Nominee Terms	In relation to an application for Units, the nominee terms made available by the Responsible Entity to the applicant, as described in section 6.3.
PDS	Product Disclosure Statement.
Product Supplement	The part of this PDS appearing after section 8 that contains information specific to each Fund.
Registrar	Link Market Services Limited (ABN 54 083 214 537), or any other registry that the Responsible Entity appoints to maintain the register.
Tax Act	The Income Tax Assessment Act 1936 (Cth), the Income Tax Assessment Act 1997 (Cth) or both, as appropriate.
Unit	A unit in the relevant Fund.
Unitholder	A holder of a Unit.
Withdrawal Amount	The Net Asset Value divided by the number of Units on issue in the relevant Fund.

PRODUCT SUPPLEMENT

BETASHARES

EUROPE ETF - CURRENCY HEDGED
ASX CODE: HEUR

BETASHARES

JAPAN ETF - CURRENCY HEDGED
ASX CODE: HJPN

PRODUCT SUPPLEMENT: BETASHARES EUROPE ETF - CURRENCY HEDGED

INVESTMENT OBJECTIVE

The investment objective of the BetaShares Europe ETF - Currency Hedged is to provide an investment return that aims to track the performance of the S&P Eurozone Exporters Hedged AUD Index (the "Index"), before taking into account fees and expenses.

The Index is designed to measure the performance of listed companies domiciled in developed markets in the eurozone, with greater than 50% revenue exposure to regions outside the eurozone, while hedging currency risk for Australian investors.

The eurozone refers to the monetary union of those European Union member states which have adopted the euro as their common currency.

INVESTMENT STRATEGY

The Fund will seek to achieve the investment objective by adopting a "full replication" strategy. See section 2.1.2 for further information.

GENERAL INFORMATION

ASX code	HEUR
Periodic distributions	The Responsible Entity intends to make semi-annual distributions in respect of periods ending in or about June and December of each year. Information about the timetable for each distribution and the declared distribution amount will be announced via the ASX Market Announcements Platform. For further information, see "Distributions" in section 2.2.1 of the PDS.
Distribution Reinvestment Plan	Available. For further information, see "Distribution Reinvestment Plan" in section 2.2.3 of the PDS.
Fees and other costs	See "Fees and Other Costs" in section 3 of the PDS.
Minimum application / redemption amount for Authorised Participants	One Creation Unit (unless the Responsible Entity agrees otherwise).

FURTHER INFORMATION ABOUT THE INDEX

The Index provider is a subsidiary of S&P Dow Jones Indices LLC ("Index Provider").

To be eligible for initial inclusion in the Index, a security must meet certain eligibility criteria, including:

- be a constituent of the S&P Eurozone LargeMidcap Index;
- be domiciled in developed markets in the eurozone;
- have a six-month median daily value traded of 2.5m EUR (1.75m EUR for existing constituents at each rebalance); and
- derive more than 50% of their revenue from countries outside of the eurozone (with a buffer of 45% for existing constituents at each rebalance).

Index constituents are weighted by float adjusted market capitalisation and subject to a single security cap of 10%.

The Index will hold a maximum of 150 constituents.

The Index is rebalanced on a semi-annual basis, after the close on the third Friday of May and November. New securities are added to the Index only at the semi-annual rebalance.

The Index is a net total return index, which means that it reinvests cash dividends on the relevant ex-dividend date (the date on which the relevant shares no longer come attached with the right to receive the declared dividend) and adjusts for an Index security's country of incorporation withholding tax rate.

The nature and method of calculation of the Index may change from time to time.

Further information about the Index can be found on the S&P website at <https://us.spindices.com/> and sub-pages.

Neither the Responsible Entity nor any other company in the BetaShares group has any control over, or responsibility for, the composition, calculation or availability of the Index. The Index Provider is not a related company of the Responsible Entity.

Past performance information about the Index is available from various sources, including stockbrokers, financial information websites and major data providers such as Bloomberg or Reuters. Any past performance information about the Index does not take into account fees or taxes that may be incurred as a result of investing in the Fund. Past performance of the Index is not a reliable guide to future performance of the Index or the Fund.

A listing of the Fund's portfolio holdings, updated daily, will be available at www.betashares.com.au.

SPECIFIC RISK FACTORS

In addition to the risk factors set out in section 4 of the PDS, the following additional risks are relevant to the Fund.

Country risk

Further to the description of country risk in section 4 of the PDS, the Index, and therefore the Fund, is fully exposed to listed companies domiciled in developed markets in the eurozone.

Most developed countries in Western Europe are members of the European Union ("EU"), and many are also members of the European Monetary Union, which requires compliance with

restrictions on inflation rates, deficits, and debt levels. Unemployment in certain European nations is historically high and several countries face significant debt problems. These conditions can significantly affect every country in Europe. The euro is the official currency of the EU. Recent market events affecting several of the EU member countries have adversely affected the sovereign debt issued by those countries, and ultimately may lead to a decline in the value of the euro. A significant decline in the value of the euro may produce

unpredictable effects on trade and commerce generally and could lead to increased volatility in financial markets worldwide.

In addition, there is a risk that one or more countries may abandon the euro and/or withdraw from the EU. Should this occur, eurozone share markets, and the value of the Fund's Units, could potentially be adversely affected. This would also be expected to lead to a change in the composition of the Index and, as a result, the Fund's investment exposures.

PRODUCT SUPPLEMENT: BETASHARES JAPAN ETF - CURRENCY HEDGED

INVESTMENT OBJECTIVE

The investment objective of the BetaShares Japan ETF - Currency Hedged is to provide an investment return that aims to track the performance of the S&P Japan Exporters Hedged AUD Index (the "Index"), before taking into account fees and expenses.

The Index is designed to measure the performance of listed companies domiciled in Japan with greater than 50% revenue exposure to regions outside Japan, while hedging currency risk for Australian investors.

INVESTMENT STRATEGY

The Fund will seek to achieve the investment objective by adopting a "full replication" strategy. See section 2.1.2 for further information.

GENERAL INFORMATION

ASX code	HJPN
Periodic distributions	The Responsible Entity intends to make semi-annual distributions in respect of periods ending in or about June and December of each year. Information about the timetable for each distribution and the declared distribution amount will be announced via the ASX Market Announcements Platform. For further information, see "Distributions" in section 2.2.1 of the PDS.
Distribution Reinvestment Plan	Available. For further information, see "Distribution Reinvestment Plan" in section 2.2.3 of the PDS.
Fees and other costs	See "Fees and Other Costs" in section 3 of the PDS.
Minimum application / redemption amount for Authorised Participants	One Creation Unit (unless the Responsible Entity agrees otherwise).

FURTHER INFORMATION ABOUT THE INDEX

The Index provider is a subsidiary of S&P Dow Jones Indices LLC ("Index Provider").

To be eligible for initial inclusion in the Index, a security must meet certain eligibility criteria, including:

- be a constituent of the S&P Japan Large Midcap Index;
- be domiciled in Japan;

- have a six-month median daily value traded of 250m JPY (175m JPY for existing constituents at each rebalance); and
- derive more than 50% of their revenue from countries outside of Japan (with a buffer of 45% for existing constituents at each rebalance).

Index constituents are weighted by float adjusted market capitalisation and subject to a single security cap of 10%.

The Index will hold a maximum of 150 constituents.

The Index is rebalanced on a semi-annual basis, after the close on the third Friday of May and November. New securities are added to the Index only at the semi-annual rebalance.

The Index is a net total return index, which means that it reinvests cash dividends on the relevant ex-dividend date (the date on which the relevant shares no longer come attached with the right to receive the declared dividend) and adjusts for an Index security's country of incorporation withholding rate.

The nature and method of calculation of the Index may change from time to time.

Further information about the Index can be found on the S&P website at <https://us.spindices.com/> and sub-pages.

Neither the Responsible Entity nor any other company in the BetaShares group has any control over, or responsibility for, the composition, calculation or availability of the Index. The Index Provider is not a related company of the Responsible Entity.

Past performance information about the Index is available from various sources, including stockbrokers, financial information websites and major data providers such as Bloomberg or Reuters. Any past performance information about the Index does not take into account fees or taxes that may be incurred as a result of investing in the Fund. Past performance of the Index is not a reliable guide to future performance of the Index or the Fund.

A listing of the Fund's portfolio holdings, updated daily, will be available at www.betashares.com.au.

SPECIFIC RISK FACTORS

In addition to the risk factors set out in section 4 of the PDS, the following additional risks are relevant to the Fund.

Country risk

Further to the description of country risk in section 4 of the PDS, the Index, and therefore the Fund, is fully exposed to securities listed in Japan.

The Japanese economy is heavily dependent on international trade. Slowdowns in the economies of key trading partners such as the United States, China and countries in Southeast Asia could have a negative impact on the Japanese economy as a whole. These and other factors could have a negative impact on the Fund's performance.

FORMS

APPLICATION FORM

Product Disclosure Statement dated 19 July 2019 issued by BetaShares Capital Ltd, ABN 78 139 566 868, AFSL 341181 as Responsible Entity.

Please note: This form is for use by Authorised Participants. Other investors can buy Units on the ASX through a stockbroker or via a financial adviser.

It is important to read the Product Disclosure Statement (PDS) carefully. If this PDS was obtained electronically, a paper copy of this PDS (including any supplementary PDS) and the Application Form will be provided free of charge upon request. If you give another person access to the Application Form you must at the same time and by the same means give the other person access to this PDS and any supplementary PDS. Capitalised terms have the same meaning as in the PDS.

Please fax the completed Application Form to (02) 9262 4950 or scan it and send it by email to orders@betashares.com.au.

Fax (____) _____

NUMBER OF UNITS APPLIED FOR

This Applicant hereby applies to the Responsible Entity for Units as specified below.

Please note: The minimum application is the number of Units that constitute one Creation Unit (as described in the PDS).

Applications must be made in whole multiples of Creation Units unless the Responsible Entity agrees otherwise.

Fund:

BetaShares Europe ETF - Currency Hedged (ASX Code: HEUR)

BetaShares Japan ETF - Currency Hedged (ASX Code: HJPN)

Number of Units:	
Market maker name (if applicable):	

ACKNOWLEDGEMENTS

By signing this Application Form:

- I/We confirm that the representations and warranties made and given in the Authorised Participant Agreement continue to be true and correct.
- I/We confirm that all of the information in this Application Form is true and correct.
- I/We represent and warrant that I/we have received the PDS (electronic or hard copy) in Australia.
- I/We declare I/we have read the PDS and agree to be bound by the terms and conditions of the PDS and the Constitution of the Fund in which I/we are investing (as amended or replaced from time to time).
- I/We agree to the Applicant Nominee holding Units on the applicant's behalf pending settlement of this application in accordance with the Nominee Terms, if required, as determined by the Responsible Entity.
- I/We covenant, for the benefit of the Applicant Nominee, to be bound by the Nominee Terms, if applicable.
- I/We understand that none of BetaShares Holdings Pty Ltd, BetaShares Capital Ltd, any investment manager or their related entities, directors or officers guarantees the performance of, the repayment of capital invested in, or the payment of income from the Fund.
- I/We acknowledge that an investment in Units is subject to risk which may include possible delays in repayment and loss of income and capital invested.
- I/We declare that the applicant has the capacity and power to make an investment in accordance with the application.
- I/We declare that in making a decision to invest the only information and representations provided by the Responsible Entity are those contained in this PDS to which this application relates.
- I/We understand the risks of the investment and have obtained all professional financial and taxation advice independently of the Responsible Entity as we consider necessary prior to deciding to invest in the Fund.
- I/We acknowledge that I/we have read and understood the privacy disclosure statement in the PDS and agree to information about the applicant being collected, used and disclosed in accordance with that statement.
- If signed under power of attorney, the/each attorney verifies that no notice or revocation of that power has been received.
- I/We intend this Application Form to take effect as a deed poll.

NUMBER OF UNITS TO BE REDEEMED

We hereby request the Responsible Entity to redeem Units as specified below.

Please note: The minimum redemption is the number of Units that constitute one Creation Unit, unless the PDS provides otherwise. Redemptions must be made in whole multiples of Creation Units unless the Responsible Entity agrees otherwise.

Fund:

BetaShares Europe ETF - Currency Hedged (ASX Code: HEUR)

BetaShares Europe ETF - Currency Hedged (ASX Code: HJPN)

Number of Units:	
Market maker name (if applicable):	

SIGNATURE BY REDEEMING UNITHOLDER

By signing this Redemption Form:

- If an Authorised Participant, I/we confirm that the representations and warranties made and given in the Authorised Participant Agreement in relation to redemption requests continue to be true and correct.
- I/We confirm that I/we am/are entitled to deliver or arrange delivery of the Units the subject of the redemption request to the Responsible Entity or its custodian.
- I/We agree to reimburse and indemnify the Responsible Entity for all taxes, duties and charges imposed against the Responsible Entity or its agents that may be assessed against the Responsible Entity as a result of my/our entitlement to the capital or distributable income of the Fund (Taxation Amount).
- I/We authorise the Responsible Entity to deduct from my/our income distributions payable from the Fund, on account of the Taxation Amount which the Responsible Entity is or may become liable to pay in respect of my/our entitlement to the capital or distributable income of the Fund.
- I/We confirm that I/we have read and understood the PDS as it relates to redemptions.
- If signed under power of attorney, the/each attorney verifies that no notice or revocation of that power has been received.
