Objective

BGBL aims to track the performance of an index (before fees and expenses) that provides broad diversified exposure to developed markets companies (ex-Australia).

Benefits

Core portfolio allocation to global equities

BGBL provides instant exposure to an index comprising approximately 1,500 companies from more than 20 developed market countries, making the Fund a compelling candidate for a core portfolio allocation to global equities.

Convenient, low-cost access

With management costs of only 0.08% p.a. (or \$8 for every \$10,000 invested), BGBL is a cost-effective solution for investors seeking diversified exposure to global companies**.

Portfolio diversification

BGBL provides exposure to companies from a broad range of global locations and across a wide range of sectors, many of which are under-represented in the Australian sharemarket.

Transparency

Full portfolio holdings of BGBL are available and updated daily on Betashares' website.
