

## ASX: CFLO

31 October 2023

### Objective

CFLO aims to track the performance of an index (before fees and expenses) comprising 200 global companies that demonstrate strong free cash flow.

### Benefits

#### Outperformance potential

Companies that generate high levels of free cash flow historically have tended to outperform broad global equity benchmarks over the medium to long term.

#### Intelligent exposure

CFLO's index methodology targets global companies that demonstrate strong and consistent free cash flow generation, growth of free cash flow, and relatively low levels of debt.

#### Core global equity allocation

The Fund offers diversified exposure to 200 global companies with similar sector and country weights to broad global equity benchmarks.

#### Cost-effective

Management costs of only 0.40% p.a. (or \$40 for every \$10,000 invested).\*

\*Other costs apply. Please refer to the PDS.

Graph shows performance of the underlying index, and not the fund. It does not take into account fund fees and costs. Index performance based on reinvestment of income. Index inception date is 8 May 2006. Index 'live' date is 14 November 2023. Index performance prior to 'live' date is back-tested by the index provider using the index methodology at 'live' date. You cannot invest directly in an index. Fund returns are calculated in A\$ using net asset value per unit at the start and end of the specified period and do not reflect the brokerage or bid-ask spread that investors may incur when buying and selling units on the ASX. Returns are after fund management costs, assume reinvestment of any distributions and do not take into account income tax.
