# **Objective**

CRYP aims to track the performance of an Index (before fees and expenses) that provides exposure to global companies at the forefront of the crypto economy.

# **Benefits**

#### Exposure to the growth potential of the Crypto economy

The crypto economy has been growing strongly, aided by the performance of Bitcoin, Ethereum and other digital assets over the past ten years, with this growth anticipated to continue. The companies within CRYP are seeking to build on that success.

#### Exposure to the broad crypto-equity ecosystem

CRYP is designed to capture the full breadth of the crypto ecosystem by investing in pure-play crypto companies (such as cryptocurrency exchanges, crypto mining companies and mining equipment firms), companies whose balance sheets are held at least 75% in crypto assets, and diversified companies with crypto-focused business lines. CRYP invests in up to 50 crypto leaders, including Coinbase, Riot Blockchain and Microstrategy.

#### Convenient, cost-effective access to the crypto economy

CRYP provides focused exposure to the crypto economy within the familiar ETF structure. You can invest in CRYP as simply as buying any share on the ASX. CRYP can be used as a tactical allocation to the crypto economy, or as a complement to a direct cryptocurrency holding, providing diversification via companies involved in the broader crypto ecosystem.

An investment in CRYP should be considered very high risk. CRYP provides focused exposure to companies involved in servicing crypto-asset markets or which have material investments in crypto-assets. Crypto-assets are highly speculative in nature and companies with significant exposure to crypto-asset markets can be expected to have a very high level of return volatility. An investment in CRYP should only be made by investors who fully understand the features and risks of such companies or after consulting a professional financial adviser, and who have a very high tolerance for risk and the capacity to absorb a rapid loss of some of their investment.

CRYP will not invest in crypto assets directly, and will not track price movements of any crypto assets.
