

Betashares Global Quality Leaders Currency Hedged ETF

ASX: HQLT

30 May 2025

Objective

HQLT aims to track an index (before fees and expenses) that comprises 150 global companies (ex-Australia) ranked by highest quality score, hedged into Australian dollars.

The quality score rankings used to select the stocks in the index are based on a combined ranking of four key factors – return on equity, debt-to-capital, cash flow generation ability and earnings stability.

HQLT currently obtains its investment exposure by investing in the Betashares Global Quality Leaders ETF (ASX: QLTY), with the currency exposure hedged back to the Australian dollar.

Benefits

Access to the world's highest quality companies

HQLT's index has been designed to select quality global companies based on high return on equity and profitability, low leverage and earnings stability.

Currency-hedged

HQLT is currency-hedged to the Australian dollar, which seeks to minimise the effects of currency fluctuations on returns.

Outperformance potential

HQLT's focus on quality aims to produce superior long-term performance compared to benchmark global equities indices.

Diversification

In one ASX trade, access a portfolio of 150 high quality companies from a range of geographies and global sectors, many of which are under-represented in the Australian sharemarket.

Lower historical drawdown

HQLT's index of quality companies has historically exhibited reduced declines during market falls, compared to benchmark global shares indices.
