

31 March 2025

Objective

QUS aims to track the performance of the S&P 500 Equal Weight Index (before fees and expenses). The Index provides exposure to 500 leading listed US companies, with each holding in the index weighted equally.

Strategy

The S&P 500 Equal Weight Index provides exposure to 500 leading companies listed on US stockmarkets. Each stock in the index is given the same weight within the portfolio at each quarterly index rebalance. The Index is the equal-weight version of the market capitalisation-weighted S&P 500 Index.

Benefits

Portfolio diversification and reduced concentration

Cost-effective exposure to 500 leading US companies, in a single ASX trade. Equal weighting approach reduces the risk of the portfolio being heavily exposed to a small number of 'mega cap' companies.

Simple, effective methodology

The equal weighted methodology is simple, yet has been effective. QUS' Index has outperformed the market cap-weighted S&P 500 Index since index calculation¹.

Long-term outperformance potential

By removing the link between the price of a share and its weight in the index, the equal weight approach aims to outperform comparable traditional indexes over time by selling higher priced shares while buying those which are lower priced, through regular rebalancing.

¹ Based on performance comparison between S&P 500 Equal Weight Index and the S&P 500 Index over the period 31 December 1970 (index first calculation date) to date. Past performance is not indicative of future performance of any index or ETF. You cannot invest directly in an index.

Fund returns are calculated in A\$ using net asset value per unit at the start and end of the specified period and do not reflect the brokerage or bid-ask spread that investors may incur when buying and selling units on the ASX. Returns are after fund management costs, assume reinvestment of any distributions and do not take into account income tax.

[#]Inception date refers to the inception of the Fund's current investment strategy on 19 December 2020. Prior to the inception date, the Fund traded under a different investment strategy as the Betashares FTSE RAFI U.S. 1000 ETF and was subject to different management costs. Information about the Fund's performance prior to the inception date is available on request by emailing info@betashares.com.au or calling 1300 487 577.
