Product description

Bendigo SmartStart Super (BSSS) is a product for individuals to accumulate savings for retirement through the superannuation system. It can accept all types of superannuation contributions within the meaning of the Superannuation Industry (Supervision) Act 1993. The product is not a self-managed super fund.

The product has a limited investment menu that offers a cash investment option (Cash Account) and a range of managed funds. Flexibility is available for managing income distributions received from any managed fund investment option and how the Cash Account investment level is maintained. Insurance options are available to consumers who want to have insurance cover for illness, injury, permanent incapacity and/or death.

Product key attributes

The key attributes of this product that make it likely to be consistent with the target markets described above, include:

Product attributes	Appropriate for target market
Eligibility	Consumers who are physically present in Australia when they apply.
Preservation rules	Consumers who would not need to access their superannuation benefits until retirement or a condition of release is met.
Fees and costs	Consumers willing to pay the fees and costs associated with the product.
Tax	Consumers seeking to accumulate wealth in a concessional tax environment.
Investments options	<p>Consumers who:</p> <ul style="list-style-type: none"> want to hold 1.5% or more of their account balance in the Cash Account, and for the remaining balance, want to make their own investment selection from a limited investment menu containing managed funds to suit a range of risk/return profiles which suit their investment needs and objectives.
Insurance options	Consumers seeking access to a range of insurance options subject to eligibility that can be tailored to their requirements or default.
Nomination of beneficiaries	Consumers who would like to make a binding death benefit nomination for their account.

Bendigo Superannuation

Who this product is not designed for

This product has not been designed for consumers who:

- are seeking to invest with readily available access to their investments, as withdrawals from the product are subject to superannuation preservation rules.
- don't understand and/or accept that the investments made available through BSSS are subject to an investment risk/return trade-off.
- want to invest in single sector equity managed funds, direct shares, direct term deposits and other financial products that are not registered managed investment schemes.
- have a pre-existing medical condition and are not comfortable with the pre-existing medical condition (PEC) exclusion in default insurance cover.
- want to transfer their overseas pension or retirement account, such as a Kiwi Saver or UK pension account, into the product.
- want to invest in an option that filters for Environmental, Social and Governance (ESG) factors.

Investment options

Ready-made diversified options

Our diversified investment options are designed to meet the risk/return of the majority of consumers and those consumers who want to invest in a diversified portfolio of asset classes based on the investment strategy of the relevant fund(s). Consumers may invest in an option on its own or develop a diversified portfolio combining a mix of passive, active, defensive and growth investments that meet their investment needs and goals. Additionally, consumers may invest in the options as recommended under a personal financial product advice arrangement that considers their personal objectives, financial situation or needs.

Investment options	Investment return objective*	Overall class of consumers designed for**	Risk level and recommended investment timeframe
Passive options			
Bendigo Defensive Index Fund	To deliver investment returns after fees in excess of 1% above inflation.	<p>To invest in this style, a consumer would likely have a low tolerance for losses and risks.</p> <p>This investment style is most likely to suit the retirement cohort.**</p> <p>The neutral position of the Fund is 20% growth assets and 80% defensive assets.</p>	Low to Medium risk and minimum 2 years
Bendigo Conservative Index Fund	To deliver investment returns after fees in excess of 2% above inflation.	<p>To invest in this style, a consumer would likely have a lower tolerance for losses and risks.</p> <p>This investment style is most likely to suit the retirement and pre-retirement cohorts.**</p> <p>The neutral position of the Fund is 40% growth assets and 60% defensive assets.</p>	Medium risk and minimum 3 years

Bendigo Superannuation

Investment options	Investment return objective*	Overall class of consumers designed for**	Risk level and recommended investment timeframe
Bendigo Balanced Index Fund	To deliver investment returns after fees in excess of 3% above inflation.	<p>To invest in this style, a consumer would likely be willing to accept some risk in return for potential higher returns over the medium to longer term.</p> <p>This investment style is most likely to suit accumulation phase and pre-retirement cohorts.**</p> <p>The neutral position of the Fund is 60% growth assets and 40% defensive assets.</p>	Medium to high risk and minimum 4 years
Bendigo Growth Index Fund	To deliver investment returns after fees in excess of 3.5% above inflation.	<p>To invest in this style, a consumer would likely seek the higher risk investments (like equities, stock, property and bonds) whilst being comfortable with long term investments.</p> <p>This investment style is most likely to suit the accumulation phase cohort.**</p> <p>The neutral position of the Fund is 80% growth assets and 20% defensive assets.</p>	Medium to high risk and minimum 5 years
Bendigo High Growth Index Fund	To deliver investment returns after fees in excess of 4% above inflation.	<p>To invest in this style, a consumer would likely seek the high risk investments (like equities, stock, property and bonds) whilst being comfortable with long term investments.</p> <p>This investment style is most likely to suit the accumulation phase cohort.**</p> <p>The neutral position of the Fund is 95% growth assets and 5% defensive assets.</p>	High risk and minimum 7 years
Active Options			
Bendigo Defensive Wholesale Fund	To deliver investment returns after fees in excess of 1% above inflation.	<p>To invest in this style, a consumer would likely have a low tolerance for losses and risks.</p> <p>This investment style is most likely to suit the retirement cohort.**</p> <p>The neutral position of the Fund is 20% growth assets and 80% defensive assets.</p>	Low to Medium risk and minimum 2 years
Bendigo Conservative Wholesale Fund	To deliver investment returns after fees in excess of 2% above inflation.	<p>To invest in this style, a consumer would likely have a lower tolerance for losses and risks.</p> <p>This investment style is most likely to suit the retirement and pre-retirement cohorts.**</p> <p>The neutral position of the Fund is 40% growth assets and 60% defensive assets.</p>	Medium risk and minimum 3 years

* The investment return objective is over a 10 year period. Please note that all investment return objectives are expressed as net of fees but before tax.

** All cohorts may have a full range of risk tolerances or use multiple investment options to meet their individual needs.

Bendigo Superannuation

Sector specific options

Our single asset class options are designed for consumers who want to build their own investment portfolio to suit their personal risk/return objectives. Consumers may invest in an option on its own or develop a diversified portfolio combining a mix of passive, active, defensive and growth investments that meet their investment needs and goals. Additionally, consumers may invest in the options as recommended under a personal financial product advice arrangement that considers their personal objectives, financial situation or needs.

Investment options	Investment return objective	Overall class of consumers designed for**	Risk level and recommended investment timeframe
Cash Account***	To meet or exceed the Bloomberg AusBond Bank Bill Index (after fees) over any one-year period	To invest in this style, a consumer would likely have a very low tolerance for losses and risks. Usually, this portfolio will be 100% defensive assets.	Very low risk, no minimum timeframe
Sandhurst Strategic Income Fund-Class B Units	To outperform the Bloomberg AusBond Bank Bill Index (after fees) over any two-year period.	To invest in this style, a consumer would likely have a low tolerance for losses and risks. This investment style is most likely to suit the retirement and pre-retirement cohorts.** Usually at least 60% of this portfolio would be in defensive assets.	Low risk and minimum 2 years

** All cohorts may have a full range of risk tolerances or use multiple investment options to meet their individual needs.

***Consumers are required to maintain a default cash minimum of 1.5% of account balance for operational reasons.

Insurance products

Consumer Attributes / Target Market	Accumulation Phase Cohort	Pre-Retirement Cohort	Retirement Cohort
Age range	Up to age 50	From age 50 to preservation age or age 65	Over age 65
Likely Insurance needs	<p>Consumers who want to obtain life and related insurance cover through their superannuation account. There are two types of Death and Total and Permanent Disablement (TPD) insurance options available to those who meet the eligibility criteria and conditions: (1) Default cover; and (2) Tailored cover.*</p> <p>The Death, TPD and Income Protection insurance cover options are designed for consumers looking to protect their wealth and assist in managing financial responsibilities if unforeseen events occur.</p> <p>Ability to cancel or apply to vary insurance cover at any time.</p>		<p>Insurance cover needs are generally lower from age 65. Income Protection is not available for this demographic.</p> <p>For default cover, Death only cover is available.</p> <p>For TPD, a restricted definition applies from age 65 for tailored cover.*</p> <p>Ability to cancel or apply to vary insurance cover at any time.</p>
