Performance figures are based on exit price to exit price for the relevant periods and on the assumption that all distributions are reinvested. Performance figures are calculated net of investment fees, costs and estimated investment tax rates, but do not take into account administration fees, insurance premiums, advice fees and other member activity fees. Estimated investment tax rates have been applied, based on assumed returns and estimated asset class allocations of the investment option. These figures are provided for comparison purposes only and are not used for crediting returns to members' accounts. Actual member returns may vary and will be reported on member statements.
