## INTRODUCTION

This document (the "**GUIDELINE**") is to be used as a guideline with regard to the composition, calculation and maintenance of the Solactive Equities Catholic Values Indices (the "**INDEX**"). Any amendments to the rules made to the GUIDELINE are approved by the INDEX COMMITTEE specified in Section 5.5. The INDEX is owned, calculated, administered and published by Solactive AG ("**SOLACTIVE**") assuming the role as administrator (the "**INDEX ADMINISTRATOR**"). The name "Solactive" is trademarked.

*The text uses defined terms which are formatted with "SMALL CAPS". Such Terms shall have the meaning assigned to them as specified in Section 6 (Definitions).*

**The GUIDELINE and the policies and methodology documents referenced herein contain the underlying principles and rules regarding the structure and operation of the INDEX. SOLACTIVE does not offer any explicit or tacit guarantee or assurance, neither pertaining to the results from the use of the INDEX nor the level of the INDEX at any certain point in time nor in any other respect. SOLACTIVE strives to the best of its ability to ensure the correctness of the calculation. There is no obligation for SOLACTIVE – irrespective of possible obligations to issuers – to advise third parties, including investors and/or financial intermediaries, of any errors in the INDEX. The publication of the INDEX by SOLACTIVE does not constitute a recommendation for capital investment and does not contain any assurance or opinion of SOLACTIVE regarding a possible investment in a financial instrument based on this INDEX.**

# 1. INDEX SPECIFICATIONS

## 1.1. SCOPE OF THE INDEX

| Category              | Description                                                                                                                                                                                                                                    |
|-----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Asset Class           | Equity                                                                                                                                                                                                                                         |
| Strategy              | Representation of securities that pass Catholic values-based exclusionary screens developed primarily with reference to the Socially Responsible Investment Guidelines for the United States Conference of Catholic Bishops (USCCB guidelines) |
| Regional Allocation   | Multiple                                                                                                                                                                                                                                       |
| Rebalancing Fee       | -                                                                                                                                                                                                                                              |
| Rebalancing Frequency | Semi-annually                                                                                                                                                                                                                                  |

## 1.2. IDENTIFIERS AND PUBLICATION

The INDEX is published under the following identifiers:

| Name                                                             | ISIN         | Currency | Type | RIC       | BBG ticker |
|------------------------------------------------------------------|--------------|----------|------|-----------|------------|
| Solactive Global Equities ex-Australia Catholic Values Index PR  | DE000SLOU103 | AUD      | PR*  | .SOGCVALP | SOGCVALN   |
| Solactive Global Equities ex-Australia Catholic Values Index NTR | DE000SLOU129 | AUD      | NTR* | .SOGCVALN |            |
| Solactive Global Equities ex-Australia Catholic Values Index TR  | DE000SLOU111 | AUD      | GTR* | .SOGCVALT |            |
| Solactive Australian Equities Catholic Values Index PR           | DE000SLOU2E7 | AUD      | PR*  | .SOACVALP | SOACVALT   |
| Solactive Australian Equities Catholic Values Index NTR          | DE000SLOU2B3 | AUD      | NTR* | .SOACVALN |            |
| Solactive Australian Equities Catholic Values Index TR           | DE000SLOU2F4 | AUD      | GTR* | .SOACVALT |            |

\*PR, NTR, GTR means that the Index is calculated as price return, net total return, gross total return Index as described in the Equity Index Methodology, which is available on the SOLACTIVE website: <https://www.solactive.com/documents/equity-index-methodology/>.

The INDEX is published on the website of the INDEX ADMINISTRATOR ([www.solactive.com](http://www.solactive.com)) and is, in addition, available via the price marketing services of Boerse Stuttgart GmbH and may be distributed to all of its affiliated vendors. Each vendor decides on an individual basis as to whether it will distribute or display the INDEX via its information systems.

Any publication in relation to the INDEX (e.g. notices, amendments to the GUIDELINE) will be available at the website of the INDEX ADMINISTRATOR: <https://www.solactive.com/news/announcements/>.

### 1.3. INITIAL LEVEL OF THE INDEX

The initial level of the INDEX on the START DATE is 1000. The START DATE of the indices are per below table.

| Index                                                        | START DATE |
|--------------------------------------------------------------|------------|
| Solactive Global Equities ex-Australia Catholic Values Index | 02/08/2023 |
| Solactive Australian Equities Catholic Values Index          | 15/09/2023 |

Historical values from the 20/08/2026 the LIVE DATE, will be recorded. Levels of the INDEX published for a period prior to the LIVE DATE have been back-tested.

### 1.4. PRICES AND CALCULATION FREQUENCY

The level of the INDEX is calculated on each CALCULATION DAY from 1:00 a.m. to 10:50 p.m. CET based on the TRADING PRICES on the EXCHANGES on which the INDEX COMPONENTS are listed. TRADING PRICES of INDEX COMPONENTS not listed in the INDEX CURRENCY are converted using the current Intercontinental Exchange (ICE) spot foreign exchange rate. Should there be no current TRADING PRICE for an INDEX COMPONENT, the later of: (i) the most recent CLOSING PRICE; or (ii) the last available TRADING PRICE for the preceding TRADING DAY is used in the calculation.

In addition to the intraday calculation a closing level of the INDEX for each CALCULATION DAY is also calculated. This closing level is based on the CLOSING PRICES for the INDEX COMPONENTS on the respective EXCHANGES on which the INDEX COMPONENTS are listed. The CLOSING PRICES of INDEX COMPONENTS not listed in the INDEX CURRENCY are converted using the 04:00 p.m. London time rates provided by WM/ Refinitiv (the "WM/ Refinitiv Rate"). If there is no 04:00 p.m. London time WM/ Refinitiv Rate for the relevant CALCULATION DAY, the last available 04:00 p.m. London time WM/ Refinitiv Rate will be used for the closing level calculation.

## 1.5. LICENSING

Licenses to use the INDEX as the underlying value for financial instruments, investment funds and financial contracts may be issued to stock exchanges, banks, financial services providers and investment houses by SOLACTIVE.

## 2. INDEX SELECTION

On each SELECTION DAY, the INDEX ADMINISTRATOR will revise the composition of the INDEX.

In a first step, the INDEX ADMINISTRATOR determines the INDEX UNIVERSE in accordance with Section 2.1. The INDEX UNIVERSE comprises all those financial instruments which fulfill the INDEX UNIVERSE REQUIREMENTS (as specified in Section 2.1) and will constitute a starting pool from which the components of the INDEX will be selected. Based on this INDEX UNIVERSE, the new composition of the INDEX will be determined by applying the rules outlined in Section 2.2.

Each new INDEX COMPONENT will be assigned a weight as described in Section 2.3.

### 2.1. INDEX UNIVERSE REQUIREMENTS

The INDEX UNIVERSE is comprised of all financial instruments which fulfill the below requirements (the "**INDEX UNIVERSE REQUIREMENTS**");

| Index                                                        | INDEX UNIVERSE                                                                                                                                     |
|--------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| Solactive Global Equities ex-Australia Catholic Values Index | Universe Index Component of the Solactive GBS Developed Markets ex Australia Large & Mid Cap AUD Index PR (ISIN: DE000SLOHVV9), on a Selection Day |
| Solactive Australian Equities Catholic Values Index          | UNIVERSE INDEX COMPONENT of the Solactive Australia 200 Index (PR) (ISIN: DE000SLA5FF0), on a SELECTION DAY.                                       |

The determination of the INDEX UNIVERSE is fully rule-based and the INDEX ADMINISTRATOR cannot make any discretionary decisions.

### 2.2. SELECTION OF THE INDEX COMPONENTS

Based on the INDEX UNIVERSE, the initial composition of the INDEX as well as any selection for an ordinary rebalance is determined on the SELECTION DAY in accordance with the following rules:

(the "**INDEX COMPONENT REQUIREMENTS**");

All securities in the respective Index Universe are evaluated against a set of Catholic values-based exclusionary screening criteria developed primarily with reference to the USCCB Guidelines. The business

activities screened and the applicable materiality thresholds used for the purposes of Index construction are set out in the table below. The evaluation is based on data provided by the Data Provider.

| Theme                          | Focus area                      | Materiality threshold / Exclusion criterion                                  |
|--------------------------------|---------------------------------|------------------------------------------------------------------------------|
| Norm-Based Research            | Child Labor and Modern Slavery  | Verified severe to very severe involvement (as defined by the Data Provider) |
| Controversial Weapons Research | Chemical weapons                | Verified ongoing involvement (as defined by the Data Provider)               |
|                                | Biological weapons              |                                                                              |
|                                | Nuclear weapons                 |                                                                              |
|                                | Depleted Uranium                |                                                                              |
|                                | Nuclear weapons outside the NPT |                                                                              |
|                                | Cluster munitions               |                                                                              |
|                                | Anti-personnel mines            |                                                                              |
| Activity-Based Screening       | Incendiary Weapons              | 0% Production or 5% Distribution or 5% Services                              |
|                                | Tobacco                         |                                                                              |
|                                | E-Cigarettes                    |                                                                              |
|                                | Abortions                       |                                                                              |
|                                | Abortifacients                  |                                                                              |
|                                | In Vitro Fertilization          |                                                                              |
|                                | Contraceptives                  |                                                                              |
|                                | Stem Cells                      | Any identified involvement or tie (as defined by the Data Provider)          |

|                                            |                                                 |
|--------------------------------------------|-------------------------------------------------|
| Military Equipment (combat equipment only) | 0% Production or 5% Distribution                |
| Civilian Firearms                          | 0% Production or 5% Distribution                |
| Pornography                                | 0% Production or 5% Distribution                |
| Gambling                                   | 0% Production or 5% Distribution or 5% Services |
| Cannabis (Recreational)                    | 0% Production or 5% Distribution                |

Explanation: % figures refer to revenue threshold (for degree of involvement) above which criterion is breached

All companies violating any of the exclusion criteria above are excluded. All companies for which an evaluation of these exclusion criteria is not possible due to insufficient and/or missing information or data are excluded.

For the Solactive Australian Equities Catholic Values Index all securities passing the exclusion criteria are selected as INDEX COMPONENTS.

For the Solactive Global Equities ex-Australia Catholic Values Index all securities which pass the exclusion criteria are ranked by FREE FLOAT MARKET CAPITALIZATION. The largest 500 securities are selected at inception. On each following SELECTION DAY, all securities that rank in the top 425 are selected. Additionally, current INDEX COMPONENTS ranked in the top 575 are selected until at most 500 securities are selected. If less than 500 securities are selected at this stage, the next highest ranked securities are selected until 500 securities are selected.

The selection of the INDEX COMPONENTS is fully rule-based and the INDEX ADMINISTRATOR cannot make any discretionary decision.

The United States Conference of Catholic Bishops (USCCB) has not sponsored, endorsed, approved or reviewed the INDEX. References to the USCCB Guidelines in this GUIDELINE indicate that certain screening criteria have been developed with reference to those guidelines and do not imply endorsement by the USCCB.

## 2.3. WEIGHTING OF THE INDEX COMPONENTS

Each INDEX COMPONENT is assigned a weight by an optimization that minimizes the cumulative squared weight deviation from the PARENT INDEX on each SELECTION DAY, subject to the following constraints:

1. Maximum absolute weight deviation from the weight in the PARENT INDEX is capped at 1%. Individual Weights are capped at 10 times the weight of the security in the Parent Index and floored at 0.001%.
2. Compared to the PARENT INDEX, absolute deviation of the sector weights is capped at 2%. If the cumulative maximum possible weight, as detailed in constraint 1, of all INDEX COMPONENTS in a sector is less than what is required to achieve this sector weight constraint, the cumulative maximum possible weight of all INDEX COMPONENTS of each sector is set as the minimum sector weight for this sector.
3. Compared to the PARENT INDEX, absolute deviation of the country weights is capped at 3%. If the cumulative maximum possible weight, as detailed in constraint 1, of all INDEX COMPONENTS in a country is less than what is required to achieve this country weight constraint, the cumulative maximum possible weight of all INDEX COMPONENTS of each country is set as the minimum country weight for this country.

If no solution can be found, the constraints are iteratively relaxed in the following order until a solution is found:

1. Sector and country weight constraints: Compared to the PARENT INDEX, maximum absolute deviation of the sector and country weights is increased by 0.5%.
2. Single weight constraint: Maximum absolute deviation from the weight in the Parent Index is increased by 0.25%.

## 3. REBALANCE

### 3.1. ORDINARY REBALANCE

In order to reflect the new selection of the INDEX COMPONENTS determined on the SELECTION DAY (in accordance with Section 2.1 and 2.2) the INDEX is adjusted on the REBALANCE DAY after CLOSE OF BUSINESS.

This is carried out by implementing the shares as determined on the FIXING DAY based on the weights calculated on the SELECTION DAY.

For more information on the rebalance procedure please refer to the Equity Index Methodology, which is incorporated by reference and available on the Solactive website: <https://www.solactive.com/documents/equity-index-methodology/>.

SOLACTIVE will publish any changes made to the INDEX COMPONENTS with sufficient notice before the REBALANCE DAY on the SOLACTIVE website under the section "News", which is available at <https://www.solactive.com/news/announcements/>.

### 3.2. EXTRAORDINARY REBALANCE

The INDEX is not rebalanced extraordinarily.

## 4. CALCULATION OF THE INDEX

### 4.1. INDEX FORMULA

The INDEX is calculated as a price return, net total return and gross total return Index.

The calculation is performed according to the Equity Index Methodology, which is available on the SOLACTIVE website: <https://www.solactive.com/documents/equity-index-methodology/>. The divisor index formula stipulates that the level of the INDEX changes based on the change of the prices of its INDEX COMPONENTS taking into account their weight in the INDEX and any currency conversion in case the price of an INDEX COMPONENT is quoted in a currency other than the INDEX CURRENCY.

Any dividends or other distributions are reinvested across the entire basket of INDEX COMPONENTS by means of a divisor at the opening of the effective date (the so-called ex-date) of the payment of such dividend or other distribution.

A more detailed description of the mechanics of the index calculation formula can be found in the Equity Index Methodology under Section 1.2.

### 4.2. ACCURACY

The level of the INDEX will be rounded to two decimal places. Divisors will be rounded to six decimal places. TRADING PRICES and foreign exchange rates will be rounded to six decimal places.

### 4.3. ADJUSTMENTS

Under certain circumstances, an adjustment of the INDEX may be necessary between two regular REBALANCE DAYS. Such adjustment has to be made if a corporate action (as specified in Section 4.4 below) in relation of an INDEX COMPONENT occurs. Such adjustment may have to be done in relation to an INDEX COMPONENT and/or may also affect the number of INDEX COMPONENTS and/or the weighting of certain INDEX COMPONENTS and will be made in compliance with the Solactive Equity Index Methodology, which is incorporated by reference and available on the SOLACTIVE website: <https://www.solactive.com/documents/equity-index-methodology/>.

SOLACTIVE will announce the INDEX adjustment giving a notice period of at least two TRADING DAYS (with respect to the affected INDEX COMPONENT) on the SOLACTIVE website under the section "News", which is available at <https://www.solactive.com/news/announcements/>. The INDEX adjustments will be implemented on the effective day specified in the respective notice.

## 4.4. CORPORATE ACTIONS

As part of the INDEX maintenance SOLACTIVE will consider various events – also referred to as corporate actions – which result in an adjustment to the INDEX between two regular REBALANCE DAYS. Such events have a material impact on the price, weighting or overall integrity of INDEX COMPONENTS. Therefore, they need to be accounted for in the calculation of the INDEX. Corporate actions will be implemented from the cum-day to the ex-day of the corporate action, so that the adjustment to the INDEX coincides with the occurrence of the price effect of the respective corporate action.

Adjustments to the INDEX to account for corporate actions will be made in compliance with the Equity Index Methodology, which is available on the SOLACTIVE website: <https://www.solactive.com/documents/equity-index-methodology/>. This document contains for each corporate action a brief definition and specifies the relevant adjustment to the INDEX variables.

While SOLACTIVE aims at creating and maintaining its methodology for treatment of corporate actions as generic and transparent as possible and in line with regulatory requirements, it retains the right in accordance with the Equity Index Methodology to deviate from these standard procedures in case of any unusual or complex corporate action or if such a deviation is made to preserve the comparability and representativeness of the INDEX over time.

SOLACTIVE considers following, but not conclusive, list of corporate actions as relevant for INDEX maintenance:

- Cash Distributions (e.g. payment of a dividend)
- Stock distributions (e.g. payment of a dividend in form of additional shares)
- Stock distributions of another company (e.g. payment of a dividend in form of additional shares of another company (e.g. of a subsidiary))
- Share splits (company's present shares are divided and therefore multiplied by a given factor)
- Reverse splits (company's present shares are effectively merged)
- Capital increases (such as issuing additional shares)
- Share repurchases (a company offer its shareholders the option to sell their shares to a fixed price)
- Spin-offs (the company splits its business activities into two or more entities and distributes new equity shares in the created entities to the shareholders of the former entity)
- Mergers & Acquisitions (transaction in which the ownership of a company (or other business organizations) are transferred or consolidated with other entities, e.g. fusion of two or more separate companies into one entity)
- Delistings (company's shares are no longer publicly traded at a stock exchange)

- > Nationalization of a company (effective control of a legal entity is taken over by a state)
- > Insolvency

## 4.5. RECALCULATION

SOLACTIVE makes the greatest possible efforts to accurately calculate and maintain its indices. However, errors in the determination process may occur from time to time for variety reasons (internal or external) and therefore, cannot be completely ruled out. SOLACTIVE endeavors to correct all errors that have been identified within a reasonable period of time. The understanding of “a reasonable period of time” as well as the general measures to be taken are generally depending on the underlying and is specified in the Solactive Correction Policy, which is incorporated by reference and available on the SOLACTIVE website: <https://www.solactive.com/documents/correction-policy/>.

## 4.6. MARKET DISRUPTION

In periods of market stress SOLACTIVE calculates its indices following predefined and exhaustive arrangements as described in the Solactive Disruption Policy, which is incorporated by reference and available on the SOLACTIVE website: <https://www.solactive.com/documents/disruption-policy/>. Such market stress can arise due to a variety of reasons, but generally results in inaccurate or delayed prices for one or more INDEX COMPONENTS. The determination of the INDEX may be limited or impaired at times of illiquid or fragmented markets and market stress.

## 5. MISCELLANEOUS

### 5.1. DISCRETION

Any discretion which may need to be exercised in relation to the determination of the INDEX (for example the determination of the INDEX UNIVERSE (if applicable), the selection of the INDEX COMPONENTS (if applicable) or any other relevant decisions in relation to the INDEX) shall be made in accordance with strict rules regarding the exercise of discretion or expert judgement.

### 5.2. METHODOLOGY REVIEW

The methodology of the INDEX is subject to regular review, at least annually. In case a need of a change of the methodology has been identified within such review (e.g. if the underlying market or economic reality has changed since the launch of the INDEX, i.e. if the present methodology is based on obsolete assumptions and factors and no longer reflects the reality as accurately, reliably and appropriately as before), such change will be made in accordance with the Solactive Methodology Policy, which is incorporated by reference and available on the SOLACTIVE website: <https://www.solactive.com/documents/methodology-policy/>.

Such change in the methodology will be announced on the SOLACTIVE website under the section "News", which is available at <https://www.solactive.com/news/announcements/>. The date of the last amendment of this INDEX is contained in this GUIDELINE.

### 5.3. CHANGES IN CALCULATION METHOD

The application by the INDEX ADMINISTRATOR of the method described in this document is final and binding. The INDEX ADMINISTRATOR shall apply the method described above for the composition and calculation of the INDEX. However, it cannot be excluded that the market environment, supervisory, legal and financial or tax reasons may require changes to be made to this method. The INDEX ADMINISTRATOR may also make changes to the terms and conditions of the INDEX and the method applied to calculate the INDEX that it deems to be necessary and desirable in order to prevent obvious or demonstrable error or to remedy, correct or supplement incorrect terms and conditions. The INDEX ADMINISTRATOR is not obliged to provide information on any such modifications or changes. Despite the modifications and changes, the INDEX ADMINISTRATOR will take the appropriate steps to ensure a calculation method is applied that is consistent with the method described above.

## 5.4. TERMINATION

SOLACTIVE makes the greatest possible efforts to ensure the resilience and continued integrity of its indices over time. Where necessary, SOLACTIVE follows a clearly defined and transparent procedure to adapt Index methodologies to changing underlying markets (see Section 5.2 "Methodology Review") in order to maintain continued reliability and comparability of the indices. Nevertheless, if no other options are available the orderly cessation of the INDEX may be indicated. This is usually the case when the underlying market or economic reality, which an index is set to measure or to reflect, changes substantially and in a way not foreseeable at the time of inception of the index, the index rules, and particularly the selection criteria, can no longer be applied coherently or the index is no longer used as the underlying value for financial instruments, investment funds and financial contracts.

SOLACTIVE has established and maintains clear guidelines on how to identify situations in which the cessation of an index is unavoidable, how stakeholders are to be informed and consulted and the procedures to be followed for a termination or the transition to an alternative index. Details are specified in the Solactive Termination Policy, which is incorporated by reference and available on the SOLACTIVE website: <https://www.solactive.com/documents/termination-policy/>.

## 5.5. INDEX COMMITTEE

An index committee composed of staff from SOLACTIVE and its subsidiaries (the "**INDEX COMMITTEE**") is responsible for decisions regarding any amendments to the rules of the INDEX. Any such amendment, which may result in an amendment of the GUIDELINE, must be submitted to the INDEX COMMITTEE for prior approval and will be made in compliance with the Methodology Policy, which is available on the SOLACTIVE website: <https://www.solactive.com/documents/methodology-policy/>.

## 6. DEFINITIONS

**“CALCULATION DAY”** is every weekday from Monday to Friday. For the Solactive Australian Equity Catholic Values Index a day on which the Australian Stock Exchange is not open for general business is not a CALCULATION DAY.

**“CLOSE OF BUSINESS”** is the calculation time of the closing level of the INDEX as outlined in Section 1.4.

The **“CLOSING PRICE”** in respect of an INDEX COMPONENT and a TRADING DAY is a security's final regular-hours TRADING PRICE published by the EXCHANGE and determined in accordance with the EXCHANGE regulations. If the EXCHANGE has no or has not published a CLOSING PRICE in accordance with the EXCHANGE rules for an INDEX COMPONENT, the last TRADING PRICE will be used.

**“DATA PROVIDER”** is ISS. For more information, please visit: <https://www.issgovernance.com/>.

**“ELIGIBLE GBS REBALANCE DAY”** is each day that is a TRADING DAY at the New York Stock Exchange, the London Stock Exchange, the EUREX Exchange and the Tokyo Stock Exchange.

**“EXCHANGE”** is with respect to the INDEX and every INDEX COMPONENT, the respective exchange where the INDEX COMPONENT has its listing as determined in accordance with the rules in Section 2.

**“FIXING DAY”** is the SELECTION DAY.

**“GUIDELINE”** shall have the meaning as defined in Section “Introduction”.

**“INDEX”** shall have the meaning as defined in Section “Introduction”.

**“INDEX ADMINISTRATOR”** shall have the meaning as defined in Section “Introduction”.

**“INDEX COMPONENT”** is each security reflected in the INDEX.

**“INDEX COMPONENT REQUIREMENTS”** shall have the meaning as defined in Section 2.2.

**“INDEX CURRENCY”** is the currency specified in the column “Currency” in the table in Section 1.2.

**“INDEX UNIVERSE REQUIREMENTS”** shall have the meaning as defined in Section 2.1.

**“INDEX UNIVERSE”** is the sum of all financial instruments which fulfill the INDEX UNIVERSE REQUIREMENTS.

**“LIVE DATE”** shall have the meaning as defined in Section 1.3.

**“INDEX COMMITTEE”** shall have the meaning as defined in Section 5.5.

**“REBALANCE SCHEDULE”** is defined as below and follows the schedule of the respective underlying INDEX UNIVERSE on a semi-annual basis.

| Index                                                        | REBALANCE DAY                                                                      | SELECTION DAY                                                                       |
|--------------------------------------------------------------|------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| Solactive Global Equities ex-Australia Catholic Values Index | REBALANCE DAY is the first Wednesday in February and August. If that day is not an | SELECTION DAY is 20 weekdays (Monday to Friday) before the scheduled REBALANCE DAY, |

|                                                     |                                                                                                                                                                              |                                                                                                                                  |
|-----------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------|
|                                                     | ELIGIBLE GBS REBALANCE DAY, the REBALANCE DAY will be the immediately following ELIGIBLE GBS REBALANCE DAY.                                                                  | disregarding any potential change of the REBALANCE DAY.                                                                          |
| Solactive Australian Equities Catholic Values Index | REBALANCE DAY is the third Friday in March and September. If that day is not a CALCULATION DAY of the Index, the REBALANCE DAY is the immediately following CALCULATION DAY. | SELECTION DAY is 15 CALCULATION DAYS before the scheduled REBALANCE DAY, disregarding any potential change of the REBALANCE DAY. |

**"SOLACTIVE"** shall have the meaning as defined in Section "Introduction".

**"START DATE"** shall have the meaning as defined in Section 1.3.

**"TRADING DAY"** is with respect to an INDEX COMPONENT included in the INDEX at the REBALANCE DAY and every INDEX COMPONENT included in the INDEX at the CALCULATION DAY immediately following the REBALANCE DAY (for clarification: this provision is intended to capture the TRADING DAYS for the securities to be included in the INDEX as new INDEX COMPONENTS with close of trading on the relevant EXCHANGE on the REBALANCE DAY) a day on which the relevant EXCHANGE is open for trading (or a day that would have been such a day if a market disruption had not occurred), excluding days on which trading may be ceased prior to the scheduled EXCHANGE closing time and days on which the EXCHANGE is open for a scheduled shortened period. The INDEX ADMINISTRATOR is ultimately responsible as to whether a certain day is a TRADING DAY.

The **"TRADING PRICE"** in respect of an INDEX COMPONENT and a TRADING DAY is the most recent published price at which the INDEX COMPONENT was traded on the respective EXCHANGE.

**"UNIVERSE INDEX COMPONENT"** is each security selected in the Universe Index specified in Section 2.1 as of the SELECTION DAY. To clarify, the UNIVERSE INDEX COMPONENT is the pro-forma Index Component as defined in the guidelines of the respective Universe Index.

**"WM/REFINITIV RATE"** shall have the meaning as defined in Section 1.4.

## 7. HISTORY OF INDEX CHANGES

| Version | Date           | Description                                         |
|---------|----------------|-----------------------------------------------------|
| 1.0     | 20 August 2026 | Index Guideline creation ( <i>initial version</i> ) |
|         |                |                                                     |
